Teleportation By Almighty God BBB And Many Other Miracles Since 22-23-December 1949 In Middle Gummed Of Babri Mosque Witnessed By Abdul Barkat Ali Recorded In FIR By SI Ram Deo Duby Was A Reality It Was Confirmed When Creator Of Universe Lord Natraz BBB Got Annoyed By SC Erroneous Conclusion Where His Janamasthal was Allotted To Fake Janmasthan Of Lord Ram The Creation And He Made Tandav By Spreading Covid 19 Globally . Prediction Of New Theory Of Teleportation Of Creator BBB Is Confirmed (Bhagwan Ka Prakaty) Dr V M Das Das Nursing Home, Fatehgarh, India University Of God

Abstract

Dirac equation is illusion as mathematics does not have thought of mind and thought of Creator According to Hinduism, People have believed that if we undertake a journey to all these holy destinations then our all sins which we did in our past life get removed and opens all the doors for that person to get salvation. It is not true. But what brain sees is truth. Hence by knowledge (At UOG) realization of God Particles (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs Fig below) at the time of prayer makes your place a true religious place. As it (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs) would persists even after end of universe. Having seen the God particles by brain, you are fit to get salvation. The same philosophy is applicable to all religious persons including Muslims.

Self positioning system (SPS) in brain triggers to know our surrounding and our location. It is being used by animals and birds during migration or navigation on the Earth. Global positioning system (GPS - computer) helps us to know our location and different places and their route on Earth. GPS does not make us to be lost in big cities if we have loaded origin and destination in our computer. There is one more system called universe positioning system (UPS), that helps to locate our true home from where we started our journey since origin of universe and home (Tachyons sea) of Almighty B.B.B as prayer reaches to Almighty B.B.B. Our journey did not start with
fertilization of ova with sperm rather it had started since origin of the universe and our brain could predict our past and future transformations before we transformed into human beings . But Almighty B.B.B could tell our exact past and future transformations . Teleportation is the phenomenon made by Almighty B.B.B , as He descends from invisible universe (Tachyons sea) to Earth . First , message comes (first order of universe) to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship . For example Lord Jesus , Lord Krishna etc All religions do IDOL worship of Two God particles in different ways (rituals) . Unless brain sees idol of two God particles during worship (Fig below) or during namaz , devotee sees home of Almighty B.B.B (Allahatala or Tachyon sea) and structure of Tachyons (One Yang and many Yins) (Fig see below) by brain , worship is incomplete . The theory predicts that when Almighty B.B.B would teleport Himself as He Knows UPS (Creator of universe and Aliens) , could tell exactly where Aliens reside .

**Introduction**

(Krishna Jha is a Delhi-based freelance journalist and biographer of SA Dange, one of the founding fathers of the Indian communist movement. Dhirendra K Jha is a political journalist with Open magazine in Delhi.) [1]

In the charge sheet filed on 1 February 1950, based on the FIR registered in the morning of 23 December 1949 against Abhiram Das and others for intruding into the mosque and defiling it, Abul Barkat was named as one of the nine prosecution witnesses. What he said in his statement to the magistrate elated the Hindu communalists, but any sane person could easily see through it. Justice Deoki Nandan in his ‘Sri Rama Janma Bhumi: Historical and Legal Perspective’ has cited a ‘concise translation’ of Abdul Barkat’s statement:

He [Abul Barkat] was on duty at the Police Outpost Rama Janma Bhumi on the night between December 22nd and 23rd, 1949. While on duty that night, he saw a fl ash of Divine Light inside the Babari Masjid. Gradually that light became golden and in that he saw the fl igure of a very beautiful godlike child of four or fi ve years the like of which he had never before seen in his life. Th e sight sent him into a trance, and when he recovered his senses he found that the lock on the main gate (of the mosque) was lying broken and a huge crowd of Hindus had entered the building and were
performing the aarti of the Idol placed on a Singhasan and reciting: Bhaye prakat kripa Deen Dayal [God has manifested himself].

Five important characters related to Ayodhya dispute, whose discussion is less

Havildar Abdul Barkat

The story of Abdul Barkat is also related to the same night when idols were kept in the disputed building. Abdul Barkat's disputed building was on duty on the intervening night of 22 and 23 December 1949. The duty time was from 12 o'clock at night. But, due to some reason they arrived late. By the time Abdul Barkat arrived on duty of the disputed building, some people along with a group of Bairagi sadhus had placed the idols in the mosque. It is said that Abdul Barkat, who was on duty at a sensitive place, got scared. After this, knowing the crisis on his job, he repeated the same things that the planners of placing the idol told him elsewhere.

