Abstract: Compared to the people of China and the people of South Africa and its climate, there is a different climate and ancestry. But one of them is different in intelligence than the other. Because of the climate in the respective countries and sectors. Also, Earth, Mars, Mercury, Venus or Jupiter will be created according to the climate of the solar system. But they are not separated from other planets. Separate planets do not appear.

Human kinds introducing:

Every religion is arguing that the God of their own religion is real and the God of other religions is not the real God. And they argue that what is mentioned in their respective scriptures is the truth. But that is not the whole truth; not even a lie. So what is truth? When the situation was like this, religious riots started. The fights have started. Confusion begun. But Harihara Sarahunaath's holy book "Sanahi" is the amalgamation of all religions of the world. That is otherworldly achievement. It is the gateway to all scriptures. In the Himagiri Constitution new provisions have been made in this regard. Religions seen today and the content of religious scriptures are mostly legends. The ancestors may have reflected their imaginations in this way. But they remain far from reality. Confusion has begun for science. In the beginning, organisms took to life on earth according to the soil content. And are breeding. Harihara Saarahunaath has clearly informed the world about this in his astronomical research articles.

Planets only a few planets, such as the Sun's prime organs, are taken into account. The rest of the planets are not integral parts of the Sun. Planets, asteroids, and asteroids are being created in the same way that climatic life is taking place in our atmosphere. But there is one lord of the respective planets that is created. Like a father mother for kids. They are integral parts of the respective planets. As we have seen the diversity in life forms in terms of soil quality on the planet, we are also seeing diversity on the planets. New planets are being created in a similar climate. But the planets are not created from the same particle at the source. Even in the same way as man, there are different types of planets, asteroids, etc.

Compared to the people of China and the people of South Africa and its climate, there is a different climate and ancestry. But one of them is different in intelligence than the other. Because of the climate in the respective countries and sectors. Also, Earth, Mars, Mercury, Venus or Jupiter will be created according to the climate of the solar system. But they are not separated from other planets. Separate planets do not appear.

Why idol worship came and how was the earth formed?

When creatures were born on earth? It has been 460 million years since our earth was born. Even 200 million years after the birth of the earth, the earth did not have any kind of biomass. At that time only volcanoes, terrible torrents were constantly happening on the earth. Millions of years of rain created the oceans. In the water of this ocean, due to the energy of the lightning, the non-living chemical substances in the atmosphere took the form of life. The organisms that lived 200 million years ago consumed the carbon-dioxide in the atmosphere at that time and lived. However, we cannot see the fossils of those micro-organisms properly today. Aquatic organisms, which evolved from those microbes, have left their fossils well in the layers of the earth 57 million years ago. The period of the first living things 57 million years ago is called the Cambrian period, and the period before this is called the Precambrian period. The journey of our being started from the Cambrian era, Ordovician era, Silurian era, Ionian era, Cockerboviferous era, Fermian era, Triassic era, Jurassic era, Cretaceous era, Tertiary era and the present modern era and it stops here.

From this it is now clear how primitive organisms evolved on Earth. The Pre-Cambrian Era is again divided into two parts, the Archaeozoic Era and the Proterozoic Era. It means Adi Jivakalpa and Uttara Jivakalpa. (That means source of beings, and north source beings) Even so, there is no mistake in leaving out the news of the beings of this Adi Jivakalpa and Uttara Jivakalpa. This is because the organisms of that time were microscopic protozoa and mollusks. All these were just in ocean water. Even their fossils are not found properly today. The later Cambrian era became very important. Today it started 57 crore years ago. This is called the Paleozoic Era. Because from here man can see the fossils of living things. The earliest fossils were aquatic organisms. Conch, shells, mollusks, sponges were the only living things then. This continued until the Ordovician era, 51 million years ago, and the Silurian era, 44 million years ago. During all these ages the living beings were in the ocean water. Leaving the ocean, The Diphonian Era began 41 million years ago today. The fish then appeared. Then some of them became amphibians. They practiced the art of living in both water and land. It was from them that the reptilian lineage started. Now the case is that among fishes there are fishes; So is creation. Although this reptile lineage began in the Diponian era 41 million years ago, it flourished during the Carboniferous era 35 million years ago and the Permian era 25 million years ago. Because during the Carboniferous era, the earth was covered with plants. Even during the Triassic era, the Jeri species ate plants and grew to massive, massive sizes as reptilian monsters. The entire Jurassic era, 20 million years ago, and the Cretaceous era, 14 million years ago, were the time of these monsters. Most of these were herbivores.

However, there were also carnivores that devoured these herbivores. Like a Bombadi fish, a Tharale fish, (that means different fishes) and etc. These monsters ruled the entire earth as single emperors till the Tertiary Era which was 605 million years ago. Some of these turned into birds. That means dragons, etc. This means that the ancestor of today's birds is this reptilian lineage. But the size of the birds at that time was enormous. They had wingspans of up to 40, 60. Those wings were made of skin like those of bats. They are dragons and etc. Also, in their mouths there was a row of teeth of a giant saw-gin. They were well met with monsters whose bodies swelled up to 80 tons. In the kingdom of such giants, the father of all mammals was incarnated along with humans. This ancestor mammal was like today's rat. And it was as big as the bandicoot. This mammal of that time is called Tarsier. Incarnated in the Cretaceous era 15.5 million years ago, these mammals flourished in the Tertiary era 6.5 million years ago. The reason is that in the last Cretaceous period before this era, the monsters became completely extinct for some reason. A comet or a huge meteorite hit the earth

and started the destruction of these monsters. It was only after they left the earth that the ancestral tarsier monkey grew and gave rise to the lineage of primates. 1.6 million Years ago today, humans emerged in such a mammalian lineage. This is the stage of life evolution; Life on this earth was not made possible by the hand of natural selection.

