Abstract

Dirac equation is illusion as mathematics does not have thought of mind and thought of Creator According to Hinduism, People have believed that if we undertake a journey to all these holy destinations then our all sins which we did in our past life get removed and opens all the doors for that person to get salvation. It is not true . But what brain sees is truth . Hence by knowledge (At UOG) realization of God Particles (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs Fig below) at the time of prayer makes your place a true religious place . As it (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs) would persists even after end of universe . Having seen the God particles by brain , you are fit to get salvation . The same philosophy is applicable to all religious persons including Muslims .

Self positioning system (SPS) in brain triggers to know our surrounding and our location . It is being used by animals and birds during migration or navigation on the Earth . Global positioning system (GPS - computer) helps us to know our location and different places and their route on Earth . GPS does not make us to be lost in big cities if we have loaded origin and destination in our computer . There is one more system called universe positioning system (UPS) , that helps to locate our true home from where we started our journey since origin of universe and home (Tachyons sea) of Almighty B.B.B as prayer reaches to Almighty B.B.B . Our journey did not start with

fertilization of ova with sperm rather it had started since origin of the universe and our brain could predict our past and future transformations before we transformed into human beings . But Almighty B.B.B could tell our exact past and future transformations . Teleportation is the phenomenon made by Almighty B.B.B , as He descends from invisible universe (Tachyons sea) to Earth . First , message comes (first order of universe) to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship . For example Lord Jesus , Lord Krishna etc All religions do IDOL worship of Two God particles in different ways (rituals). Unless brain sees idol of two God particles during worship (Fig below) or during namaz , devotee sees home of Almighty B.B.B (Allahatala or Tachyon sea) and structure of Tachyons (One Yang and many Yins) (Fig see below) by brain , worship is incomplete . **The theory predicts that when** Almighty B.B.B would teleport Himself as He Knows UPS (Creator of universe and Aliens) , could tell exactly where Aliens reside .

(Krishna Jha is a Delhi-based freelance journalist and biographer of SA Dange, one of the founding fathers of the Indian communist movement. Dharendra K Jha is a political journalist with Open magazine in Delhi.) [1]

In the charge sheet filed on 1 February 1950, based on the FIR registered in the morning of 23 December 1949 against Abhiram Das and others for intruding into the mosque and defiling it, Abul Barkat was named as one of the nine prosecution witnesses. What he said in his statement to the magistrate elated the Hindu communalists, but any sane person could easily see through it. Justice Deoki Nandan in his 'Sri Rama Janma Bhumi: Historical and Legal Perspective' has cited a 'concise translation' of Abdul Barkat's statement:

He [Abul Barkat] was on duty at the Police Outpost Rama Janma Bhumi on the night between December 22nd and 23rd, 1949. While on duty that night, he saw a flash of Divine Light inside the Babari Masjid. Gradually that light became golden and in that he saw the figure of a very beautiful godlike child of four or five years the like of which he had never before seen in his life. The sight sent him into a trance, and when he recovered his senses he found that the lock on the main gate (of the mosque) was lying broken and a huge crowd of Hindus had entered the building and were