In his statement to the police, Abdul Barkat said, 'I was posted on duty of Babri Masjid. Then a light arose from inside the Babri Masjid which gradually turned golden. A four-five-year-old child was seen inside. I had not seen such a beautiful child in my life. When I became aware, I saw that the lock of the Sadar Darwaza is broken and the crowd of Hindus are performing a fete. Apart from this, I do not know anything. Whatever the legal significance of this statement of Abdul Barkat, but its importance in the popular concept can be gauged from the fact that Abdul Barkat's statement was put on board in the workshop to carve the stone for the Ram temple. Has happened.

Content of FIR on board of statements of Abdul Barkat has been erected in the Ram Janmabhoomi Nyas workshop premises. [1] (3 and 4 )

Hoyle Narlikar Universe - OR -- Universe “I”

What is New Physics or Physics of Mind?

Hoyle-Narlikar Universe

Special Theory of Relativity (1905) is not Physics of very fast. It has distorted concept of Basic Quantities of MTF. Hence it is Illusive Theory.

Very Fast Means - Tachyons Particles FTL Phenomenon

All three Work by Divine mechanics

Divine Mechanics Connects All three

Very Massive Means – Hoyle Narlikar Universe And Divine MOND (Gravity Theory)

Very Small Means – Basic Building Blocks God Particles

Physics of very fast, very massive and very small Is participatory Science Or Mind Incorporation in Physics

Physics of Mind

Quantum Consciousness – According to Physicists and Biologist
The nature of consciousness remains deeply mysterious and profoundly important, with existential, medical and spiritual implication. We know what it is like to be conscious – to have awareness, a conscious ‘mind’, but who, or what, are ‘we’ who know such things? How is the subjective nature of phenomenal experience – our ‘inner life’ - to be explained in scientific terms? What consciousness actually is, and how it comes about remain unknown. The general assumption in modern science and philosophy - the ‘standard model’ - is that consciousness emerges from complex computation among brain neurons, computation whose currency is seen as neuronal firings (‘spikes’) and synaptic transmissions, equated with binary ‘bits’ in digital computing. Consciousness is presumed to ‘emerge’ from complex neuronal computation, and to have arisen during biological evolution as an adaptation of living systems, extrinsic to the makeup of the universe. On the other hand, spiritual and contemplative traditions, and some scientists and philosophers consider consciousness to be intrinsic, ‘woven into the fabric of the universe’. In these views, conscious precursors and Platonic forms preceded biology, existing all along in the fine scale structure of reality.

My research involves a theory of consciousness which can bridge these two approaches, a theory developed over the past 20 years with eminent British physicist Sir Roger Penrose. Called ‘orchestrated objective reduction’ (‘Orch OR’), it suggests consciousness arises from quantum vibrations in protein polymers called microtubules inside the brain’s neurons, vibrations which interfere, ‘collapse’ and resonate across scale, control neuronal firings, generate consciousness, and connect ultimately to ‘deeper order’ ripples in spacetime geometry. Consciousness is more like music than computation.
Colleagues Travis Craddock and Jack Tuszyński and I also study how anesthetics act in microtubules to erase consciousness, and with Jay Sanguinetti, John JB Allen and Sterling Cooley, we are studying how transcranial ultrasound (TUS) can be used noninvasively to resonate brain microtubules and treat mental, cognitive and neurological disorders. Many thanks to my assistant Abi Behar-Montefiore and Ed Xia for maintaining this website.

1.2 Mind and Mass Realities [2-11]

Atomic genetics is the branch of science where we investigate about fundamental interactions of the universe i.e. atomic transcription and translations. New words have been coined to understand hidden science of mind part of reality. Mind reality has been recognized as different faces by “I” about 5000 years back to Arjuna in Mahabharata as shown in Fig above. It is just like to understand any language through Alphabets. These are different faces of mind reality. One Mind reality has one face identity and the second mind reality has second face identity and so on. The facial expression represents phenomenon of intelligence and different faces represent different types of properties carrying property. The open eyes mean property is activated while close eye means property is inactivated. In spite of carrying properties consciousness they also know how to conduct not only origin of universe but also how to create two different universe i.e. next creation could be different from this creation. In all, it is automatic system of the universe. The mind realities which are of good properties have devtas face identity (first five faces on both side) and those mind realities which are of bad properties have demons face identity (last four faces on both side). These are named as code PCPs or messenger atomic genes. The central face is CCP or Thought script where all thoughts of the universe are banked. It is bank of data of all information s of the universe. It is face identity of Anti mind particles as data of all information’s of the universe are stored as anti mind particles. It is the Time mind ness (biological clock) that keeps on expressing different thoughts from this thought script (CCP). There are four more faces (black bodies) shown on extreme left and right floating in fire are CPs (translating Atomic genes). That translates the messages and realizes it and reacts accordingly. [2]

