**Specific Adaptive Immune Boosting Is A Process Triggered By Antigens ( Enemy Protein ) Through Mast Cell Or Dendritic Cells By Stimulating T Lymphocytes Through IL 12 . Further T Lymphocytes Trigger Activation Of B Cells Through TL 1 and TL 2 Helping Cells Through Different ILs . B Cell Transforms Into Plasma Cells That forms Specific Antibodies Against Specific Enemy Antigen . Hence Two Doses Of Attenuated Specific Enemy Antigen with Difference Of 4 to 6 Weeks ( SIR) Interval Is Required To Boost Hum oral Specific Adaptive Immunity . Hence Phyto Chemicals ( Coronil ) Are Not Enemy Antigen To Trigger Adaptive Specific Immune Boosting In Covid ( Enemy Antigen ) 19 Patients From Day 1 [1] .**

Dr V M Das

Das Nursing Home , Fatehgarh , India  
University Of God

## Abstract

Innate Immunity ( Both Cellular and Hum oral ) is preexisting natural immunity maintained by Phyto chemical ( diets ) and through different life styles . It take months and years to trigger it when it becomes weak through different food supliments and life styles . But once adaptive specific immunity ( specific adaptive humoral immunity mainly ) is required , we have to trigger specific adaptive Immune response through attenuated enemy antigen that triggers adaptive immune response through T cells and B cells part of immune sytem and it takes 4 to 6 weeks to boost this specific adaptive immune system (SIR). Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

As far as Coronil's anti vial action [2] that Coronil is a tri-herbal formulation containing extracts from *Withania somnifera*, *Tinospora cordifolia*, and *Ocimum sanctum*. Recently, it was shown that Coronil rescued humanized zebrafish from SARS-CoV-2 induced pathologies. Based on reported computational studies on the phytochemicals present in Coronil, it could be a potential inhibitor of SARS-CoV-2 entry into the host cell and associated cytokines' production . When evaluated , it was found that instead of out of 10 phytochemicals ,to explain which phytochemical has more anti viral property with respect to one another rather they quoted word coronil in different doses 1,3,10 and 30 microgram /ml in vitro on different viral recombinant S proteins ( three samples ) to get how much release of cytokines was inhibited by bar graph .[2] Fig 3 . This shows less probing efforts to establish antiviral property in vitro by 10 Phyto chemicals separately .

**In Fig 6 [2] It has been evaluated in inhibition of Covid 19 pathogenesis that on day 5 to 7 an immune boosting property has been shown that did work to reduce respiratory complication 7 to 14 days ( ARDS ) . It is Fake claim as regard specific adaptive immune boosting response that phyto chemicals are devoid off .**

Preview YouTube video दिल्ली हाई कोर्ट का बड़ा फैसला बाबा रामदेव की बड़ी जीत, IMA अब क्या करेगा, एलोपैथी vs आयुर्वेद

UOG has exposed flaws in drug Coronil through publishing its fake results [1] as regard adaptive immune boosting process that takes a week or so [3] to boost reduced body innate natural immune systems .

Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

But Coronil is not Specific adaptive immune booster ( Enemy antigen ) rather it is group of phyto chemical triggered immune boosting effect day one and completed ( 100 % Cure ) on day 7 [1] which is contrary to trigger Specific adaptive immune response by well settled known science [3] .

Adaptive immune responses, however, are slow to develop on first exposure to a new pathogen, as specific clones of B and T cells have to become activated and expand; it can therefore take a week or so before the responses are effective.[3]

AN OVERVIEW ON CORONIL DRUG Dr. Shashank Tiwari\* 1 and Ms. Shreya Talreja2 1Director, JP College of Pharmacy, Lucknow, INDIA 2Lecturer, JP College of Pharmacy, Lucknow, INDIA \*Corresponding author E-mail: [shashank6889@gmail.com](mailto:shashank6889@gmail.com)

ARTICLE INFO Key Words Tinosporacordifolia, Withaniasomnifera COVID-19

## ABSTRACT

In this time of COVID-19 pandemic almost every institution is researching a possible cure for this disease or any kind of an immunity booster. Coronil is the Ayurvedic immunity booster made by Patanjali Ayurveda Limited using traditional medicinal herbs. The Coronil kit consists of 3 products which are- DivyaCoronil Tablets, DivyaSwasariVati which are oral tablets and third product is Anu tali which isaliquid dosage form in the form of nasal drops. This medicine is an immunity booster that contains chief ingredients such as Giloy(Tinosporacordifolia), Ashwagandha (Withaniasomnifera) and Tulsi (Ocimum sanctum). These medicinal herbs have immense benefits in strengthening the immune system and also are effective in curing symptoms like sore throat, nasal congestion etc. This medicine can be used as a supplement for immunity enhancement but its effectiveness in curing certain symptoms is still under question as extensive research on this medicine is yet to be done.

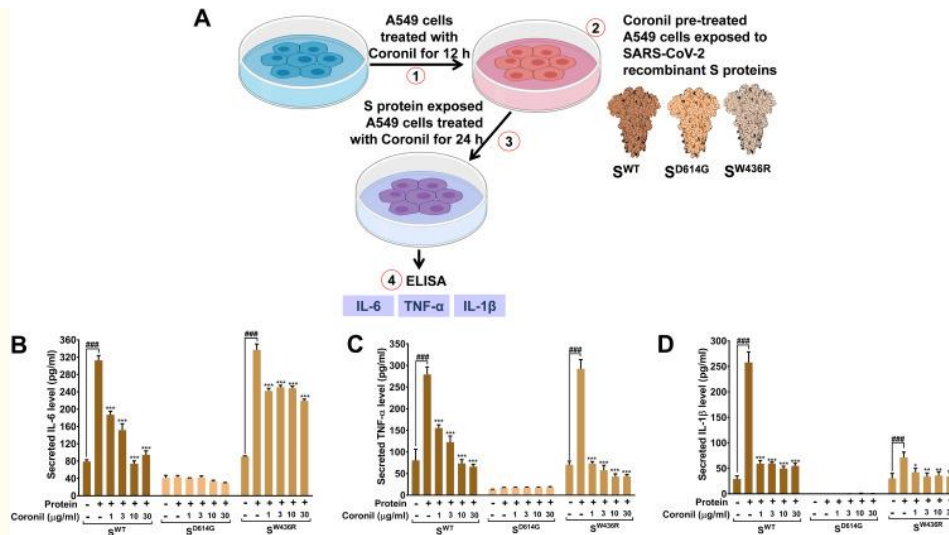

**Claims of Cure:** Patanjali Ayurved Limited claimed that the Coronil drug was a cure for COVID-19 but this claim was rejected by the ministry of AYUSH because there was no substantial research suggesting that the drug can cure corona virus. So the company was given strict guidelines that they can only sell this medicine as an immunity booster. According to Patanjali Ayurved Limited, the medicine will be an immunity booster and the herbal ingredients present in it have medicinal properties such as – Anti-viral, anti-oxidant, bronchodilator and anti-inflammatory. They claimed that these ingredients will help reduce symptoms like cough and cold, sore throat and fevers.

**Clinical Trials and research:** After the probe into the authenticity of the Coronil drug by the authorities, Patanjali Ayurved Limited clarified that they have conducted a research and clinical trials for the drug. They have conducted the research in two ways - Clinical Control Study and Clinical Control Testing. For Clinical Control study, the clinical trials were conducted on patients from Delhi, Ahmedabad, Meerut and other parts of the country. In the result of this trial, the company claimed that 69 per cent of patients recovered within 3 days and 100 per cent in a week. It has been claimed by the organization that the extensive research has been done on the drug, details of which will be released in some time. However no independent medicinal board has tested the drug for its medicinal effectiveness as yet.

**CONCLUSION:** Through this review it can be concluded that even though Coronil drug cannot be called as the cure for COVID-19 but it indeed is an immunity booster and an effective COVID-19 management tool. Moreover, its herbal composition eliminates the chances of any side-effects making it safe for the consumers. It can be believed that the Coronil kit is a complete package of preventive drugs which is all suitable for all ages, gender and even the income groups. It is launched in the most crucial time when the cases of COVID-19 are acing rapidly every single day. However, there is a need of more extensive research on this drug to back up the authenticity of the drug in the market.

### 1.5 Coronil Attenuates Viral S Protein-Induced Cytokine Activation in A549 Cells [2] [in vitro]

It has already been reported that SARS-CoV-2 interacts with ACE-2 receptors present on the alveolar type II (AT-II) epithelial cells invading host immune system. Therefore, we chose the pulmonary epithelial A549 cells, characterized as AT-II model, for all our further in vitro studies.<sup>27</sup> Although, in case of SARS-CoV-2 infection, the main source of pathogenic IL-6 and pro-inflammatory cytokines (TNF- $\alpha$  and IL-1 $\beta$ ) is myeloid cells,<sup>28</sup> increased expressions of these cytokines are also reported in A549 cells due to *Mycoplasma pneumoniae* and Influenza A virus infections.<sup>29,30</sup> Besides, A549 cells exhibit cytokine activation in response to inflammatory stimulus by lipopolysaccharides (LPS).<sup>31</sup> Subsequent to our earlier observation that Coronil can inhibit ACE-2-S protein interaction, we evaluated the effect on cytokine activation in response to viral proteins by incubating A549 cells with S protein variants and measured the levels of immunoreactive pro-inflammatory cytokines in the presence of different concentrations (1, 3, 10, and 30  $\mu\text{g/mL}$ ) of Coronil. Cytosafety of Coronil in A549 cells has already been established up to 300  $\mu\text{g/mL}$  (Figure 9a of reference 32).<sup>32</sup> The cells incubated with S proteins but not treated with Coronil were included as disease control to measure the extent of respective cytokine activation evoked (Figure 3A). The cells without S proteins and Coronil treatment were taken as normal control. While in the presence of S<sup>WT</sup> and S<sup>W436R</sup>, we observed significant increases in the levels of immunoreactive cytokines, such reaction was not observed in case of S<sup>D614G</sup> variants for any of the cytokines tested by us (Figure 3B–D). Interestingly, treatment of cells with increasing concentrations of Coronil resulted in the reduction of these cytokines, although, dose-dependency was found only in some cases (Figure 3B–D). As shown in Figure 3B, the levels of IL-6 were elevated by about 4-fold in response to both S<sup>WT</sup> and S<sup>W436R</sup> proteins ( $p < 0.05$ ). Coronil was found to reduce the level of IL-6 close to normalcy in a dose dependent manner in S<sup>WT</sup> protein treated cells. A significant reduction in the level of IL-6 in S<sup>W436R</sup> protein treated cells was noted in response to Coronil, however, no dose dependent effect was observed in case of this mutant. The disease control groups of S<sup>WT</sup> and S<sup>W436R</sup> treated cells experienced almost 3.6- and 5.5-fold increases in TNF- $\alpha$  levels, respectively, as compared to vehicle treated control groups ( $p < 0.05$ ). However, treatment with Coronil demonstrated a dose-dependent inhibition of this elevated TNF- $\alpha$  level restoring it close to normal control (Figure 3C). When tested for IL-1 $\beta$ , as shown in Figure 3D, a 10-fold increase in the level of IL-1 $\beta$  was observed when the A549 cells were incubated with S<sup>WT</sup> protein which was subsequently attenuated almost close to normalcy upon treatment with Coronil ( $p < 0.05$ ). We did not notice any dose dependent effect of Coronil in this case, which needs further validation with lower doses of this drug. When analyzed for S<sup>W436R</sup> variant, it was found that the production of IL-1 $\beta$  increased only by ~3-fold which was significantly inhibited by Coronil close to the level of normal control, although here we also did not observe any dose dependency (Figure 3D). Taken together, it is evident that purified SARS-CoV-2 S proteins can elicit cytokine response in pulmonary epithelial cells in vitro and that Coronil can attenuate that response mostly restoring the cytokine levels to normalcy albeit its impacts vary based on the type of mutation that exists in the viral S proteins.

[Open in a separate window](#)

Figure 3

Coronil inhibits viral S protein induced cytokine response. (A) Schematic representation of the experimental plan. (B–D) Activation of pro-inflammatory cytokines, IL-6 (B), TNF- $\alpha$  (C), and IL-1 $\beta$  (D) in alveolar epithelial A549 cells treated with different SARS-CoV-2 S proteins and dose-dependent effect of Coronil treatment thereof were measured through ELISA. Observations are depicted as levels of secreted cytokines. Data are represented as mean  $\pm$  SEM from three independent experiments. The statistical significance of the differences observed between the means was analyzed through one-way ANOVA followed by Dunnett’s multiple comparison test and represented as ### for  $p < 0.001$  when compared to normal cells without Coronil treatment and exposure to S protein and as \*, \*\*, and \*\*\* for  $p < 0.05, 0.01,$  and  $0.001,$  respectively, when compared to cells exposed to S protein induction but not treated with Coronil.