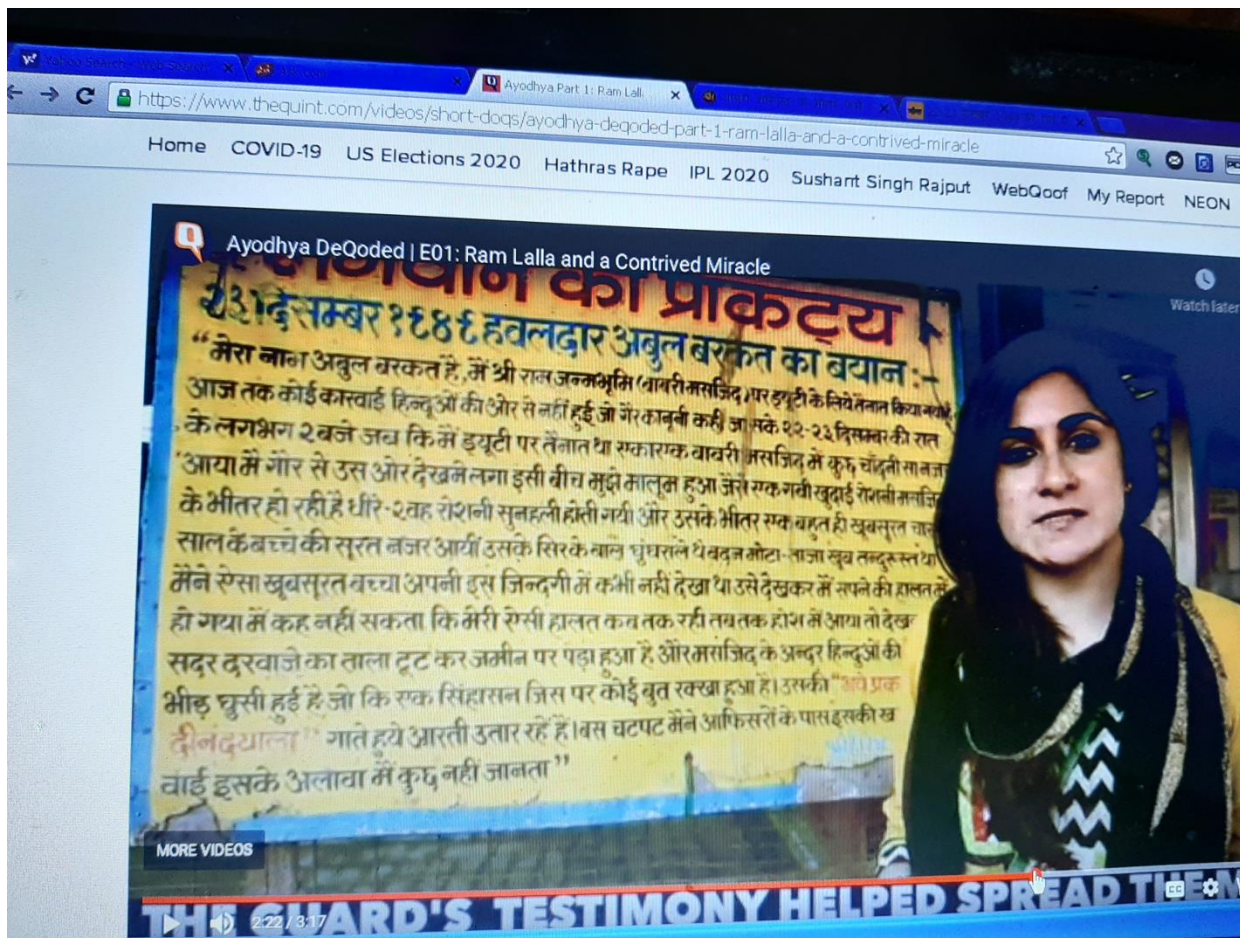

performing the aarti of the Idol placed on a Singhasan and reciting: Bhaye prakat kripala Deen Dayala [God has manifested himself].

Five important characters related to Ayodhya dispute, whose discussion is less

Havildar Abdul Barkat

The story of Abdul Barkat is also related to the same night when idols were kept in the disputed building. Abdul Barkat's disputed building was on duty on the intervening night of 22 and 23 December 1949. The duty time was from 12 o'clock at night. But, due to some reason they arrived late. By the time Abdul Barkat arrived on duty of the disputed building, some people along with a group of Bairagi sadhus had placed the idols in the mosque. It is said that Abdul Barkat, who was on duty at a sensitive place, got scared. After this, knowing the crisis on his job, he repeated the same things that the planners of placing the idol told him elsewhere.

In his statement to the police, Abdul Barkat said, 'I was posted on duty of Babri Masjid. Then a light arose from inside the Babri Masjid which gradually turned golden. A four-five-year-old child was seen inside. I had not seen such a beautiful child in my life. When I became aware, I saw that the lock of the Sadar Darwaza is broken and the crowd of Hindus are performing a fete. Apart from this, I do not know anything. Whatever the legal significance of this statement of Abdul Barkat, but its importance in the popular concept can be gauged from the fact that Abdul Barkat's statement was put on board in the workshop to carve the stone for the Ram temple. Has happened.

Content of FIR on board of statements of Abdul Barkat has been erected in the Ram Janmabhoomi Nyas workshop premises. [1] (3 and 4)

Physics of Mind

Quantum Consciousness – According to Physicists and Biologist

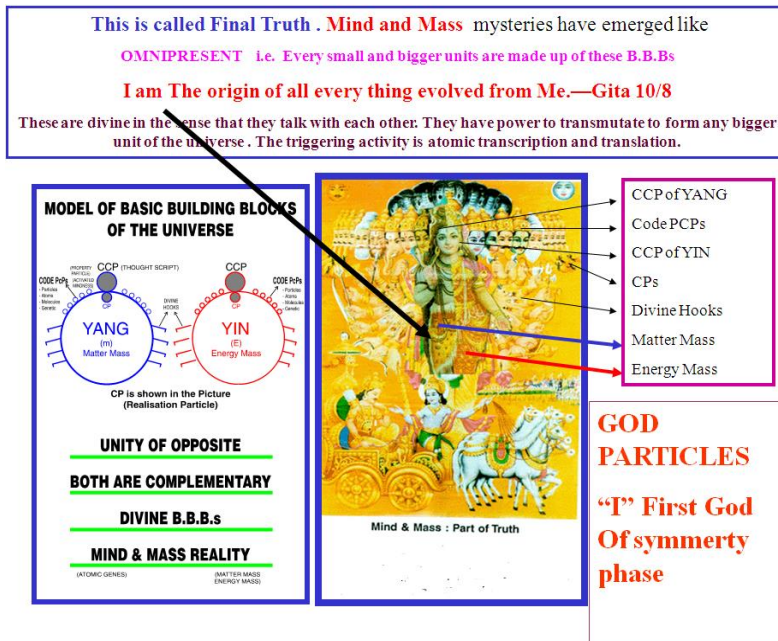

The nature of consciousness remains deeply mysterious and profoundly important, with existential, medical and spiritual implication. We know what it is like to *be* conscious – to have awareness, a conscious ‘mind’, but who, or what, are ‘we’ who know such things? How is the subjective nature of phenomenal experience – our ‘inner life’ - to be explained in scientific terms? What consciousness actually *is*, and how it comes about remain unknown. The general assumption in modern science and philosophy - the ‘standard model’ - is that consciousness emerges from complex computation among brain neurons, computation whose currency is seen as neuronal firings (‘spikes’) and synaptic transmissions, equated with binary ‘bits’ in digital computing. Consciousness is presumed to ‘emerge’ from complex neuronal computation, and to have arisen during biological evolution as an adaptation of living systems, extrinsic to the makeup of the universe. On the other hand, spiritual and contemplative traditions, and some scientists and philosophers consider consciousness to be intrinsic, ‘woven into the fabric of the universe’. In these views, conscious precursors and Platonic forms preceded biology, existing all along in the fine scale structure of reality.

