COLLEGE

PERI Institute of Technology (PERI IT) was established in 2010 by the PERI Educational and Charitable Trust with the objective of providing quality technical education, with NAAC Accreditation. The Institute is built at Mannivakkam, Chennai in a sprawling area of 15 acres replete with smart classrooms, well equipped labs, transport, cafeteria and a vast library. PERI IT offers both B.E. and M.E. courses, which ensure quality education and engage itself in relentless efforts to synchronize the educational and co-curricular requirements for the development of the overall personality of the students.

DEPARTMENT

The Department of Computer Science and Engineering established in the year 2010, is committed to provide quality professional education to aspiring engineers. The Computer Science & Engineering Department strongly emphasizes on learning fundamentals and analysing latest technology to develop student's creativity by encouraging them to take up projects with varying levels of complexity. The Department of Artificial Intelligence and Data Science, established in 2022 with the goal of creating a space for innovation and new technology. All the departments have well experienced and dedicated faculty members and aims to impart sound knowledge and awareness in the latest developments in the field of Computer Science and Engineering.

CONFERENCE

The primary goal of the conference is to promote research and development activities in Computer Science and Engineering and to promote scientific information interchange between researchers. This conference aims at bringing together the researchers, Scientists, Engineers and Scholar students in the areas of engineering and technology and provides a forum for the dissemination of original research results, new ideas.

The conference would offer a large number of invited lectures from renowned speakers from different eminent institutions, from different countries. This would provide an opportunity to research scholars, delegates and students to interact and share their experience and knowledge in technology application. The technical sessions would encompass speakers from academics and industry.

CALL FOR PAPERS

Technical papers describing original, unpublished results are solicited in all areas of theory and practice of computing, Science and Engineering. Authors are invited to submit original & unpublished papers from the topics listed area/discipline.

SCOPE OF COVERAGE

Machine Learning, Artificial Intelligence, Big Data, Internet of Things, Edge Computing, Fog Computing, Bioinformatics, Natural Language Processing, Computer Vision, Heuristic and AI Planning Strategies and Tools, Computational Theories of Learning, Hybrid Intelligent Systems, Information Retrieval Techniques Intelligent System Architectures, Neural Networks, Parallel Processing, Pattern Recognition, Pervasive Computing and Ambient Intelligence, Semantic Web Techniques and Technologies, Soft Computing Theory and Applications, Web Intelligence Applications & Search, E-Commerce, E-Medicine and Data Visualization.