Figure 6

Proposed mechanism for anti-viral activity of Coronil against SARS-CoV-2. The proposed model shows the pathogenesis of COVID-19 infection and the steps at which Coronil can inhibit COVID-19 pathogenesis.

Table 1  
Phytochemical Composition of Coroniil

S. No.	Compound Name	Result in $\mu\text{g}/\text{mg}$
1.	Cordifolioside A	0.181
2.	Magnoflorine	1.478
3.	Rosmarinic acid	0.091
4.	Palmatine	0.027
5.	Withanoside IV	2.673
6.	Withaferin A	1.752
7.	Withanoside V	0.822
8.	Withanone	0.008
9.	Betulinic acid	0.193
10.	Ursolic acid	0.046

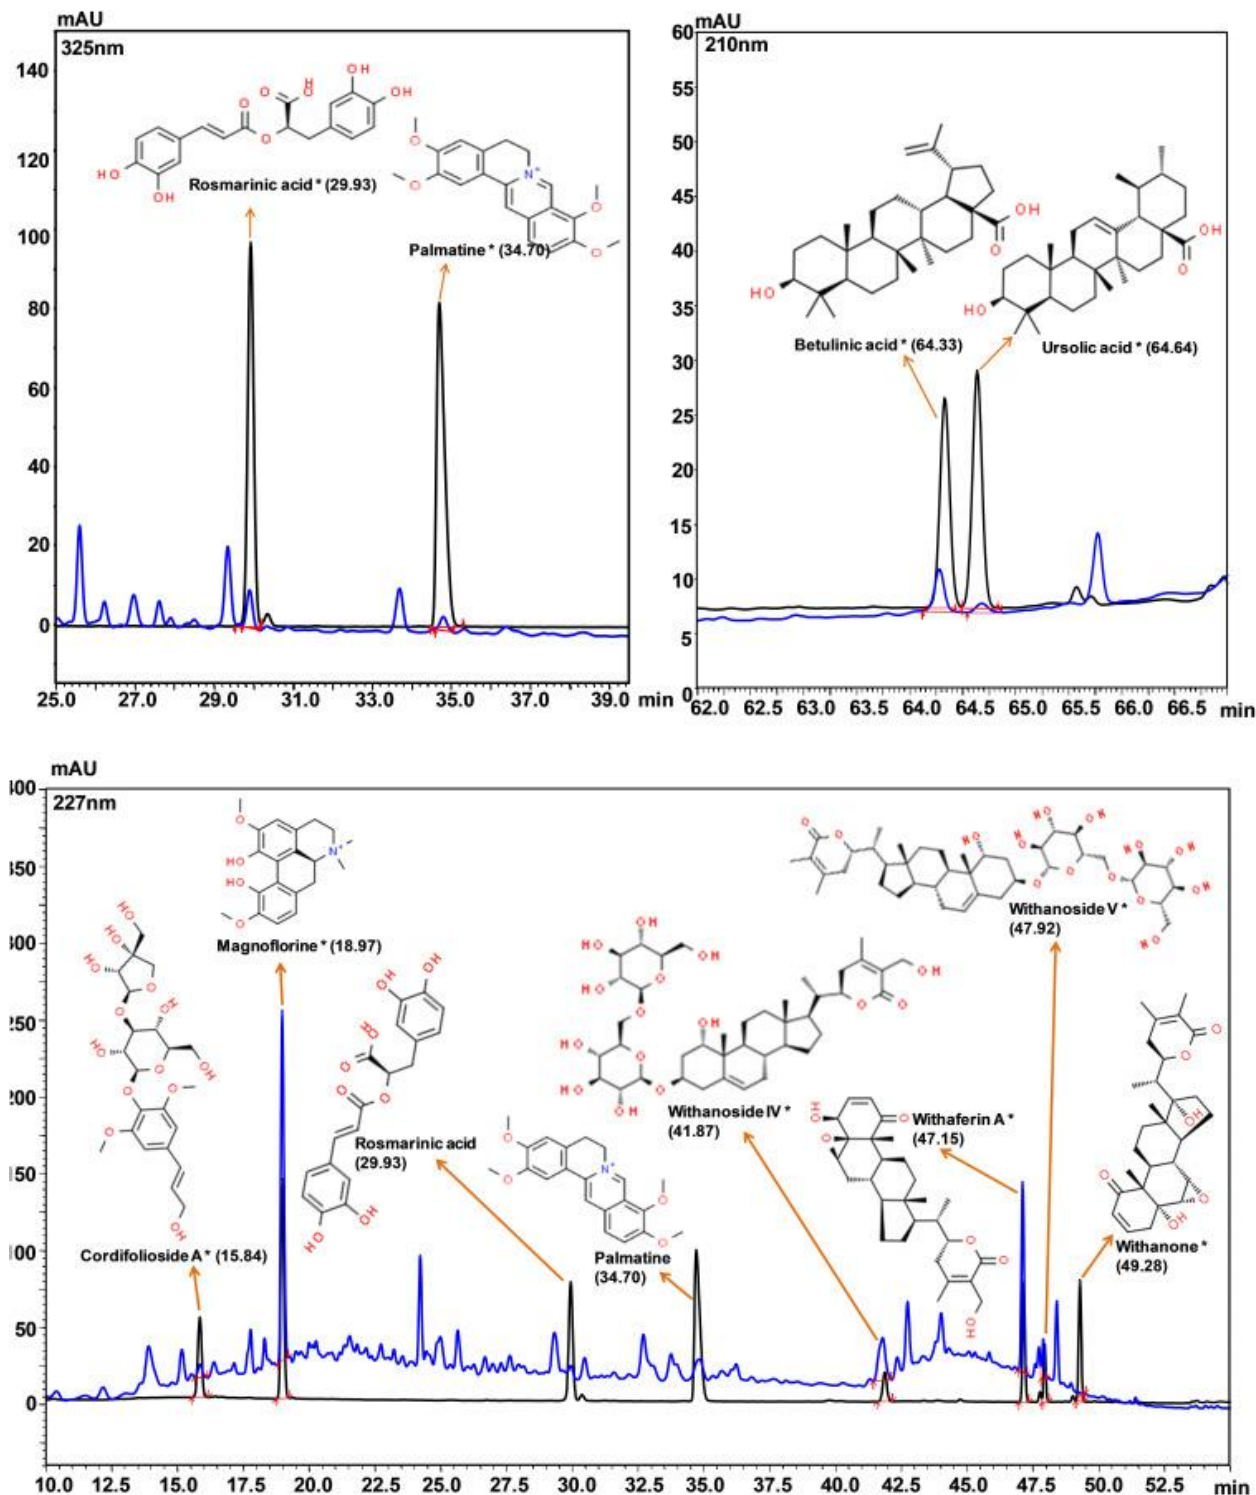

Figure 1

Cordifolioside A, Magnoflorine, Withanoside IV, Withaferin A, Withanoside V and Withanone were quantified at 227 nm, Rosmarinic acid and Palmatine at 325 nm, and Betulinic and Ursolic acids at 210 nm wavelength.

### 1.6 Innate Immunity [3]

Humans are exposed to millions of potential pathogens daily, through contact, ingestion, and inhalation. Our ability to avoid infection depends in part on the adaptive immune system (discussed in Chapter 24), which remembers previous encounters with specific pathogens and destroys them when they attack again. Adaptive immune responses, however, are slow to develop on first exposure to a new pathogen, as specific clones of B and T cells have to become activated and expand; it can therefore take a week or so before the responses are effective. By contrast, a single bacterium with a doubling time of one hour can produce

almost 20 million progeny, a full-blown infection, in a single day. Therefore, during the first critical hours and days of exposure to a new pathogen, we rely on our **innate immune system** to protect us from infection.

Innate immune responses are not specific to a particular pathogen in the way that the adaptive immune responses are. They depend on a group of proteins and phagocytic cells that recognize conserved features of pathogens and become quickly activated to help destroy invaders. Whereas the adaptive immune system arose in evolution less than 500 million years ago and is confined to vertebrates, innate immune responses have been found among both vertebrates and invertebrates, as well as in plants, and the basic mechanisms that regulate them are conserved. As discussed in Chapter 24, the innate immune responses in vertebrates are also required to activate adaptive immune responses.

Go to:

### Summary [3]

The innate immune responses are the first line of defense against invading pathogens. They are also required to initiate specific adaptive immune responses. Innate immune responses rely on the body's ability to recognize conserved features of pathogens that are not present in the uninfected host. These include many types of molecules on microbial surfaces and the double-stranded RNA of some viruses. Many of these pathogen-specific molecules are recognized by Toll-like receptor proteins, which are found in plants and in invertebrate and vertebrate animals. In vertebrates, microbial surface molecules also activate complement, a group of blood proteins that act together to disrupt the membrane of the microorganism, to target microorganisms for phagocytosis by macrophages and neutrophils, and to produce an inflammatory response. The phagocytic cells use a combination of degradative enzymes, antimicrobial peptides, and reactive oxygen species to kill the invading microorganisms. In addition, they release signaling molecules that trigger an inflammatory response and begin to marshal the forces of the adaptive immune system. Cells infected with viruses produce interferons, which induce a series of cell responses to inhibit viral replication and activate the killing activities of natural killer cells and cytotoxic T lymphocytes.

By agreement with the publisher, this book is accessible by the search feature, but cannot be browsed.

<https://youtu.be/0zSR83fVC0c>

One world order and one world religion has been established by UOG .

One world religion is religion I . Means worship of two God particles of which every thing is made up of .

One world order means Mahakal Almighty God has taken reincarnation on 22 23 Dec 1949 in middle gummud of Babri Mosque as Mahakal Lalla virajman.

His real photo has been manifested as Father returns in Ice Shiv ling in UOG at Fateharh . U P , India .

He is Lord of universe and His orders are

[01/06, 19:53] Doctor: Your eFIR no (202100032252) submitted successfully.For details, please check your registered mail

BISMILLA Rehman Rahim means vandematram means honor and worship of female God particles or Allah.

Second wave of Covid 19 in India and its failure to control it is a grievous problem created by Almighty God Lord Natraz BBB who teleported on 22 23 Dec 1949 in middle gummud of Babri Mosque . The reason of His angriness is 15 trustees of SRJBTKstra trust who occupied His place by fraud and looting money to built Ram temple without His permission . Hence prayer is also not effective as Almighty BBB Lord Natraz is seeking honor and justice in this dispute .

Legal notice was sent to 15 trustees on 13.2.21 . But they did not make any compliance. Hence Almighty God Lord Natraz got annoyed and triggered second wave in India .

FIR has been logged against 15 trustees on e FIR thana lucknow but no arrest yet on cognizable offence made spread much worst by killing innocent people of India by Almighty God Lord Natraz BBB .

Hence to reduce fatal effect of second wave of covid 19 , arrest of 15 trustees is must .

By order ACJ

Barfani Baba or Mahakaal Lalla virajman Ayodhaya .

There is flaw in right hand picture. DARK matter is shown by red colored matter . Means matter radiating photons . Hence Red . Means dying galaxies or superstructure made up of red giants or Hot matter in its dying stage.

But in reality Dark matter is cold Dark matter means it does not radiate any photon . Not visible like this .

To understand nature know FOUR WORDS

1. Science 2. God 3 Universe and 4. Prayer .

1 Prayer - About 4 to 5 billions persons do Prayer daily . Their believe is God is there and listen their prayer . Are they fools ?

2 Universe - Big Bang cosmology is unable to say for Dark matter and Dark Energy . While Hoyle Narlikar Universe could explain it . OM indicates map of universe means Dark matter and quasars .

3. GOD - SCIENCE REFUTES GOD'S creation . Means no God in Bigbang cosmology.

While Hoyle Narlikar Universe starts with particle physics ie from basic building blocks or God particles made up of MIND AND Mass . Hence know about Two God particles and how they created Cold Dark matter and hot matter

4. SCIENCE -

QUANTUM MECHANICS IS NOW OBSOLETE . IN ITS PLACE DIVINE MECHSNICS HAS COME . Means Mind incorporation in Sciences is God particles of which every thing is made up of and they work by thoughts ie conditioned thought and unconditioned thoughts .