1.3. Messages From Biological world to understand B.B.B world as shown in Fig below [3]
Parallel teaching by participatory science

The standard model not only modified rather it has been completed [3] with introduction of energized gravitons, primary fermions, primary bosons, Basic Building Blocks, Mind and Tachyons as shown in Fig below.
Participatory science has coined some new words and there are some words which already exist in physics. Both these words are defined here and the definitions are according to participatory science. It has no relation with the definitions given in modern physics.

1. **Mass** - The part which gives shape to the smallest mass unit i.e. basics building blocks (B. B. Bs.) is called mass.

2. **Matter** - Mixture of fermions and bosons or only bosons which are made up of mass (B.B.Bs) and that is why we realize their shape is called matter.

3. **Inertial mass** - Mass (smallest mass units i.e. B. B. Bs) having inertial properties (classical inertia) either absolute rest or uniform motion in straight line is called inertial mass. Or Number of B. B. Bs. Per unit space present in bigger units is called inertial mass. Or Total matter contained by the bigger units or total number of fermions and bosons contained by the bigger units is called inertial mass. Therefore it never changes from place to place.

4. **Gravitational mass** - The mass (interacting surfaces) which takes part in gravity (divine energized gravitons theory) interaction (which is due to mind) is called gravitational mass. When gravity interaction increases (number of divine energized gravitons increases) the interacting mass (interacting surface) also increases or when interacting mass (interacting surfaces) increases, gravity interaction (number of divine energized gravitons) also increases. Therefore gravitational mass (interacting mass or surfaces) changes from place to place. It is the fed mind that decides gravity interaction. We shall discuss it in gravity chapter and in atomic genetics.

5. **Pure m (matter) mass** - Matter mass (smallest mass unit or B.B.B) which have got inertial property of absolute rest.

6. **Energy mass** - Energy mass (smallest energy mass unit B.B.B) which have got inertial property of uniform motion in straight line and which also gives shape to the bigger energy mass (Higgs Bosons etc) units.

7. **m (impure matter)** of E=mC^2 - Matter particles (fermions) which have got spin property are called impure matter particles.
1.4 Origin of the universe [7]

Development of the Universe

Before the origin of the universe, these Basic Building Blocks (B.B.Bs) as shown in Fig above were in the form of tachyons as shown in Fig above [7]. It means that at that time the tachyons were everywhere in the universe. Let us look at the structure of tachyons; it is made up of one matter B.B.B. (YANG) and many energy (YINs) B.B.Bs. Initially out of the infinite tachyons, one became the highest center of the universe. Messages used to go from highest center to rest of the universe and messages could come from rest of the universe to highest center of the universe by atomic transcription. Thus highest center had fed its thought to rest of the B.B.Bs. that would take part in creation - that they would express only those thoughts to give desired effect as wished by the highest center of the universe. So all B.B.Bs were informed about their role before creation of the universe. In pre-creation era programming of the future universe was done by highest center of the universe.

Our universe is oscillating and it is a divine universe. It means that it has a creation phase and a destruction phase. During creation phase tachyons break into their B.B.Bs. and from these B.B.Bs, formation of fermions and bosons take place . After the creation phase, destruction would start and in this phase all created particles would again break into their B.B.Bs and finally tachyons would form. At the time of origin of the universe, all the effects got created. These effects are taking of different shapes and appearance of properties and laws. All these effects are studied in various branches of science.

With the origin of the universe, nature first created a sphere of COLD DARK MATTER (C.D.M) and canals in it. With the result space got created. At the other end of the canals, hot reaction started (the relics are back ground radiations 2.7 degree K of our hydrogen
As a result hydrogen clouds and lot of radiations were created. The empty canals were filled by these hydrogen clouds and radiations and thus **QUASARS** appeared in the universe. Simultaneously C.D.M. layer started expanding and clouds and radiations kept on coming in this closed universe as shown in **Fig above**. With the passage of time more and more C.D.M. layer formed, more and more quasars formed. The hydrogen cloud came in this closed universe. They started running towards C.D.M. layer as they were attracted by the gravity of C.D.M. layer. Those clouds, which were nearer, moved faster than those, which were away from CDM Layer. The **HUBBLE LAW**, can thus be explained. With some more passage of time, clouds were joined to form **GMC** (giant molecular clouds). Later by self-gravitation different proto stars, proto planets, proto satellites were formed. Finally stars became bright and thus bright galaxies appeared in this universe. Our universe is still in expansion phase and creation is still going inside quasars. It is to be remembered that highest center of the universe does not come in the visible universe. It keeps on receiving the messages by atomic transcription and it has power to change any programming programmed by it during pre-creation era.