My research involves a theory of consciousness which can bridge these two approaches, a theory developed over the past 20 years with eminent British physicist Sir Roger Penrose. Called ‘orchestrated objective reduction’ (‘Orch OR’), it suggests consciousness arises from quantum vibrations in protein polymers called microtubules inside the brain’s neurons, vibrations which interfere, ‘collapse’ and resonate across scale, control neuronal firings, generate consciousness, and connect ultimately to ‘deeper order’ ripples in spacetime geometry. Consciousness is more like music than computation.

Colleagues Travis Craddock and Jack Tuszynski and I also study how anesthetics act in microtubules to erase consciousness, and with Jay Sanguinetti, John JB Allen and Sterling Cooley, we are studying how transcranial ultrasound (TUS) can be used noninvasively to resonate brain microtubules and treat mental, cognitive and neurological disorders. Many thanks to my assistant Abi Behar-Montefiore and Ed Xia for maintaining this website.

1.2 Mind and Mass Realities [2-11]

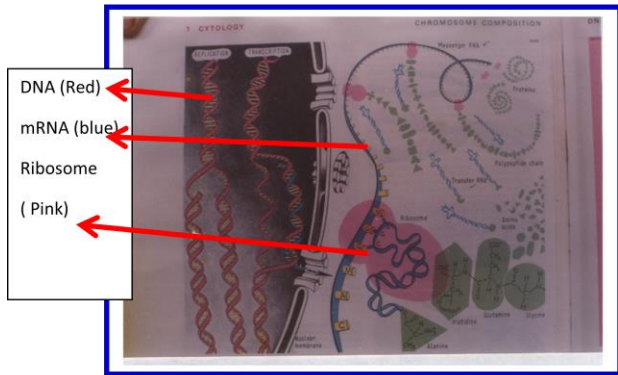

Divine Mechanics Unit – CCP, CP and information s – Code PcPs with B-Bit – Mass [2]

Atomic genetics is the branch of science where we investigate about fundamental interactions of the universe i.e. atomic transcription and translations . New words have been coined to understand hidden science of mind part of reality. Mind reality has been recognized as different faces by "I" about 5000 years back to Arjuna in Mahabharata.as shown in Fig above . It is just like to understand any language through Alphabets. These are (different faces) Alphabets of mind reality. One Mind reality has one face identity and the second mind reality has second face identity and so on. The facial expression represents phenomenon of intelligence and different faces represent different types of properties carrying property. The open eyes means property is activated while close eye means property is inactivated. In spite of carrying properties conscious ness they also know how to conduct not only origin of universe but also how to create two different universe i.e. next creation could be different from this creation . In all, it is automatic system of the universe . The mind realities which are of good properties have devtas face identity (first five faces on both side) and those mind realities which are of bad properties have demons face identity (last four faces on both side) . These are named as code PCPs or messenger atomic genes . The central face is CCP or Thought script where all thoughts of the universe are banked . It is bank of data of all information s of the universe It is face identity of Anti mind particles as data of all information's of the universe are stored as anti mind particles . It is the Time mind ness (biological clock) that keeps on expressing different thoughts from this thought script (CCP) . There are four more faces (black bodies) shown on extreme left and right floating in fire are CPs (translating Atomic genes) . That translates the messages and realizes it and reacts accordingly.[2]

1.3. Messages From Biological world to understand B.B.B world as shown in Fig below [3]

In participatory science, we take similarities from biological world to understand the B.B.Block world. One who knows biological transcription and translation, can also understand atomic transcription and translation.

1. Cell is anatomically and physiologically unit of the body. Similarly B.B.Bs. are structural and functional units of the universe.
2. Cell functions (metabolic) are controlled by biological transcription and translation. Similarly, B.B.Bs. functions are controlled by atomic transcription and translation.

Biomolecules take part in biological transcription and translation are
DNA- message storage system.
mRNA-messenger molecule (carries message from nucleus to cytoplasm).
Ribosome- translating molecule (it translates the message and works accordingly). Similarly, atomic genes that take part in atomic transcription and translation are-
CCP-thought storage system (omniscient). It is similar to **DNA** of the biological world.
Code PCPs-messenger atomic genes. It is similar to **mRNA**.
CP-translating atomic genes. It translates the messages and realizes the message and reacts accordingly.