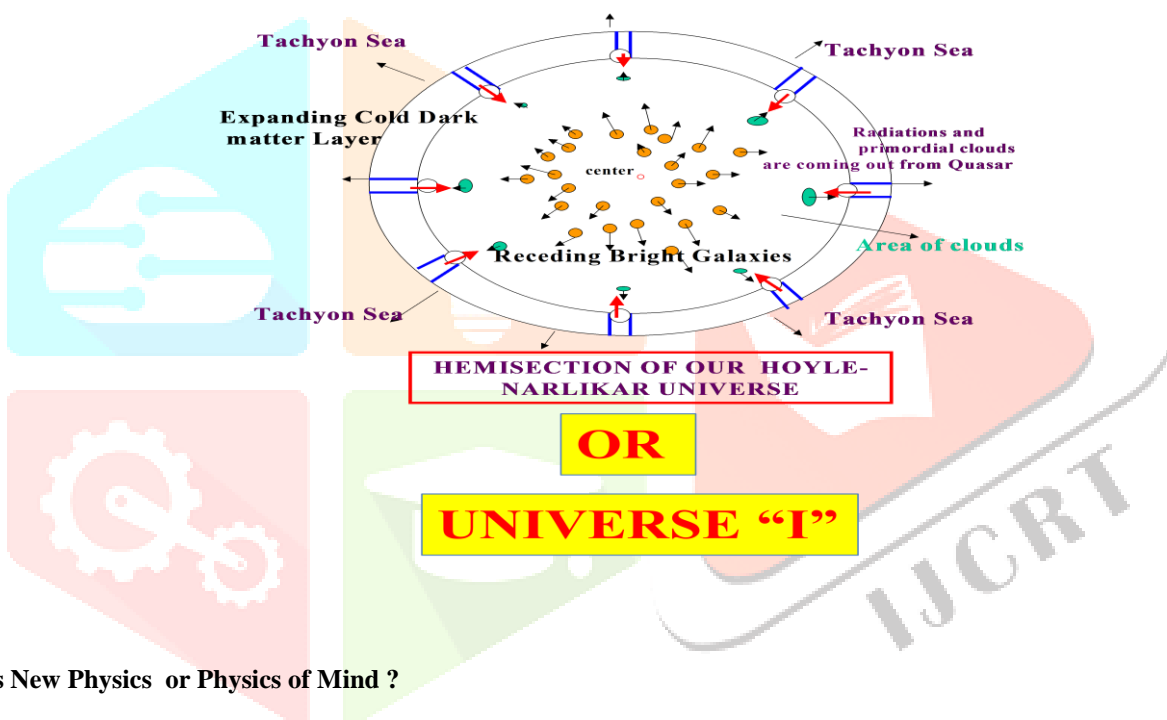

Means - Thought - programming - interaction - Effect . Means These are four steps by which natue or God particles work .

**1.1.8 Hoyle Narlikar Universe - OR -- Universe "I"**

**What is New Physics or Physics of Mind ?**

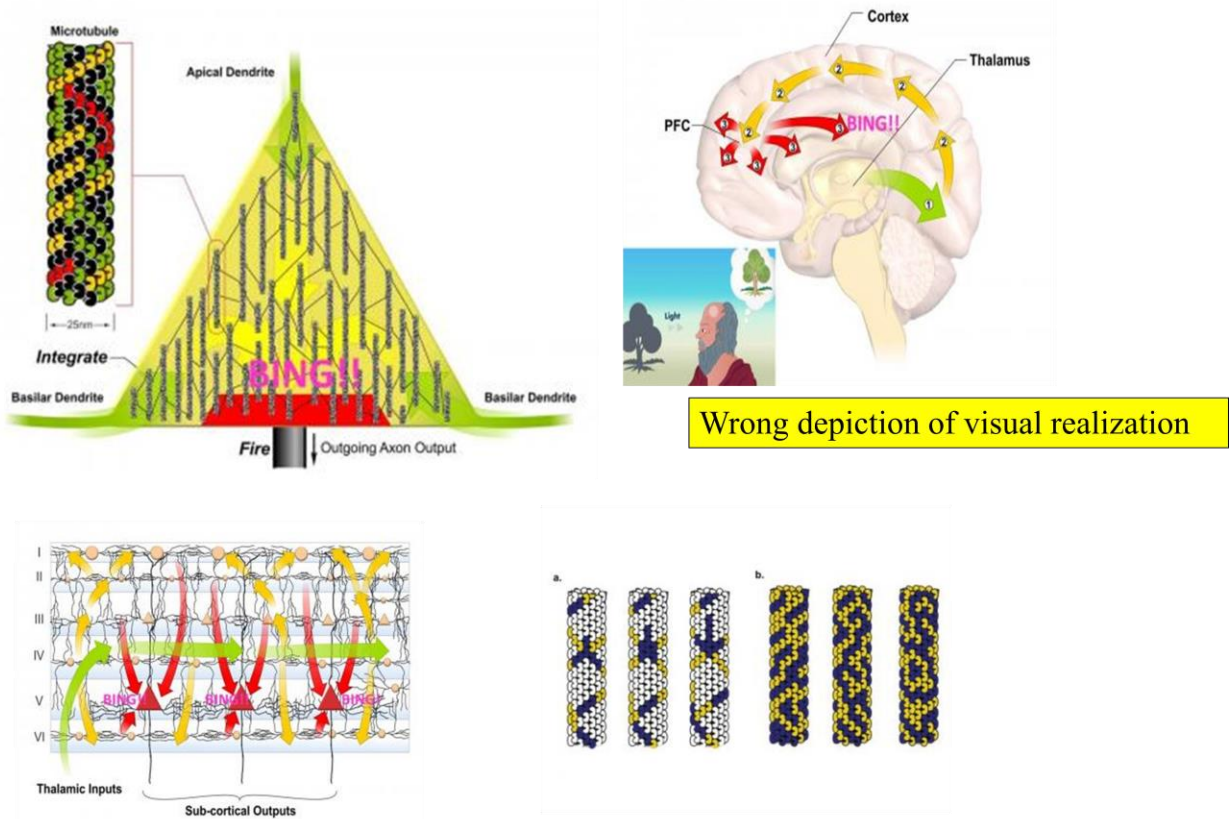

**Quantum Consciousness – According to Physicists and Biologist [1]**

The nature of consciousness remains deeply mysterious and profoundly important, with existential, medical and spiritual implication. We know what it is like to *be* conscious – to have awareness, a conscious ‘mind’, but who, or what, are ‘we’ who know such things? How is the subjective nature of phenomenal experience – our ‘inner life’ - to be explained in scientific terms? What consciousness actually *is*, and how it comes about remain unknown. The general assumption in modern science and philosophy - the ‘standard model’ - is that consciousness emerges from complex computation among brain neurons, computation whose currency is seen as neuronal firings (‘spikes’) and synaptic transmissions, equated with binary ‘bits’ in digital computing. Consciousness is presumed to ‘emerge’ from complex neuronal computation, and to have arisen during biological evolution as an adaptation of living systems, extrinsic to the makeup of the universe. On the other hand, spiritual and contemplative traditions, and some scientists and philosophers consider consciousness to be intrinsic, ‘woven into the fabric of the universe’. In these views, conscious precursors and Platonic forms preceded biology, existing all along in the fine scale structure of reality.

My research involves a theory of consciousness which can bridge these two approaches, a theory developed over the past 20 years with eminent British physicist Sir Roger Penrose. Called ‘orchestrated objective reduction’ (‘Orch OR’), it suggests consciousness arises from quantum vibrations in protein polymers called microtubules inside the brain’s neurons, vibrations which interfere, ‘collapse’ and resonate across scale, control neuronal firings, generate consciousness, and connect ultimately to ‘deeper order’ ripples in spacetime geometry. Consciousness is more like music than computation.

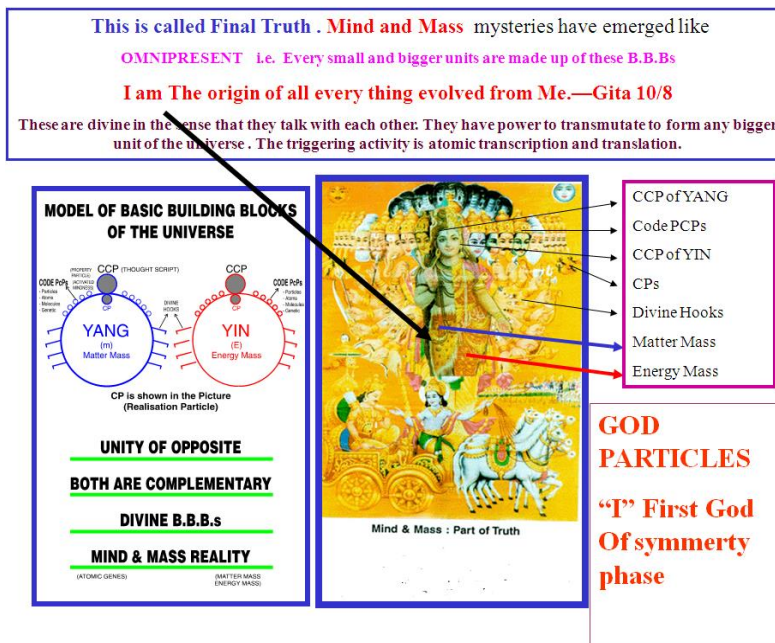

Colleagues Travis Craddock and Jack Tuszyński and I also study how anesthetics act in microtubules to erase consciousness, and with Jay Sanguinetti, John JB Allen and Sterling Cooley, we are studying how transcranial ultrasound (TUS) can be used noninvasively to resonate brain microtubules and treat mental, cognitive and neurological disorders.

Many thanks to my assistant Abi Behar-Montefiore and Ed Xia for maintaining this website.

1.2 Mind and Mass Realities [2]

**Fig. 1** Divine Mechanics Unit – CCP, CP and information s – Code PcPs with B-Bit – Mass

Atomic genetics is the branch of science where we investigate about fundamental interactions of the universe i.e. atomic transcription and translations . New words have been coined to understand hidden science of mind part of reality. Mind reality has been recognized as different faces by “I” about 5000 years back to Arjuna in Mahabharata.as shown in Fig 1. It is just like to understand any language through Alphabets. These are ( different faces ) Alphabets of mind reality. One Mind reality has one face identity and the second mind reality has second face identity and so on. The facial expression represents phenomenon of intelligence and different faces represent different types of properties carrying property. The open eyes means property is activated while close eye means property is inactivated. In spite of carrying properties consciousness they also know how to conduct not only origin of universe but also how to create two different universe i.e. next creation could be different from this creation . In all, it is automatic system of the universe . The mind realities which are of good properties have devtas face identity ( first five faces on both side ) and those mind realities which are of bad properties have demons face identity ( last four faces on both side ) . These are named as code PCPs or messenger atomic genes . The central face is CCP or Thought script where all thoughts of the universe are banked . It is bank of data of all information s of the universe It is face identity of Anti mind particles as data of all information’s of the universe are stored as anti mind particles . It is the Time mind ness ( biological clock ) that keeps on expressing different thoughts from this thought script (CCP) . There are four more faces ( black bodies ) shown on extreme left and right floating in fire are CPs ( translating Atomic genes) . That translates the messages and realizes it and reacts accordingly.[2]

**1.3. Messages From Biological world to understand B.B.B world as shown in Fig 2 [2]**

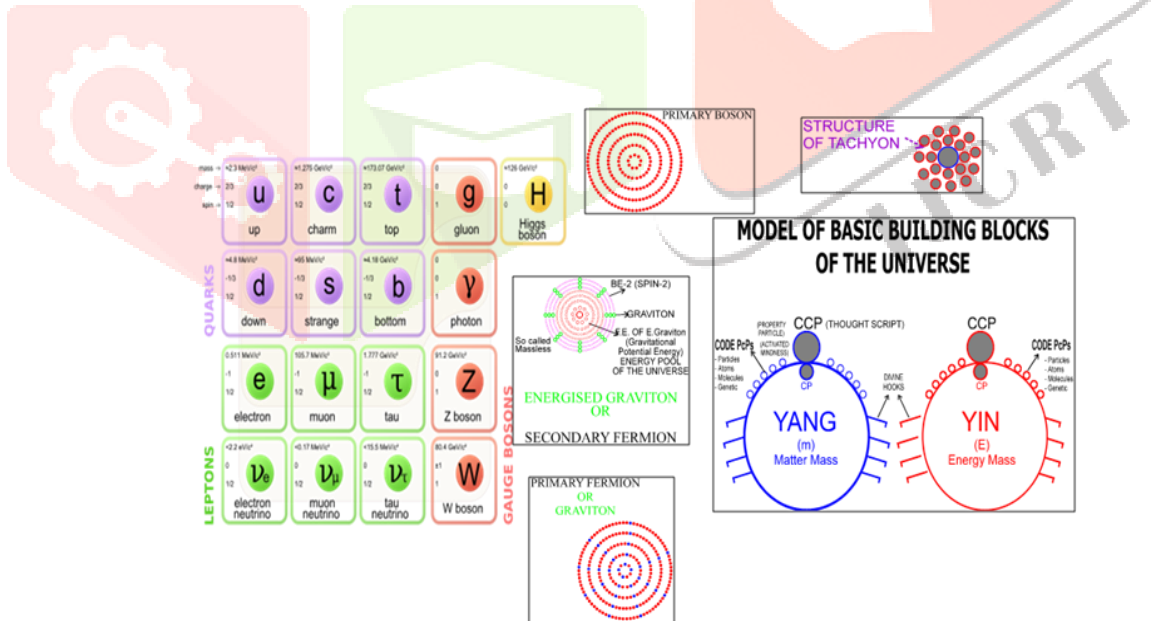

Fig. 2 Parallel teaching by participatory science

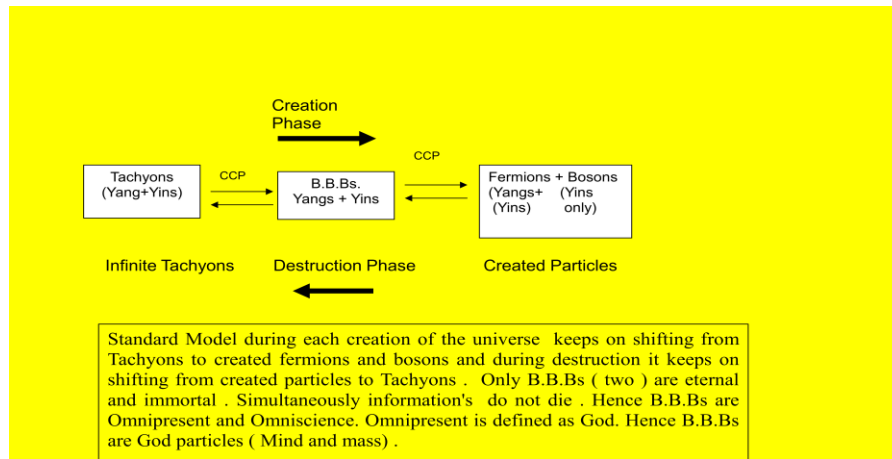

The standard model not only modified rather it has been completed [3] with introduction of energized gravitons , primary fermions, primary bosons , Basic Building Blocks , Mind and Tachyons as shown in Fig 3

Standard model completed with Fundamental particles and Mind And Tachyons

Fig. 3 standard Model chart [3]

**Fig .3.1** one creation and destruction cycle [4]

Participatory science has coined [5] some new words and there are some words which already exist in physics. Both these words are defined here and the definitions are according to participatory science. It has no relation with the definitions given in modern physics.