It is the atomic genes which constitutes mind part of reality. Mind incorporation in physics is awaited as theory of every thing is not yet investigated. I have investigated theory of every thing (ToE) and I found that while studying unified theory at the time of origin of the universe by Hoyle Narlikar universe, it was mind reality that triggered symmetry breaking phase. It is mind reality that triggers oscillation phenomenon of the universe. It is the mind reality which is behind perfect cosmological principle. There is nothing like artificial intelligence in the universe. These mind particles constitute intelligence of the universe that controls the deterministic order of the universe. It is the mind reality behind all effects of the universe. But this is not our mind rather it is mind of Almighty B.B.B (Yang B.B.B or matter B.B.B. or Male B.B.B working as Highest center of the universe). His mind could be manipulated by prayer only. as shown in figure below.

2.14 Teleportation and Universe Positioning System – Prediction of Theory Of Everything

Teleportation is the phenomenon made by Almighty B.B.B (Power of Almighty and Unconditioned Thought expression and New Law of divine physics). As He (Allahatala) descends from invisible universe (Tachyon sea) to Earth. First, message comes to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in to any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in
church and temple as idol worship. For example Lord Jesus, Lord Krishna or Lord Ram etc. All religions do IDOL worship of Two God particles in different ways.

Fig 16 Phenomenon of Teleportation and UPS in the mind of Almighty B.B.B (Allahatala) in Universe “I”

Conclusion

Teleportation is the phenomenon made by Almighty B.B.B (Creator of universe and Aliens). As He descends from invisible universe (Tachyon sea) to Earth. First, message comes (first order of universe) to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform into any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship. For example Lord Jesus, Lord Krishna or Lord Ram etc. The theory predicts that when Almighty B.B.B teleports Himself, He (Creator of universe and Aliens) could tell exactly where Aliens reside in universe “I”.

It is being believed that Muslims do not do idol worship. It is myth. Before origin of the universe all things were in form of tachyons particles which are made up of two basic building blocks – Yang and Yin or mind and mass part of reality (Not set of informations Code PcPs – Originator of all sets of informations Code PcPs). To understand concept of idol worship we have to understand Basic Building Blocks (B.B.B – Mind – CCP, Code PcPs or set of informations and CP and Mass Fig above). The Creator B.B.B or Almighty B.B.B has considered them as smallest idols. Hence He has made idol picture of male and female parallel to these B.B.Bs Fig of God Particles. The fundamental belief of all religions on which the base (Main Pillars) of all religions is stood are these two God particles and the fundamental worship is Idol worship of these two God particles. At the end of universe all sciences fundamentals (shapes, laws, and properties) would be no more but religious fundamental about two God particles and their Idol worship would persist in form of “I” or “Satyam Shivum Sundarum”.

Article 25 of Indian constitution has been modified by order of Almighty B.B.B. Freedom of conscience and free profession, practice and propagation of religion has been restricted or banned. No body on Earth could spread wrong believes of God like - God is One. God has No picture depiction. Idol worship is fictitious worship at highest consciousness. Instead of that one would spread right scientific believes like There are TWO God –or Two God Particles Or Two Basic Building Blocks. It has Photo depiction of Male and Female Called Stayam Shivum Sundaram. They are smallest Idols of The universe and Their Idol worship persist even after destruction of the universe. All religions are unified to Religion “I” as it would persist after destruction of the universe. Hence what eyes see is different (illusion) than what brain sees (Truth) and the truth is -- One absolute (Infinite) Universe (I), One Teaching Of Two God Particles (I)
And One Religion “I” that will persist even after destruction of universe. Hence teaching regarding God in different religions (Hindu, Islam and Christianity etc realizations) are illusion. They donot teach about Two God Particles – The Real eternal God Particles. Only Two God Particles “I” will persists even after destruction of the universe. **All religions do IDOL worship of Two God particles in different ways.**