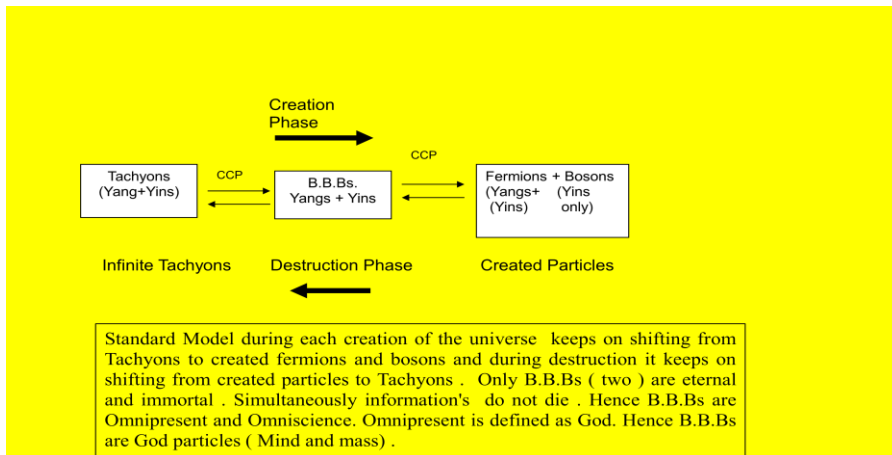

Parallel teaching by participatory science

The standard model not only modified rather it has been completed [3] with introduction of energized gravitons , primary fermions, primary bosons , Basic Building Blocks , Mind and Tachyons as shown in Fig below

Standard model completed with Fundamental particles and Mind And Tachyons

standard Model chart [3]

one creation and destruction cycle [4]

Participatory science has coined [5] some new words and there are some words which already exist in physics. Both these words are defined here and the definitions are according to participatory science. It has no relation with the definitions given in modern physics.

1. Mass - The part which gives shape to the smallest mass unit i.e. basics building blocks (B. B. Bs.) is called mass.
2. Matter :- Mixture of fermions and bosons or only bosons which are made up of mass (B.B.Bs) and that is why we realize their shape is called matter.
3. Inertial mass :- Mass (smallest mass units i.e. B. B. Bs) having inertial properties (classical inertia) either absolute rest or uniform motion in straight line is called inertial mass. Or Number of B. B. Bs. Per unit space present in bigger units is called inertial mass. Or Total matter contained by the bigger units or total number of fermions and bosons contained by the bigger units is called inertial mass. Therefore it never changes from place to place.
4. Gravitational mass :- The mass (interacting surfaces) which takes part in gravity (divine energized gravitons theory) interaction (which is due to mind) is called gravitational mass. When gravity interaction increases (number of divine energized gravitons increases) the interacting mass (interacting surface) also increases or when interacting mass (interacting surfaces) increases, gravity interaction (number of divine energized gravitons) also increases. Therefore gravitational mass (interacting mass or surfaces) changes from place to place. It is the fed mind that decides gravity interaction. We shall discuss it in gravity chapter and in atomic genetics.
5. Pure m (matter) mass :- matter mass (smallest mass unit or B.B.B) which have got inertial property of absolute rest.
6. Energy mass :- Energy mass (smallest energy mass unit B.B.B) which have got inertial property of uniform motion in straight line and which also gives shape to the bigger energy mass (Higgs Bosons etc) units.
7. m (impure matter) of $E=mc^2$:- Matter particles (fermions) which have got spin property are called impure matter particles.

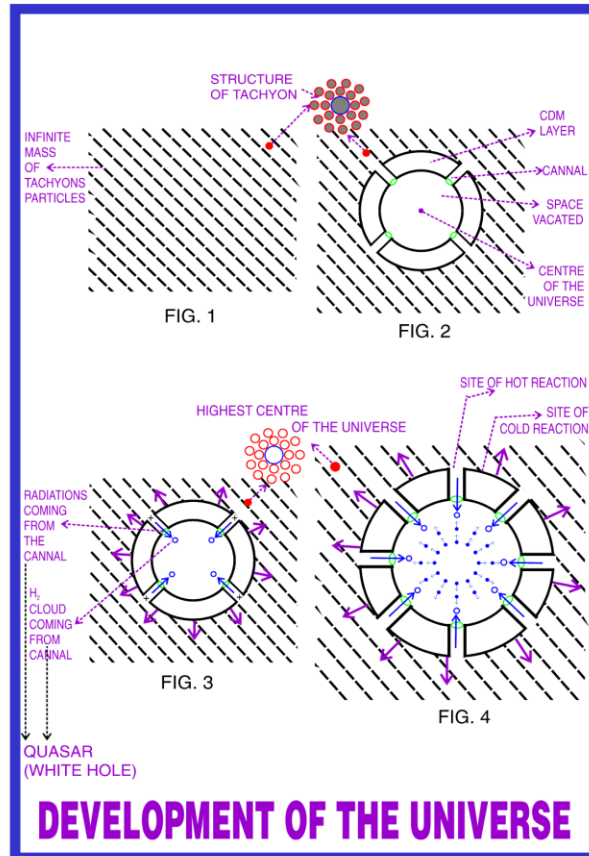

1.4 Origin of the universe [7]

Hoyle – Narlikar Universe

ORIGIN OF THE UNIVERSE CONTINUOUS CREATION THEORY----

HOYLE AND NARLIKAR THINK THAT NEW MATTER IS BEING CREATED DUE TO 'IMPLOSION' TO BALANCE THE EXPANSION OF THE UNIVERSE, WHICH ASTRONOMERS HAVE OBSERVED. INSIDE 'QUASI STRARS' GRAVITATIONAL COLLAPSES MAY FORM SOME MATTER IN THE UNIVERSE. THE HUGE LUMINOSITY AND THE RADIOEMISSION FROM THESE QUASI -STRARS APPEAR TO BE 'GRAVITY POWERED' UNLIKE ORDINARY STARS WHICH DERIVE THEIR ENERGY FROM NUCLEAR REACTIONS