1. Mass - The part which gives shape to the smallest mass unit i.e. basics building blocks (B. B. Bs.) is called mass.
2. Matter :-Mixture of fermions and bosons or only bosons which are made up of mass (B.B.Bs) and that is why we realize their shape is called matter.
3. Inertial mass :-Mass (smallest mass units i.e. B. B. Bs) having inertial properties (classical inertia) either absolute rest or uniform motion in straight line is called inertial mass. Or Number of B. B. Bs. Per unit space present in bigger units is called inertial mass. Or Total matter contained by the bigger units or total number of fermions and bosons contained by the bigger units is called inertial mass. Therefore it never changes from place to place.
4. Gravitational mass :- The mass (interacting surfaces) which takes part in gravity (divine energized gravitons theory) interaction ( which is due to mind ) is called gravitational mass. When gravity interaction increases (number of divine energized gravitons increases) the interacting mass (interacting surface) also increases or when interacting mass (interacting surfaces) increases, gravity interaction (number of divine energized gravitons ) also increases. Therefore gravitational mass (interacting mass or surfaces) changes from place to place. It is the fed mind that decides gravity interaction. We shall discuss it in gravity chapter and in atomic genetics.
5. Pure m (matter) mass :-matter mass (smallest mass unit or B.B.B) which have got inertial property of absolute rest.
6. Energy mass:-Energy mass (smallest energy mass unit B.B.B) which have got inertial property of uniform motion in straight line and which also gives shape to the bigger energy mass ( Higgs Bosons etc ) units.
7. m ( impure matter ) of  $E=mc^2$  :-Matter particles (fermions) which have got spin property are called impure matter particles.

1.4 Prayer message formation in brain.

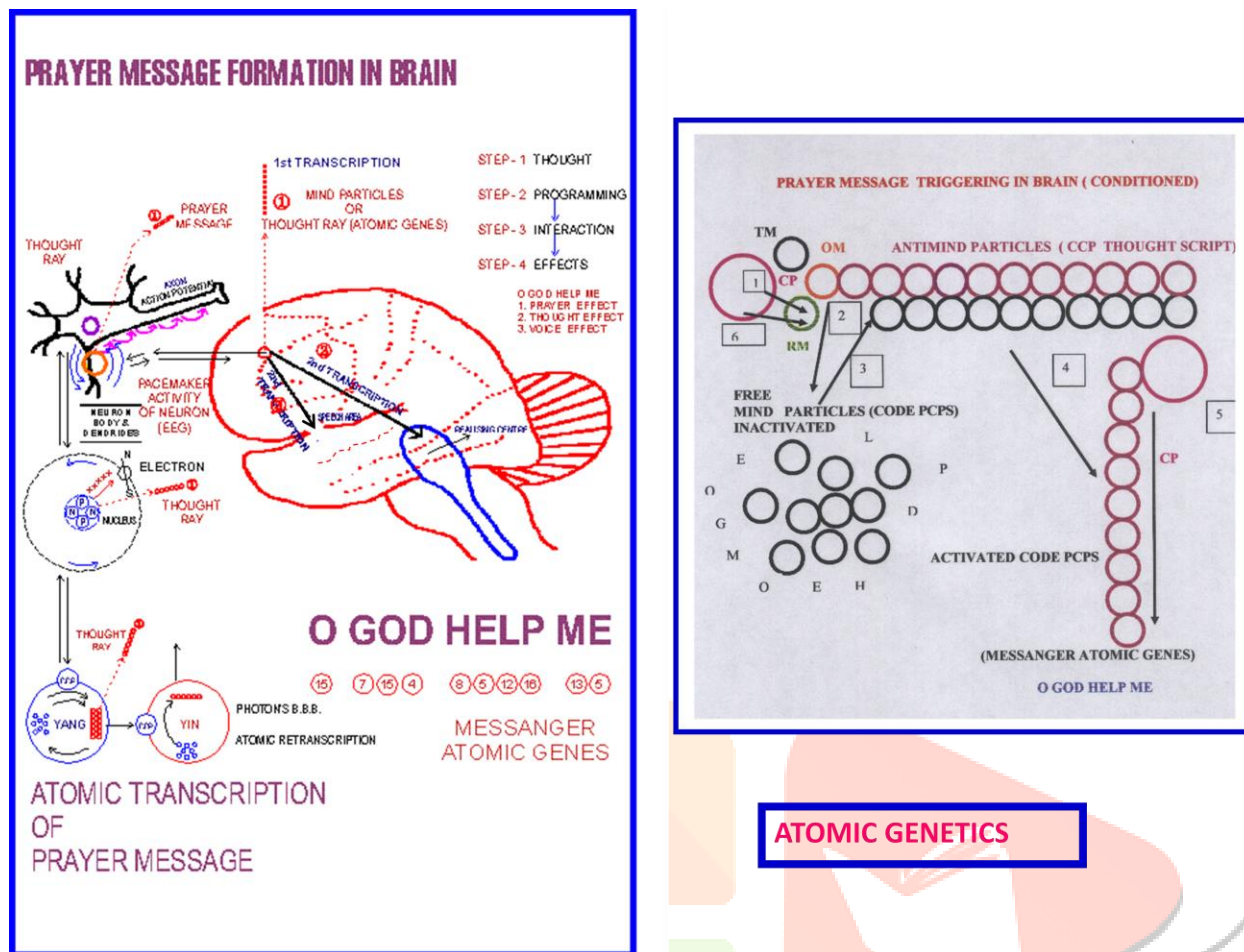

Fig 4 Divine Mechanics - Prayer message formation in brain

In atomic transcription and translation of prayer [5], following steps take place on Yang B.B.B – B-Bit as shown in Figure 4.

- 1.CP removes RM ( repressor mindness-green) from OM ( operating mindness -orange ) thus induction of atomic transcription triggers.
- 2.OM triggers activation of free mind particles ( black -inactivated code PCPs ) of that thought script (magenta) of “o god help me ”.
- 3.Free mind particles ( black -inactivated code PCPs ) get attached to anti mind particles script ( magenta one) to form messenger thought script of “o god help me ”.
- 4.Messenger atomic genes ( black ) get activated by anti mind particles thought script and further they get detached from anti mind particles thought script to form activated messenger atomic genes ( activated code PCPs) ( magenta ) of “ o god help me ”
- 5.CP carries phenomenon of splicing by translating the messenger activated atomic genes ( activated code PcPs ) and finally there is activated message of “ o god help me” is formed .
- 6.CP represses atomic transcription by adding RM ( green ) to OM ( orange ) . Thus atomic transcription gets halt.

Having formed the message it comes out in three forms .

In atomic genetic engineering ( prayer ) we use our basic power i.e. power of B.B.Bs. Our B.B.B. (higher center) talks with highest center of the universe by sending the message by first transcription. Till today nobody knows how does the brain generate thoughts. I am going to tell you that mystery too. In the frontal lobe the neurons are responsible for thought generation. In the neuron there is electrical activity called pacemaker activity which is occurring between dendrites and the body of the neuron. The membrane of the

cell is made up of atoms and atom is made up of B.B.Bs. At the level of B.B.B. say thought of 'O GOD HELP ME' is expressed. As a result programmed messages of O GOD HELP ME (code PCPs) are formed. Out of three programmed messages, one is carried by atomic genes to highest center of the universe. It is called **THOUGHT RAY ( Quantum entanglement )** which is made up of pure atomic genes and then the message goes through phenomenon called first transcription. They come out from brain directly. The other two messages are carried by photons from nucleus of atom to electrons. Here they are modulated on electrical activity of the cell called pacemaker activity. Further they are modulated on actions potentials going towards **REALIZING CENTER** situated in brain stem (RAS) and from RAS to speech area situated in the frontal area. Target B.B.Bs. of the realizing center finally realizes thought effect of O GOD HELP ME. While from speech area message goes to motor cortex again via RAS and from there to vocal cords and finally it comes out as a speech effect of O GOD HELP ME. In layman's terminology formation of the thought ray means PRAYER as shown in Fig 4

Where Does Prayer Message go ?

Prayer message goes as shown in Figure 5 to highest center of the universe via first transcription where it is realized and it is accepted, the highest center sends two messages to B.B.Bs working as higher center in cancer cell. These messages are message of inhibition of abnormal thought expression and message of activation of normal thought expression. Having received the messages, higher center stops expressing the abnormal thoughts and it starts expressing the normal thoughts. As a result, there are no more abnormal programmed messages and in place of that normal programmed messages are there. Now the messages have shifted from abnormal (5 and 6) to normal (2 and 3). This shifting of thought expression is called **ATOMIC GENETIC ENGINEERING** as shown in **Figure 4.1**

The changed messages reach to target B.B.Bs. through same route. Having received the changed messages, target B.B.Bs. stop expressing the previous programming and they start expressing the normal programming. As a result the cancer cells transmutate into normal cells. **Or diseased cell gets cured [6]** as shown in **Fig 4.1**

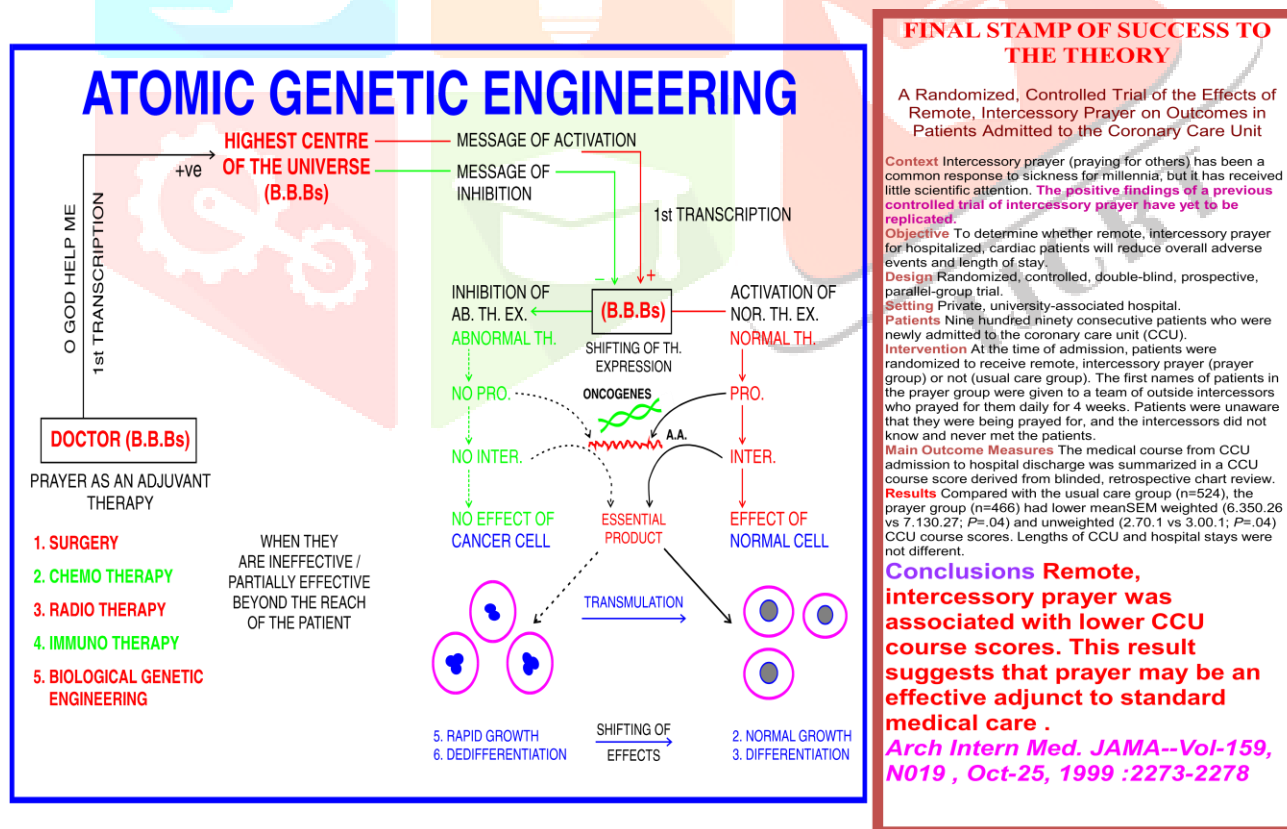

Fig . 4.1 A.G.E and Final stamp of success to New Theory[6]

### 1.5 Message system of the Universe

Before the origin of the universe [2] nature had only one type of message systems which is called FIRST TRANSCRIPTION. Messages ( Code PcPs ) used to go from one B.B.B. to another B.B.B. by atomic transcription. Messages were carried by atomic genes ( Code PcPs ) with very very high velocity. It is the fundamental message system.

After the origin of the universe, nature created atoms. It also created one more message system called SECOND TRANSCRIPTION. Here the message (code PcPs) are carried by photons from one atom to another atom with velocity of light. Thus atoms ,molecules, cells, and even individuals talk with one another

After the formation of the cell , nature created one more system called THIRD TRANSCRIPTION .Here there is a message storage system formed by DNA. There are messenger molecules called mRNA that carry message from DNA script to cytoplasm where the message (code PCPs) is read or translated by ribosome and they work accordingly. Thus the messages reach to enzymes and hormones and finally messages reach to target units. Having received the messages, target units work accordingly. Finally life effects (metabolic) are observed. These three types of message systems are working in the nature. These message system are being used by the nature according to nature's need. as shown in Fig 5

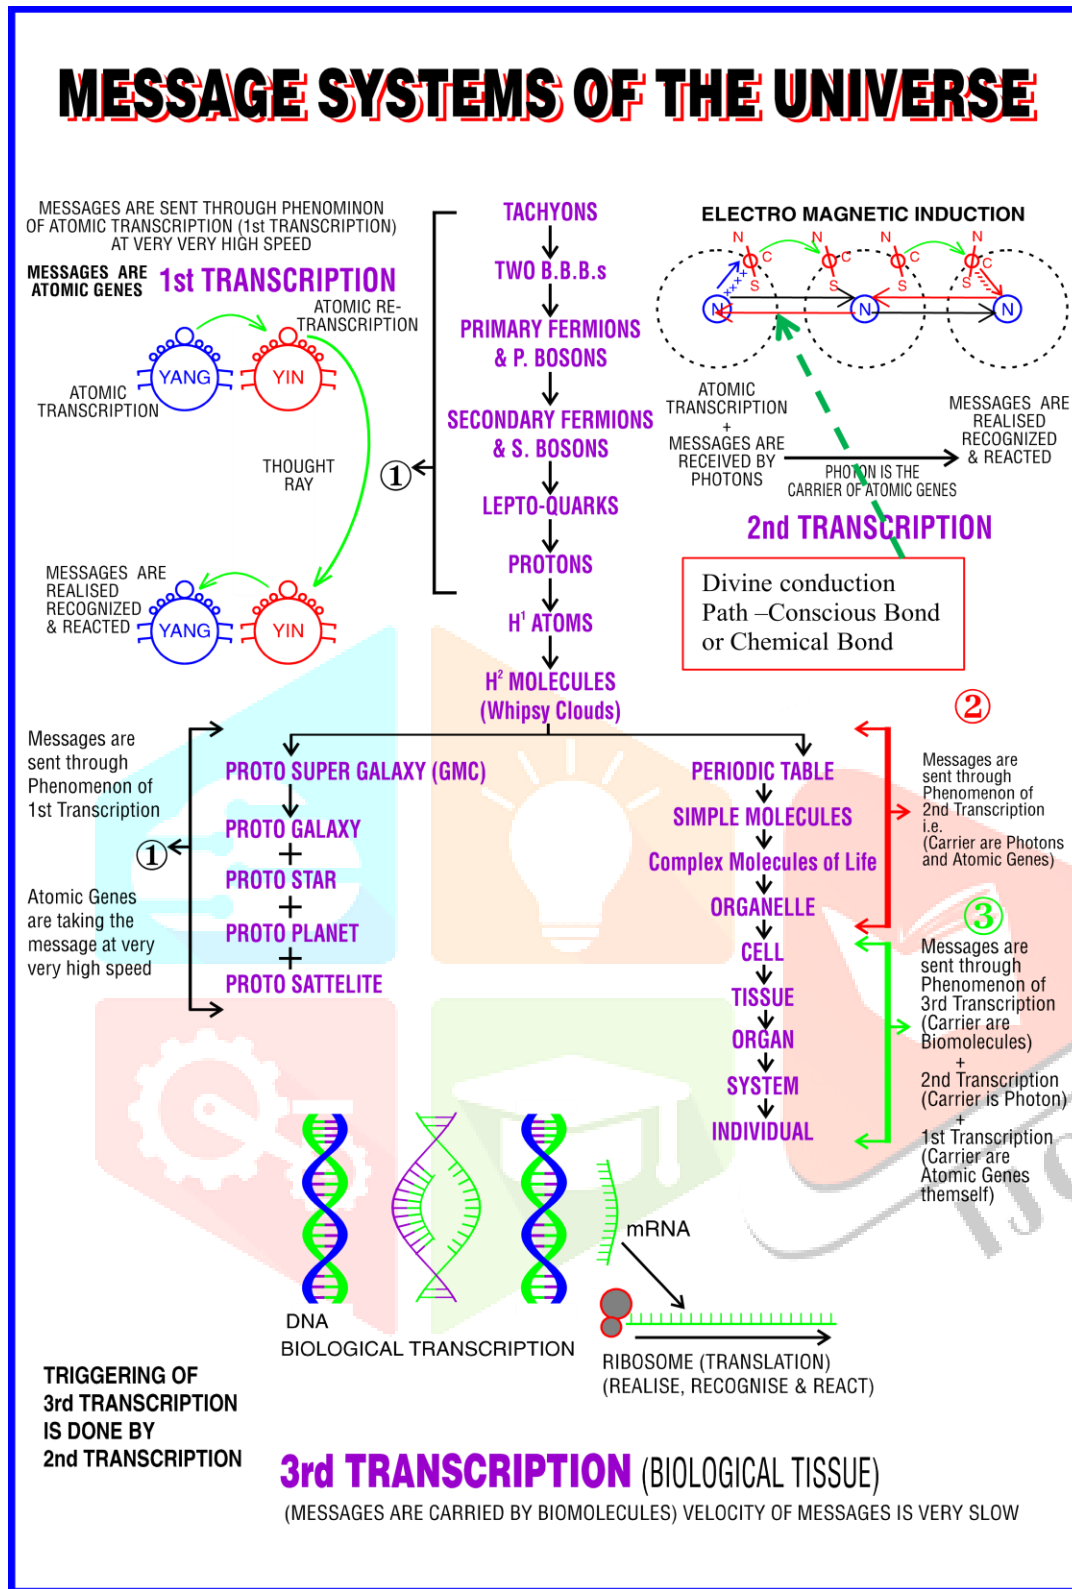

Fig. 5 Messages system of the universe

1.6 How does nature work & triggering of normal & abnormal effects

To understand creation physics as shown in Fig 6 and Fig 7. . There are two types of thought stimulation [2] . One is **CONDITIONED THOUGHT STIMULATION** and other one is **UNCONDITIONED THOUGHT STIMULATION**.

STIMULATION OF THOUGHT EXPRESSION --- There are two types of thought expressions one is CONDITIONED STIMULATION of thought expression, and other one is self stimulation of thoughts i.e. UNCONDITIONED STIMULATION of thought expression .

At the time of the origin of the universe, all effects got created. The cause of all effects of the universe is THOUGHT expression. These thought expressions were triggered by UNCONDITIONED OR SELF STIMULATED WAY . It is the first step and it is followed by PROGRAMMING or formation of programmed messages by code PCPs. This programmed message moves from higher centers to target B.B.Bs. it is called INTERACTION. Having received the messages, the mind and mass of the target B.B.Bs. work in a synchronized way so as to produced the effects as thought by a the higher center. If the thought expression by higher center is normal, the shapes, properties and laws produced by target B.B.Bs. would be normal and if the thought expressions are abnormal, the shapes, properties and laws would be abnormal. This is the basic concept of transmutation phenomenon. Finally what we observe is called EFFECT. Appearance of new shapes. properties and laws is called TRANSMUTATION. The first three steps are collectively called CCP. During transmutation process if CCP is written, it does mean that unless the thought, programming and interaction take place, nature cannot transmutate. Transmutation phenomenon is seen in particles, atoms, molecules and even in cells. The basic steps of any transmutation remain the same except that the thought expressions differ.

*The subatomic particle are made up of more fundamental particles called Basic Building Blocks ( B.B.Bs) which are made up of mind and mass. These B.B.Bs are divine in nature with the result they talk with each other by phenomenon called atomic transcription and translation ( thought expressions). The triggering of broken symmetry is caused by atomic transcriptions. Unless the atomic transcriptions occur, subatomic particles could never exhibit phenomenon of broken symmetry . So the broken symmetry is never spontaneous. It is being mis understood that sub atomic particles do have spontaneous activities as far as broken symmetry is concerned. Hence the Nobel prize physics 2008 awarded to this work is too early to give prize.*