UNIVERSE "I"

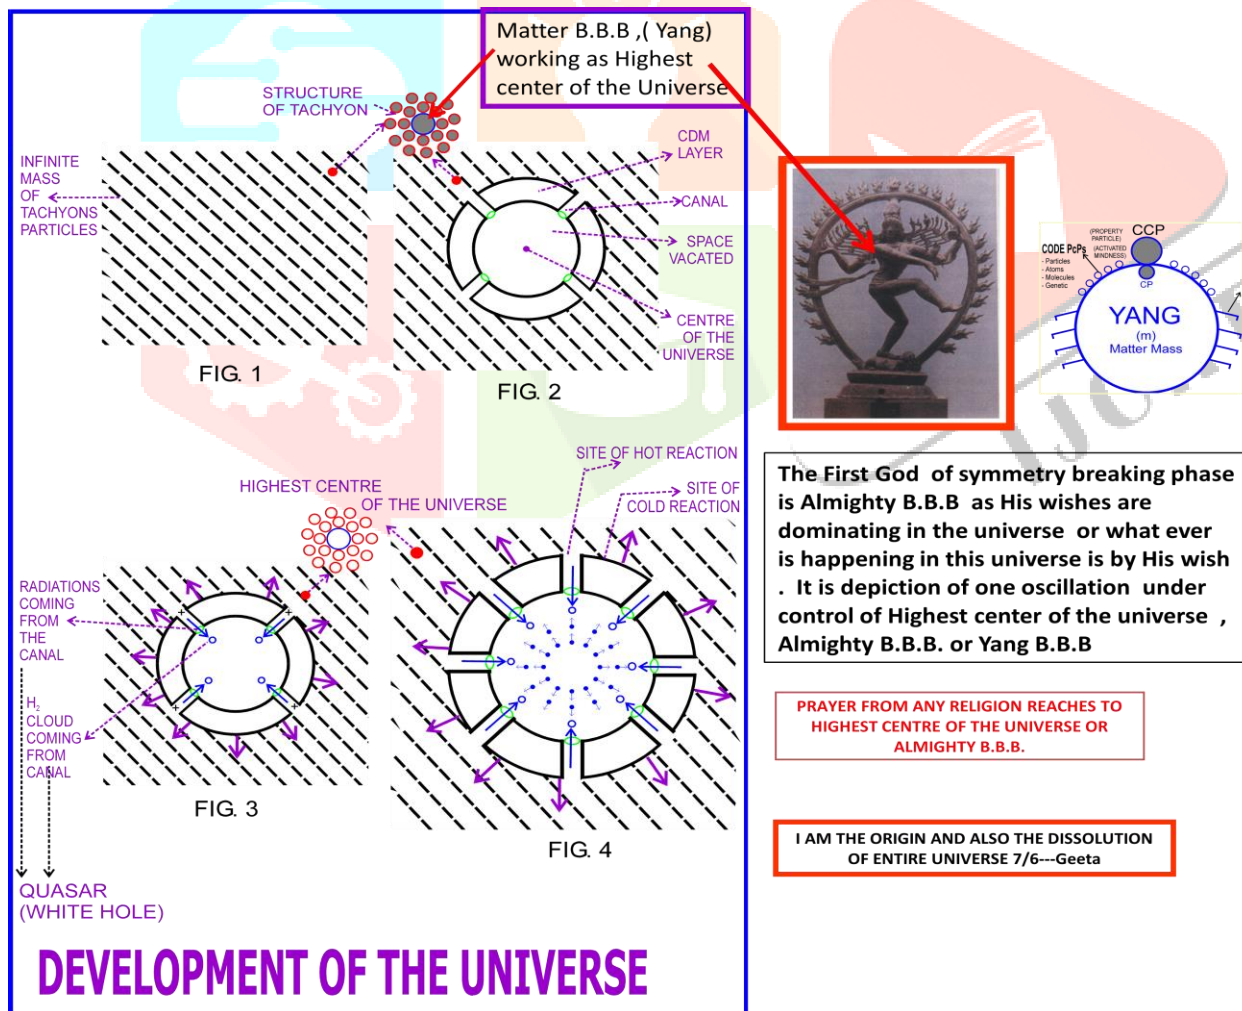

Development of the Universe

Before the origin of the universe, these Basic Building Blocks (B.B.Bs) as shown in **Fig-above** were in the form of tachyons as shown in **Fig above** [7]. It means that at that time the tachyons were everywhere in the universe. Let us look at the structure of tachyons; it is made up of one matter B.B.B. (YANG) and many energy (YINs) B.B.Bs. Initially out of the infinite tachyons, one became the **highest center** of the universe. Messages used to go from highest center to rest of the universe and messages could come from rest of the universe to highest center of the universe by atomic transcription. Thus highest center had fed its thought to rest of the B.B.Bs. that would take part in creation - that they would express only those thoughts to give desired effect as wished by the highest center of the universe. So all B.B.Bs were informed about their role before creation of the universe. In pre-creation era programming of the future universe was done by highest center of the universe. Our universe is oscillating and it is a divine universe. It means that it has a creation phase and a destruction phase. During creation phase tachyons break into their B.B.Bs. and from these B.B.Bs, formation of fermions and bosons take place. After the creation phase, destruction would start and in this phase all created particles would again break into their B.B.Bs and finally tachyons would form. At the time of origin of the universe, all the effects got created. These effects are taking of different shapes and appearance of properties and laws. All these effects are studied in various branches of science.