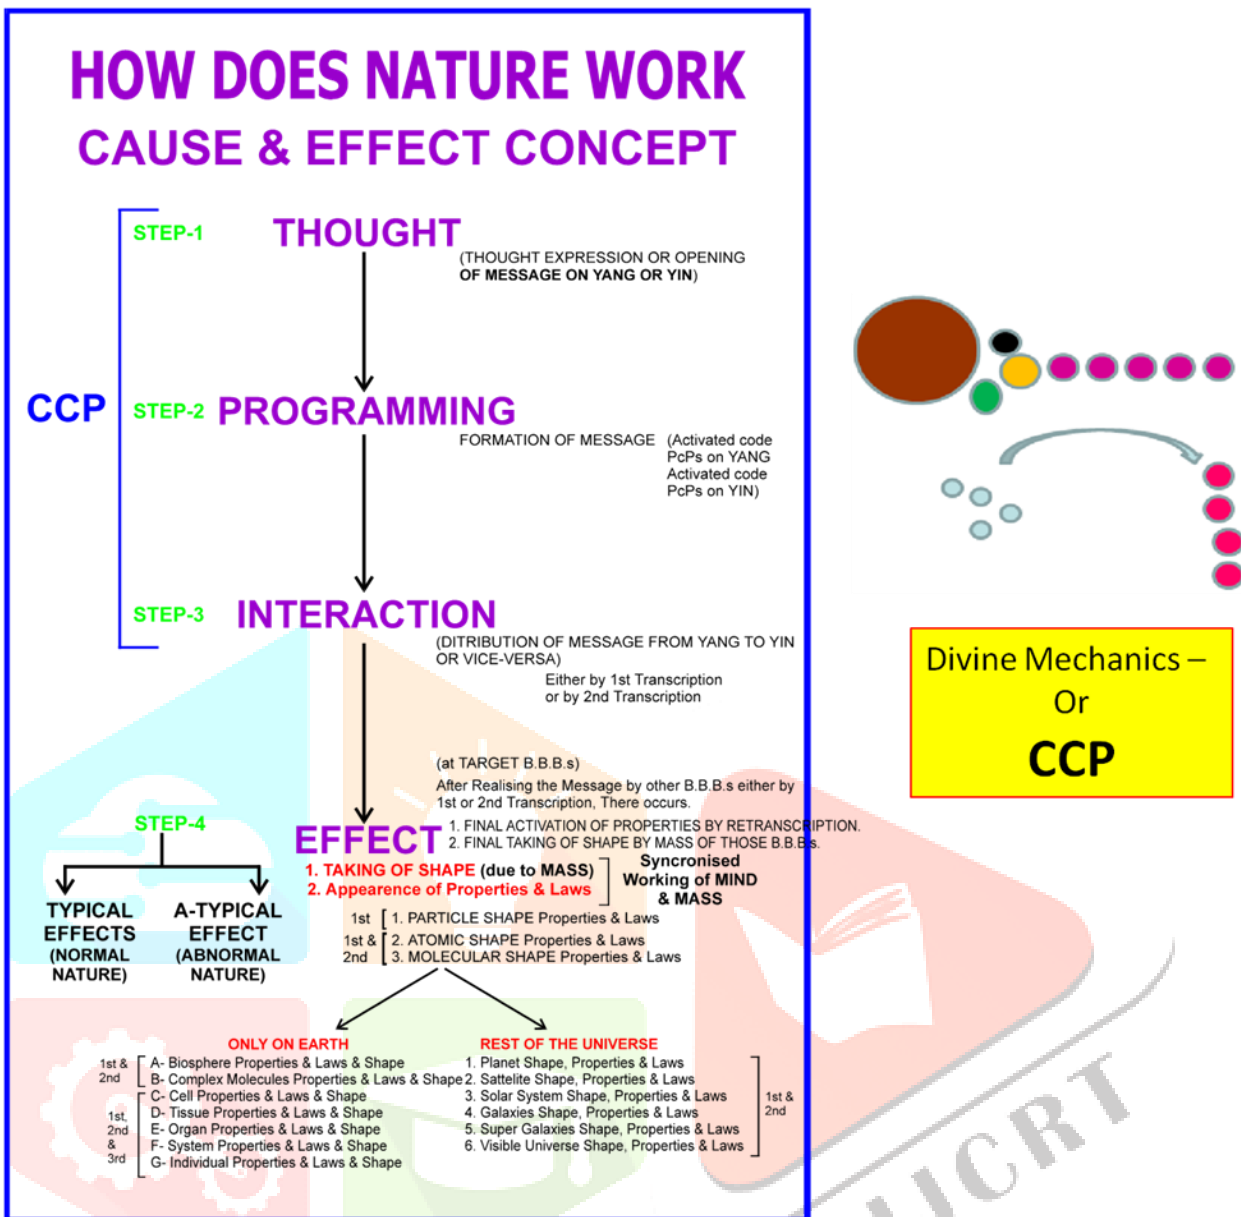

Fig. 6 Divine Mechanics – How Does Nature work ?

Fig. 7 Conditioned and Unconditioned thought expressions

**1.7 Message network of the Universe ( Feed Back Mechanism and different centers of the Universe )**

With the origin of universe, nature first created primary units i.e. primary fermions (gravitation) and primary boson, these primary units are equipped with one higher center (one B.B.B.) and rest of the B.B.Bs. are working as lower centers or target B.B.Bs.[2] After primary units ,nature created secondary units i.e. secondary fermions and secondary bosons. similarly nature created tertiary

units (lepto-quarks) and then quaternary units (protons& neutrons). Each unit is equipped with higher centers, lower centers and target B.B.Bs. After quaternary units nature created atomic units, molecular units, complex molecules of life units, organelle units, cell units, tissue units, organ units, system units and individual units. Each unit is equipped with higher centers, lower centers, and target B.B.Bs. Similarly nature created satellite units, planet units, solar system units, galaxy units, super galaxy units, dark matter layer unit. These units are also equipped with higher centers, lower centers and target B.B.Bs. Thus our universe is divided into different units and each unit is equipped with higher and lower centers.

All higher centers are under control of highest center of the universe by efferent paths. This efferent path is made up of first transcription. Higher centers can send messages to highest center of the universe by afferent path or feed back path. Thus highest center of the universe is well informed about all effects of the universe. Messages can come from lower centers to higher centers and from higher centers to highest center of the universe via afferent path. The highest center of the universe can send messages to higher centers and from higher center to lower centers. There is an inter unit message network also which is made up of first, second and third transcription depending upon the nature's need. Thus the entire universe is under control of highest center of the universe. Highest center can change any programming programmed by it during pre creation era as shown in Fig 8

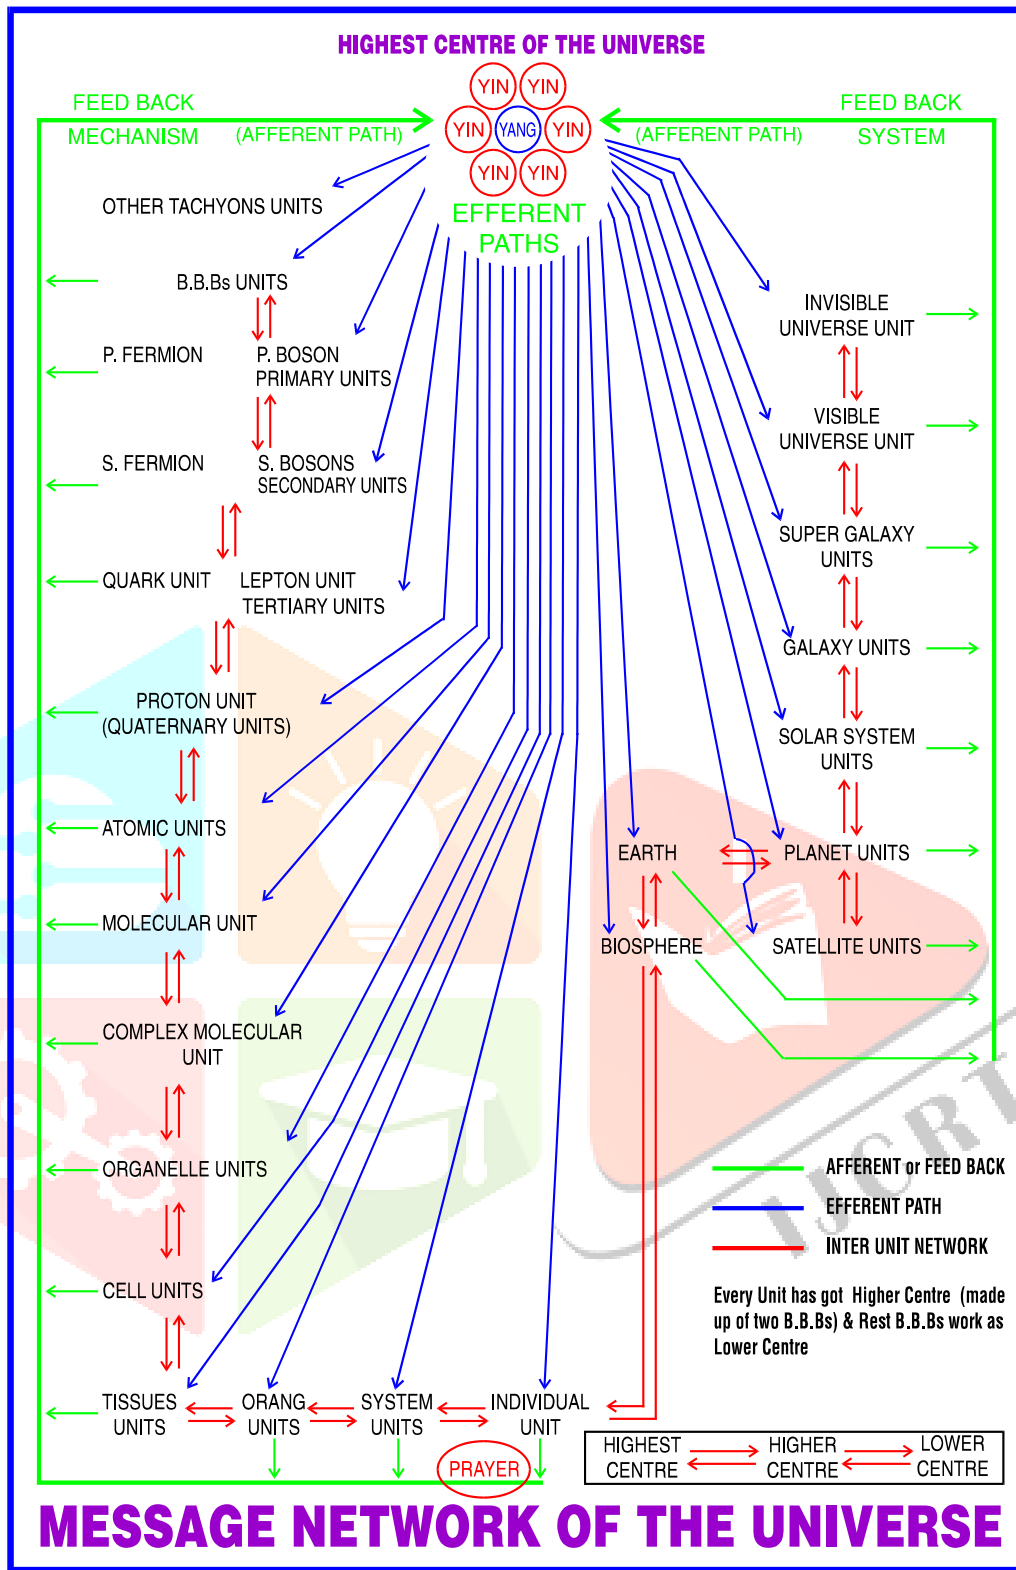

Fig. 8 Messages Net work of the Universe

1.8 Origin of the universe [7]

## Hoyle – Narlikar Universe

### ORIGIN OF THE UNIVERSE CONTINUOUS CREATION THEORY----

HOYLE AND NARLIKAR THINK THAT NEW MATTER IS BEING CREATED DUE TO 'IMPLOSION' TO BALANCE THE EXPANSION OF THE UNIVERSE, WHICH ASTRONOMERS HAVE OBSERVED. INSIDE 'QUASI STARS' GRAVITATIONAL COLLAPSES MAY FORM SOME MATTER IN THE UNIVERSE. THE HUGE LUMINOSITY AND THE RADIOEMISSION FROM THESE QUASI -STARS APPEAR TO BE 'GRAVITY POWERED' UNLIKEORDINARY STARS WHICH DERIVE THEIR ENERGY FROM NUCLEAR REACTIONS

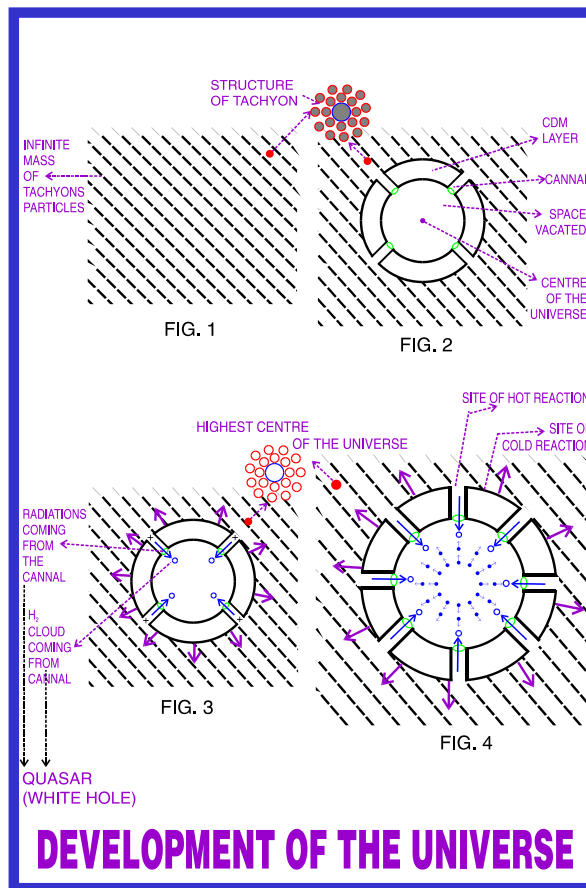

Fig. 9 Development of the Universe

Before the origin of the universe, these Basic Building Blocks (B.B.Bs) as shown in Fig-3 were in the form of tachyons as shown in Fig-9 [7]. It means that at that time the tachyons were everywhere in the universe. Let us look at the structure of tachyons; it is made up of one matter B.B.B. (YANG) and many energy (YINs) B.B.Bs. Initially out of the infinite tachyons, one became the **highest center** of the universe. Messages used to go from highest center to rest of the universe and messages could come from rest of the universe to highest center of the universe by atomic transcription. Thus highest center had fed its thought to rest of the B.B.Bs. that would take part in creation - that they would express only those thoughts to give desired effect as wished by the highest center of the universe. So all B.B.Bs were informed about their role before creation of the universe. In pre-creation era programming of the future universe was done by highest center of the universe. Our universe is oscillating and it is a divine universe. It means that it has a creation phase and a destruction phase. During creation phase tachyons break into their B.B.Bs. and from these B.B.Bs, formation of fermions and bosons take place as shown in Fig 3.1. After the creation phase, destruction would start and in this phase all created particles would again break into their B.B.Bs and finally tachyons would form. At the time of origin of the universe, all the effects got created. These effects are taking of different shapes and appearance of properties and laws. All these effects are studied in various branches of science.

With the origin of the universe, nature first created a sphere of **COLD DARK MATTER (C.D.M)** and canals in it. With the result space got created. At the other end of the canals, hot reaction started (**the relics are back ground radiations 2.7 degree K of our hydrogen clouds**). As a result hydrogen clouds and lot of radiations were created. The empty canals were filled by these hydrogen clouds and radiations and thus **QUASARS** appeared in the universe. Simultaneously C.D.M. layer started expanding and clouds and radiations kept on coming in this closed universe as shown in Fig 9 . With the passage of time more and more C.D.M. layer formed, more and more quasars formed. The hydrogen cloud came in this closed universe. They started running towards C.D.M. layer as they were attracted by the gravity of C.D.M. layer. Those clouds, which were nearer, moved faster than those, which were away from CDM Layer. The **HUBBLE LAW**, can thus be explained. With some more passage of time, clouds were joined to form **GMC** (giant molecular clouds). Later by self-gravitation different proto stars, proto planets, proto satellites were formed. Finally stars became bright and thus bright galaxies appeared in this universe. Our universe is still in expansion phase and creation is still going

inside quasars. It is to be remembered that highest center of the universe does not come in the visible universe. It keeps on receiving the messages by atomic transcription and it has power to change any programming programmed by it during pre-creation era.

It is the atomic genes which constitutes mind part of reality. Mind incorporation in physics is awaited as theory of every thing is not yet investigated . I have investigated theory of every thing ( ToE) and I found that while studying unified theory at the time of origin of the universe by Hoyle Narlikar universe , it was mind reality that triggered symmetry breaking phase . It is mind reality that triggers oscillation phenomenon of the universe. It is the mind reality which is behind perfect cosmological principle . There is nothing like artificial intelligence in the universe . These mind particles constitute intelligence of the universe that controls the deterministic order of the universe. It is the mind reality behind all effects of the universe. But this is not our mind rather it is mind of Almighty B.B.B (Yang B.B.B or matter B.B.B. or Male B.B.B working as Highest center of the universe ) . His mind could be manipulated by prayer only . as shown in figure 9.1and 9.2

### 1.10 Divine Mechanics and Brain Computation

Learning and Memory and information s ( Code PcPs ) Net work in Brain [ 10]

## Divine Mechanics and Brain Computation

**Fig 12** Divine Mechanics of Brain Computing System – Learning and memory

At all steps , these are B.B.Bs ( B-Bit ) that are responsible for information’s control and triggering . If CCP is written it means unless atomic transcription and translation occur , brain cannot have learning and memory triggering and control and it is called Divine mechanics of Biology and it is life . These are higher thought expressions of B.B.Bs . In Bits of classical computers and qubits of QC , the thought expressions are lower and different but the mechanics ( DIVINE ) remains the same. as shown in Fig 12

Physics dictates the lowest limit of size of chip **but DIVINE mechanics does not**  
**Moore's Law Modified and Completed**

**Fig 13-** The Theory of Computers and Brain are same – DIVINE MECHANICS

( Structural and Functional smallest Bit ( mass ) is B-Bit of the universe and the Divine Mechanical Unit is CCP , Code PcPs and CP.)

DIVINE MECHANICS The Theory of Computers and Brain is SAME as shown in Fig 13

Physics dictates the lowest limits of the size of chips [11]. But divine mechanics does not . Hence the bit is a typical unit of information. ((Classical and Quantum Bit ) is wrong and to describe informations by adding qubit is also illusion as in complicate system ,it is the different thoughts expressions that describe informations . Informations are separate ( Code PcPs ) and bits ( Electron of transistor ) qubits ( electron of diamond crystal ) are separate. At DNA level the bit is nucleotide (A,T,C,G ) and at Atomic level the bit is photon and electron , at particle level ( secondary fermions and secondary bosons ) the bit is primary fermions and primary bosons and informations are still code PcPs and at B.B.B level the bit is B.B.B ( Yang mass and Yin mass - B- bit ) it self and the information is carried by Code PcPs but at all level of all bit units the information storage system is CCP ( Physiological arrow of Time ) it never dies even after destruction of the universe. Hence informations are eternal . In computers, Bit is a structural configuration that describes informations of the system and informations are in form of Code PcPs. The working of the bit is triggered and controlled by thoughts of higher centers that form that bit. If the bit is classical ( transistors of chips ) the effect is different . But if the bit is qubit with entanglement the working is triggered and controlled by thoughts of higher center that form that crystal . In both the effect of describing informations would be different.

One is classical ( thought expressions are fixed and limited )and other one is quantum ( thought expressions are changing and more wide to describe the more wide complicated system to have fast results . ) . In life sciences in Brain the bit is again Photon and the informations are Code PcPs and they are triggered and controlled by CCP of higher centers that is triggered by DIVINE MECHANICS .

In life sciences the CCP ( cryptography ) of B-bit expresses informations ( Code PcPs ) which were not fed like speaking Lie and unlike Bit of classical computer and qubit of QC it shows phenomenon of forgetfulness and IQ phenomenon ( mental age /real age )

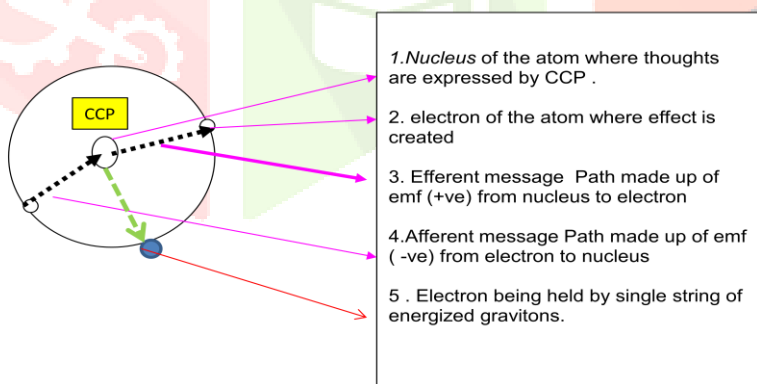

. It is Higher functions of B.B.B or B Bit and it is life . Hence there is difference in some aspect of DIVINE MECHANICS \of Computers computation and Brain computation

**1.11 Modified theory of atomic structure** as Niels Bohr’s theory has limitations in explaining different series of hydrogen spectra.

New assumptions of structure of hydrogen atom. – Divine Modified Niels Bohr ‘s Theory ( **Divine MONB** ) as shown in Fig 14

1. Hydrogen atom is like a miniature solar system with the negatively charged electron moving in circular orbit around positively charged nucleus having positively charged particle proton. In this circular orbit or stationary orbits , electron is being held by single string of energized gravitons . This energy level is called ground state.
2. When Hydrogen atom is excited, the electron moves from ground state to excited state energy levels making a bigger circular orbit and having reached in this new energy levels , it also emits radiations . Hence absorption and emission of energy quanta occur simultaneously. Shifting is understood in inter orbital shift phenomenon.
3. When excitation is over, the electron once again come back to ground state energy level . All above mentioned events are triggered by different thoughts or atomic transcriptions from the nucleus or proton in case of hydrogen atom.
4. These atomic transcriptions are being triggered by conditioned stimulation of CCP by the message system made up of photons (second transcription or –ve charged photons or afferent path ) coming from electron to proton and further they are transmitted by photons ( second transcription made up of +ve charged photons, or efferent path ) to electron. Having received the messages , electron works accordingly. Unless the thought is expressed, nature cannot work . as shown in Fig 14
5. When electron is in ground state, its interaction with energized graviton and electromagnetic photon is more hence IP - 13.59ev ( n=1) is required to remove electron from this energy level. During excited stage the interaction is different hence I.P. to remove electron from this state is -3.4ev (n=2), -1.511ev (n=3),- 0.850ev (n=4) , -0.544ev (n=5) respectively. It the changing thought of interaction with energized graviton and electromagnetic photons that gives changing effect .
6. Electronic configuration of higher atoms could be known by studying I.P. curve . Working of hydrogen atom as shown in Fig 14 .

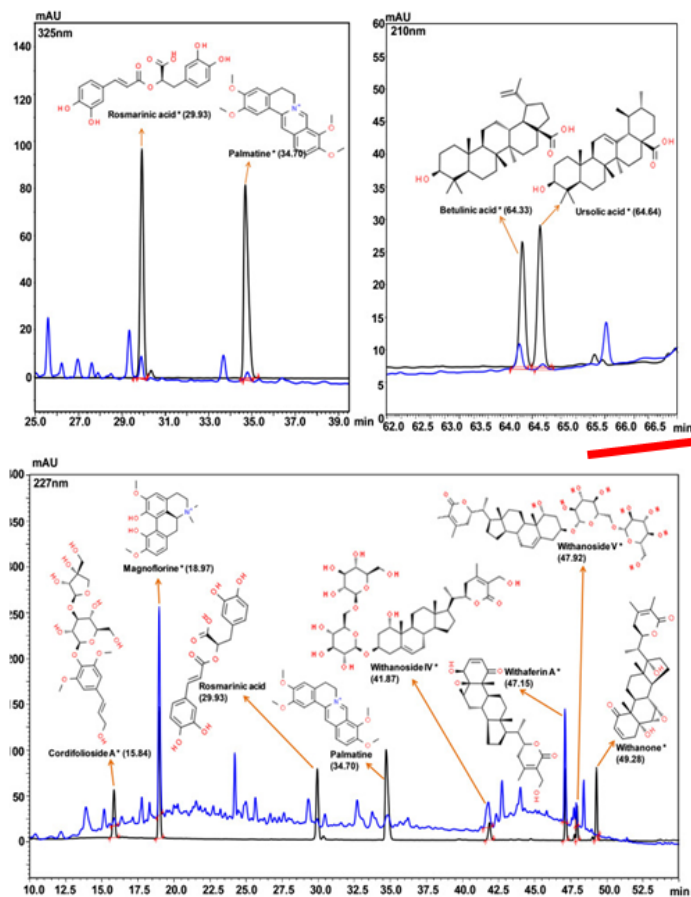

**Fig 14** working of hydrogen atom – Divine MONB Theory

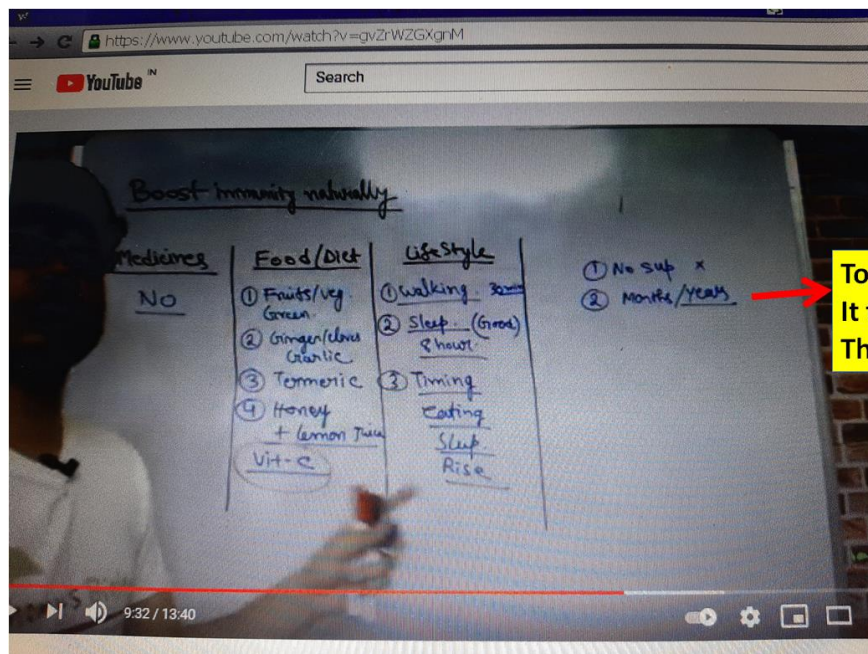

**Structure**

**2.1 Flaws in Clinical Trials and research that Coronil is not Specific Adaptive Immune booster in Covid 19 patients .**

Innate Immunity ( Both Cellular and Humoral ) is preexisting natural immunity maintained by Phyto chemical ( diets ) and through different life styles . It take months and years to trigger it when it becomes weak through different food supplements and life styles . But once adaptive specific immunity ( specific adaptive humoral immunity mainly ) is required , we have to trigger specific adaptive Immune response through attenuated enemy antigen that triggers specific adaptive immune response through T cells and B cells part of adaptive immune system and it takes 4 to 8 weeks to boost this specific adaptive immune system . Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