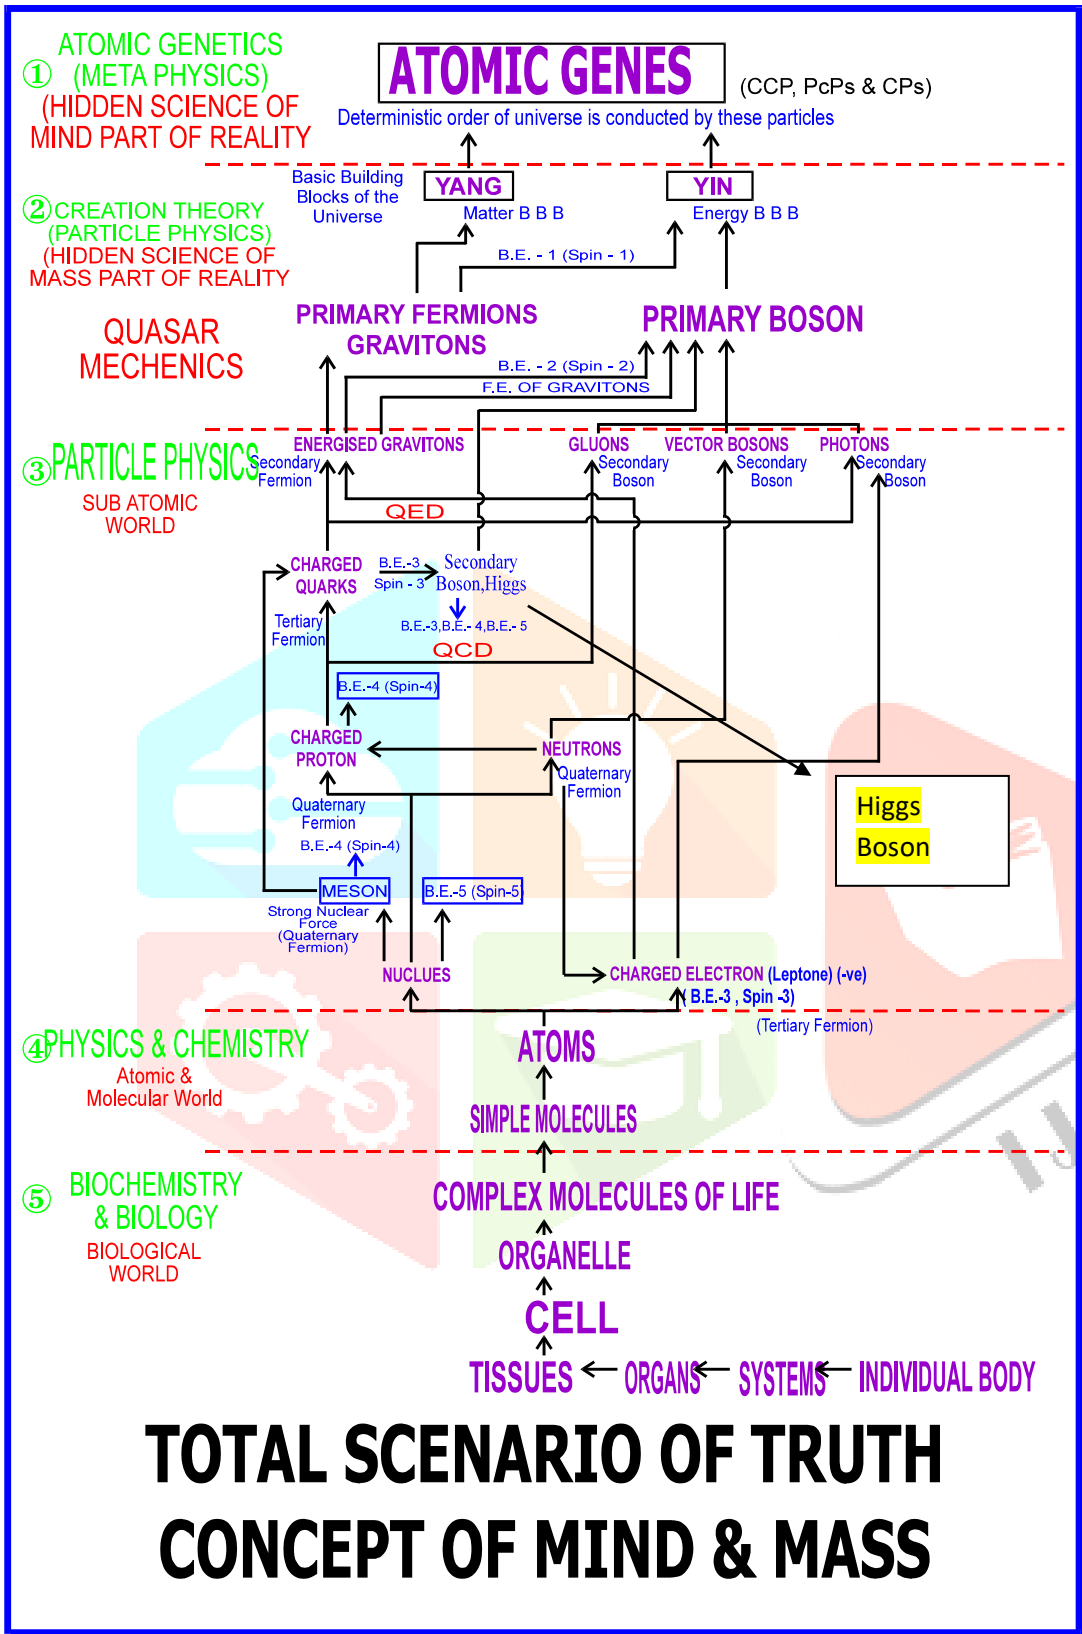

With the origin of the universe, nature first created a sphere of **COLD DARK MATTER (C.D.M)** and canals in it. With the result space got created. At the other end of the canals, hot reaction started (**the relics are back ground radiations 2.7 degree K of our hydrogen**

clouds). As a result hydrogen clouds and lot of radiations were created. The empty canals were filled by these hydrogen clouds and radiations and thus **QUASARS** appeared in the universe. Simultaneously C.D.M. layer started expanding and clouds and radiations kept on coming in this closed universe as shown in **Fig above** . With the passage of time more and more C.D.M. layer formed, more and more quasars formed. The hydrogen cloud came in this closed universe. They started running towards C.D.M. layer as they were attracted by the gravity of C.D.M. layer. Those clouds, which were nearer, moved faster than those, which were away from CDM Layer. The **HUBBLE LAW**, can thus be explained. With some more passage of time, clouds were joined to form **GMC** (giant molecular clouds). Later by self-gravitation different proto stars, proto planets, proto satellites were formed. Finally stars became bright and thus bright galaxies appeared in this universe. Our universe is still in expansion phase and creation is still going inside quasars. It is to be remembered that highest center of the universe does not come in the visible universe. It keeps on receiving the messages by atomic transcription and it has power to change any programming programmed by it during pre-creation era.