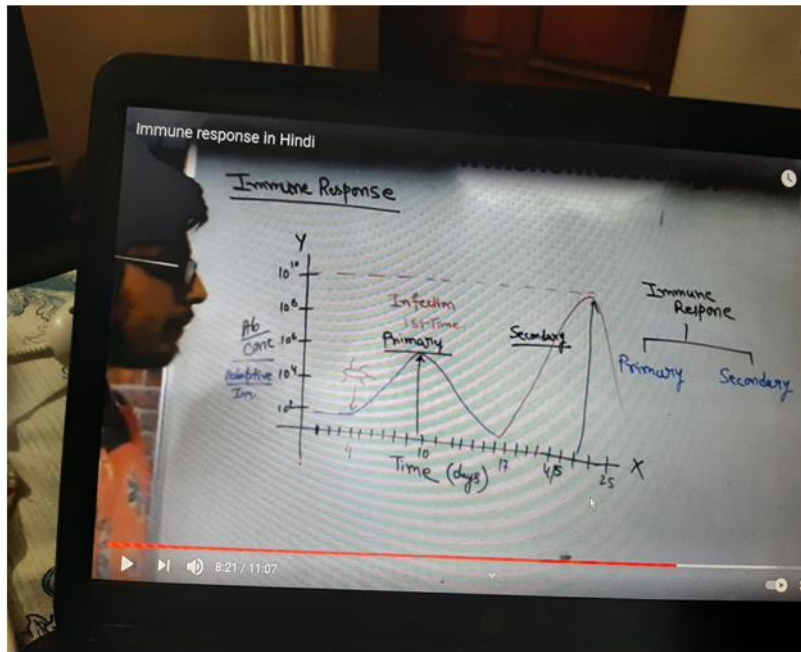

Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

To boost Immunity Naturally  
It takes months and years  
Through diets and life styles

Specific Adaptive immune Response is of two types i.e Primary and Secondary. Neither of graph has been plotted to visualise Adaptive Immune boosting effect in [1] of drug Coronil . A fake Claim imposed from day one to day seven making to cure 100% [1] . Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

**Specific Adaptive immune Response is of two types ie Primary and Secondary.**

**Neither of graph has been plotted to visulise Immune boosting effect in [1] of drug Coronil . A fake Claim imposed from day one to day seven making to cure 100% [1]**

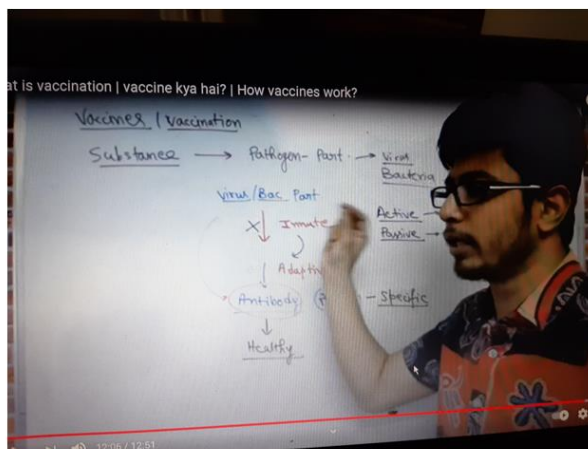

**Specific Adaptive immunity is of two types ie Active and Passive .**

**Active Immunity is triggered by Vaccination ( Attenuated enemy protein like Covid Shield etc ) and passive Immunity is triggered by specific Antibodies taken from already cured patients ( plasma or Monoclonal Antibodies ) .**

**Neither of mode of action is being triggered by Coronil being Phyto Chemicals . A fake Claim of Specific Adaptive Immune Boosting imposed from day one to day seven making to cure 100% [1]**

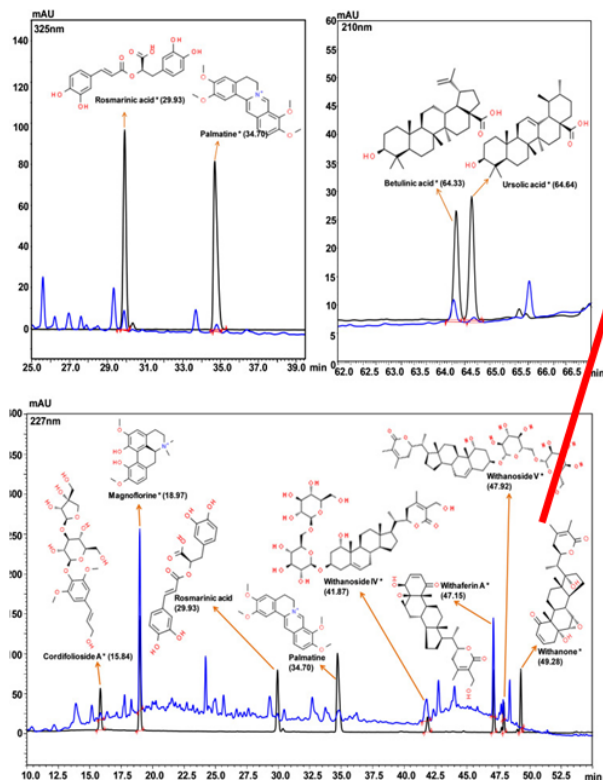

**Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]**

Specific Adaptive immunity is of two types ie Active and Passive . Active Immunity is triggered by Vaccination ( Attenuated enemy protein like Covid Shield etc ) and passive Immunity is triggered by specific Antibodies taken from already cured patients ( plasma or Monoclonal Antibodies ) . Neither of mode of action is being triggered by Coronil being Phyto Chemicals . A fake Claim of Specific Adaptive Immune Boosting imposed from day one to day seven making to cure 100% [1]

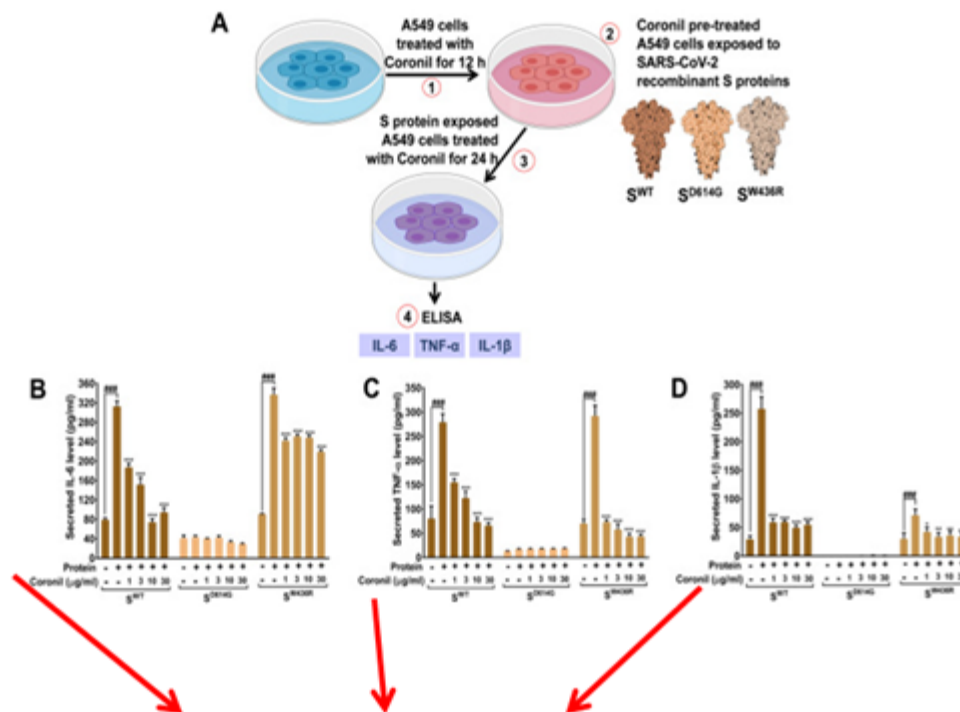

2.2 As far as Coronil’s anti viral action [2] that Coronil is a tri-herbal formulation containing extracts from *Withania somnifera*, *Tinospora cordifolia*, and *Ocimum sanctum*. Recently, it was shown that Coronil rescued humanized zebrafish from SARS-CoV-2 induced pathologies. Based on reported computational studies on the phytochemicals present in Coronil, it could be a potential inhibitor of SARS-CoV-2 entry into the host cell and associated cytokines’ production . When evaluated , it was found that instead of out of 10 phytochemicals ,to explain which phytochemical has more anti viral property with respect to one another ( Fig 1[2] ) rather they quoted word coronil in different doses 1,3,10 and 30 microgram /ml in vitro on different viral recombinant S proteins ( three samples ) to get how much release of cytokines was inhibited by bar graph Fig 3 [2] . This shows less probing efforts to establish antiviral property in vitro by 10 Phytochemicals separately .

When evaluated , it was found that instead of out of 10 phytochemicals ,to explain which phytochemical has more anti viral property with respect to one another ( Fig 1[2] ) rather they quoted word coronil in different doses 1,3,10 and 30 microgram /ml in vitro on different viral recombinant S proteins ( three samples ) to get how much release of cytokines was inhibited by bar graph Fig 3 [2] . This shows less probing efforts to establish antiviral property in vitro by 10 Phytochemicals separately .

Fig 1 [2]

When evaluated , it was found that instead of out of 10 phytochemicals ,to explain which phytochemical has more anti viral property with respect to one another ( Fig 1of [2] ) rather they quoted word coronil in different doses 1,3,10 and 30 microgram /ml in vitro on different viral recombinant S proteins ( three samples ) to get how much release of cytokines was inhibited by bar graph .[2] Fig 3 .

Fig 3 [2]

2.3 in Fig 6 [2] It has been evaluated in inhibition of Covid 19 pathogenesis that on day 5 to 7 an immune boosting property has been shown that did work to reduce respiratory complication 7 to 14 days ( ARDS ) . It is Fake claim as regard specific adaptive immune boosting response that phyto chemicals are devoid off .

in Fig 6 [2] It has been evaluated in inhibition of Covid 19 pathogenesis that on day 5 to 7 an immune boosting property has been shown that did work to reduce respiratory complication 7 to 14 days ( ARDS ). It is Fake claim as regard specific adaptive immune boosting response that phyto chemicals are devoid off . insertion of Immune boosting property by Coronil to mal adopted immune response as a **complement activation** in Fig 6 from day 5 to 7 in explaining inhibition of covid 19 pathogenesis makes the entire study in vitro a Failure .

Fig 6 [2]

Conclusion

Coronil ( 10 phyto chemicals ) is neither adaptive specific immune booster in covid 19 positive patients nor it has discreet 10 phyto chemicals antiviral anti covid 19 property separately in vitro .

Specific Adaptive immune Response is of two types ie Primary and Secondary. Neither of graph has been plotted to visulise Adaptive Immune boosting effect in [1] of drug Coronil . A fake Claim imposed from day one to day seven making to cure 100% [1] . Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

Specific Adaptive immunity is of two types ie Active and Passive . Active Immunity is triggered by Vaccination ( Attenuated enemy protein like Covid Shield etc ) and passive Immunity is triggered by specific Antibodies taken from already cured patients ( plasma or Monoclonal Antibodies ) .

Neither of mode of action is being triggered by Coronil being Phyto Chemicals . A fake Claim of Specific Adaptive Immune Boosting imposed from day one to day seven making to cure 100% [1]

Hence to claim that Coronil ( phyto chemicals ) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

Fake results are published in paper [1] about its Specific adaptive immune boosting property . Hence Zero marks have been allotted in [1] published paper . As regard Antiviral anticovid property in vitro , less probe has been done as regard anti covid property of different 10 phyto chemicals separately from day 1 to day 14 till precipitation of ARDS gets inhibited (Fig 1 , Fig 3 and Fig 6) . Besides testing antiviral anti covid property in vitro in Figs 2,3,4 and 5 , insertion of Immune boosting property by Coronil to mal adopted immune response as a complement activation in Fig 6 from day 5 to 7 in explaining inhibition of covid 19 pathogenesis makes the entire study adultery in vitro a Failure . Hence marks allotted to this study zero out of ten . Hence its name Coronil is misleading and requires to get abandon . Its selling as Immunity booster as specific adaptive immune booster in Covid 19 should be banned .

UOG has exposed flaws in drug Coronil through publishing its fake results [1] as regard adaptive immune boosting process that takes a week or so [3] to boost reduced body innate natural immune systems .

But Coronil is not Specific adaptive immune booster ( Enemy antigen ) rather it is group of phyto chemical triggered immune boosting effect day one and completed ( 100 % Cure ) on day 7 [1] which is contrary to trigger Specific adaptive immune response by well settled known science [3] .

Adaptive immune responses, however, are slow to develop on first exposure to a new pathogen, as specific clones of B and T cells have to become activated and expand; it can therefore take a week or so before the responses are effective.[3]

Charges on its fake publicity That it is specific adaptive immune booster that too day 1to 3 [1] is to gain money under greed and to befool public in large should be framed and imposed on owner of the drug Coronil by order ACJ .

Kast but not the least in pandemic of Corona we should not depend totally up on innate immune response as it is not as strong as it should be , Hence use of antiviral ( Allopath ) and other drugs are mandatory to cure covid 19 apart from immunization along with adjuvant with AGEto cure sick cell (Remote, intercessory prayer was associated with lower CCU course scores. This result suggests that prayer may be an effective adjunct to standard medical care . *Arch Intern Med. JAMA--Vol-159, N019 , Oct-25, 1999 :2273-2278* )