It is the atomic genes which constitutes mind part of reality. Mind incorporation in physics is awaited as theory of every thing is not yet investigated . I have investigated theory of every thing (ToE) and I found that while studying unified theory at the time of origin of the universe by Hoyle Narlikar universe , it was mind reality that triggered symmetry breaking phase . It is mind reality that triggers oscillation phenomenon of the universe. It is the mind reality which is behind perfect cosmological principle . There is nothing like artificial intelligence in the universe . These mind particles constitute intelligence of the universe that controls the deterministic order of the universe. It is the mind reality behind all effects of the universe. But this is not our mind rather it is mind of Almighty B.B.B (Yang B.B.B or matter B.B.B. or Male B.B.B working as Highest center of the universe) . His mind could be manipulated by prayer only . as shown in figure below

Supreme Courtb is not Infalible

Faith and belief of the Hindus as depicted by the evidence on record clearly establish that the Hindus believe that at the birth place of Lord Ram, the Mosque was constructed and three-dome structure is the birth place of Lord Ram. The fact that Hindus were by constructing iron wall, dividing Mosque premises, kept outside the three-dome structure cannot be said to alter their faith and belief regarding the birth place of Lord Ram. The worship on the Ram Chabutra in the outer courtyard was symbolic worship of Lord Ram who was believed to be born in the premises.

**Civil Suit or Title Suit are found
ERRONEOUS . Hence Discarded

**H.C.Order 30.9.2010
GIST OF THE FINDINGS**

1. The disputed structure was constructed as mosque by or under orders of Babar.
2. It is not proved by direct evidence that premises in dispute including constructed portion belonged to Babar or the person who constructed the mosque or under whose orders it was constructed.
3. No temple was demolished for constructing the mosque.
4. Mosque was constructed over the ruins of temples which were lying in utter ruins since a very long time before the construction of mosque and some material thereof was used in construction of the mosque.
5. That for a very long time till the construction of the mosque it was treated/believed by Hindus that some where in a very large area of which premises in dispute is a very small part birth place of Lord Ram was situated, however, the belief did not relate to any specified small area within that bigger area specifically the premises in dispute.
6. That after some time of construction of the mosque Hindus started identifying the premises in dispute as exact birth place of Lord Ram or a place wherein exact birth place was situated.
7. That much before 1855 Ram Chabutra and Seeta Rasoi had come into existence and Hindus were worshipping in the same. It was very very unique and absolutely unprecedented situation that in side the boundary wall and compound of the mosque Hindu religious places were there which were actually being worshipped along with offerings of Namaz by Muslims in the mosque.
8. That in view of the above gist of the finding at serial no.7 both the parties Muslims as well as Hindus are held to be in joint possession of the entire premises in dispute.
9. That even though for the sake of convenience both the parties i.e. Muslims and Hindus were using and occupying different portions of the premises in dispute still it did not amount to formal partition and both continued to be in joint possession of the entire premises in dispute.
10. That both the parties have failed to prove commencement of their title hence by virtue of Section 110 Evidence Act both are held to be joint title holders on the basis of joint possession.
11. That for some decades before 1949 Hindu started treating/believing the place beneath the Central dome of mosque (where at present make sift temple stands) to be exact birth place of Lord Ram.
12. That idol was placed for the first time beneath the Central dome of the mosque in the early hours of 23.12.1949.
11. That in view of the above both the parties are declared to be joint title holders in possession of the entire premises in dispute and a preliminary decree to that effect is passed with the condition that at the time of actual partition by meets and bounds at the stage of preparation of final decree the portion beneath the Central dome where at present make sift temple standswill be allotted to the share of the Hindus.

Reference
10. That both the parties have failed to prove
282
commencement of their title hence by virtue of Section 110 Evidence Act both are held to be joint title holders on the basis of joint possession.

Faith and belief of the Hindus as depicted by the evidence on record clearly establish that the Hindus belief that at the birth place of Lord Ram, the Mosque was constructed and three-dome structure is the birth place of Lord Ram. The fact that Hindus were by constructing iron wall, dividing Mosque premises, kept outside the three-dome structure cannot be said to alter their faith and belief regarding the birth place of Lord Ram. The worship on the Ram Chabutra in the under sanctified was symbolic worship of Lord Ram who was believed to be born in the premises.

170. It is thus concluded on the conclusion that faith and belief of Hindus since prior to construction of Mosque and subsequent thereto has always been that Jamaasthan of Lord Ram is the place where Babri Mosque has been constructed which faith and belief is proved by documentary and oral evidence discussed above.

2.14 Teleportation and Universe Positioning System – Prediction of Theory Of Everything

Teleportation is the phenomenon made by Almighty B.B.B (Power of Almighty and Unconditioned Thought expression and New Law of divine physics) . As He (Allahatala) descends from invisible universe (Tachyon sea) to Earth . First , message comes to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in to any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in

church and temple as idol worship . For example Lord Jesus , Lord Krishna or Lord Ram etc All religions do IDOL worship of Two God particles in different ways.

Fig 16 Phenomenon of Teleportation and UPS in the mind of Almighty B.B.B (Allahatala) in Universe "I"

Conclusion

Teleportation is the phenomenon made by Almighty B.B.B (Creator of universe and Aliens). As He descends from invisible universe (Tachyon sea) to Earth . First , message comes (first order of universe) to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in to any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship . For example Lord Jesus , Lord Krishna or Lord Ram etc **The theory predicts that when** Almighty B.B.B teleports Himself , He (Creator of universe and Aliens) could tell exactly where Aliens reside in universe "I"

It is being believed that Muslims do not do idol worship . It is myth . Before origin of the universe all things were in form of tachyons particles which are made up of two basic building blocks – Yang and Yin or mind and mass part of reality (Not set of informations Code PcPs – Originator of all sets of informatins Code PcPs) . To understand concept of idol worship we have to understand Basic Building Blocks (B.B.B – Mind – CCP , Code PcPs or set of informations and CP and Mass Fig above) . The Creator B.B.B or Almighty B.B.B has considered them as smallest idols. Hence He has made idol picture of male and female parallel to these B.B.Bs Fig of God Particles . The fundamental belief of all religions on which the base (Main Pillars) of all religions is stood are these two God particles and the fundamental worship is Idol worship of these two God particles . At the end of universe all sciences fundamentals (shapes , laws, and properties) would be no more but religious fundamental about two God particles and their Idol worship would persist in form of "I" or "Satyam Shivum Sunderum "

Article 25 of Indian constitution has been modified by order of Almighty B.B.B . Freedom of conscience and free profession, practice and propagation of religion has been restricted or banned . No body on Erath could spread wrong believes of God like - God is One . God has No picture depiction . Idol worship is fictitious worship at highest consciousness . Instead of that one would spread right scientific believes like There are TWO God --or Two God Particles Or Two Basic Building Blocks .It has Photo depiction of Male and Female Called Stayam Shivum Sundarum . They are smallest Idols of The universe and Their Idol worship persist even after destruction of the universe . All religions are unified to Religion "I" as it would persist after destruction of the universe . Hence what eyes see is different (illusion) than what brain sees (Truth) and the truth is -- One absolute (Infinite) Universe (I) , One Teaching Of Two God Particles (I)

And One Religion “I” that will persist even after destruction of universe . Hence teaching regarding God in different religions (Hindu , Islam and Christianity etc realizations) are illusion. They donot teach about Two God Particles – The Real eternal God Particles . Only **Two God Particles** “I” will persists even after destruction of the universe . **All religions do IDOL worship of Two God particles in different ways..**