But almighty Lord harihara Sarahunaath was responsible for this. This is also accepted by modern science

When Harihara Sarhunath took human form from the monkey, when emotionally connected with the human being, he assumed human form, "You should not look for me here and there. You should observe me carefully. I have no form. When you are emotionally connected with me, I am giving darshan in human form like you. See me in the idol from now on. Then your mind will connect directly with Me. Confusions will be removed. Identify a name for Me. Worship Me by that name; call me and I will help you. I will make progress in your original unbroken world. Without idol worship you will not get my identity. If your mind needs to be tamed, my form will be in you emotionally. You have to be connected. Only then will your mind be restrained" he enabled idol worship.

Why should god be worshiped with Incense sticks?

Generally in some reputed religions the deity is worshiped with incense stick. In some other prominent religions, incense is worshiped without using it. There is an objection. But most of the people of religion or those who worship themselves are confused and question why they should worship God with incense and what the need for it is. Yes, once in the Krita Yuga, Param Prabhu Sarahunaath lacked strength. Because of that, they lost their fighting spirit. In other words, no one believed that the Supreme Lord Sarahunaath was Shiva himself in Krit Yuga. Didn't believe it. When Shiva is in Lingam form it is called Shiva. But if the same Shiva stands up to kill devotees or demons, then Shiva will become Sarahunasth. Param Prabhu Sarahunaath suffered a power disadvantage due to the extreme cruelty of the Danavas that means giants, as there were no worshipping. Due to this there was no regular worship in temples. That is, in Krita Yuga there was no more practice or traditional of worshipping God through coconut, fruit or flower, camphor and Incense sticks. But due to the lack of these, even the other gods on earth lacked power, so Demons started fighting against the gods and winning the war. This is when Lord Sarahunaath came to a devotee in a dream and said, "Tomorrow morning, bring an incense stick to me and worship it daily so that the energy of the demons will diminish. He advised that the power of the gods will prevail. The devotee wakes up from the dream and the next morning brings incense sticks coated with sandalwood and goes to Shiva's temple to worship. Shiva appeared to the devotee in the form of Param Prabhu Sarahunaath and told the devotee that his desires are Tathastu (that mean amen). As a result, the power of the demons began to wane. The power of the gods came to gods. This made the gods victorious in the war. Due to the influence of incense sticks, because the donors failed in the war, Sarahunaath told the three crore gods in Kailasa, "From now on, when anyone goes to the temple, worshipping with fruits and incense sticks will not only get rid of their accumulated and worldly sins absolutely removes, but even if they worship the god in the temple or at home, the mind will not become insensate, but also a sense of positivity will be created in the minds. without one starts worshipping God in a temple or at home, the result of this is that the human mind gets caught up in the senses and becomes a slave the not benefactor'.

Since then incense sticks worship came into limelight.

Why do serpent's idol worship and anointing with the milk of gods?

Why are the Hindus offering milk to snake stones for those who have a lot of prestige in the material world? Isn't that a superstition? Or if they see a real cobra, they will run away but they keep offering milk to the same cobra stone and worshipping it, arguing that this is also a deep superstition. But none of the sacred Hindu yogis, religious thinkers, saints or organized people answered this. He was also dumbfounded that other prominent religions were not wrong in arguing. Some renounced religion. Others started looking down on religion. But many pious Hindus paid no heed to his rants or confusions and offered milk to the serpent idol. But the devotees themselves did not know the background of offering milk and worshipping serpent idol. Didn't know. Once in Krita Yuga, a devotee was returning home after worshipping Goddess Parvati in Parvati Mandir when a snake slithered past his leg. The devotee also did not notice this and because of his unwavering devotion to the goddess Vasuki stepped on the Naga and returned home without even noticing Vasuki out of deep devotion. But Vasuki did not bite the devotee as he was a devotee of Sri Parvati Devi. Didn't try to bite. Its alternate Vasuki also came to Kailash to meet Lord Sarahunaath. Seeing Vasuki in Kailasa, harihara Sarahunaath asked, "Why have you come here? Do you need any help or cooperation from me?" He asked. To that, Vasuki tears sighed, "Yes, Lord. I need your help and cooperation very much." tears wiped again, "In the temple of Parvati, I entered the temple wanting to have darshan of the goddess and crawl in the body of the goddess for a while. But at that time, that devotee worshipping the goddess did not notice me and the steadfast faith of the goddess and In Namasmarana, that means daily recite gods names) deep worshipping has stepped on my head. But I did not bite him as he is a great devotee of the Goddess; I did not bite him. So, I have come here to seek your permission to bite him." On hearing that, Shri Parvati Devi who was sitting next to harihara Sarahunaath said before harihara Sarahunaath, "This is not possible. He is my devotee. He is my supreme devotee. If you bite him or if Paramatma Sarhunath gives permission for this, I will leave Kailasa instantly" out of anger and boredom. Hearing the words of his mistress Sri Parvati Devi, harihara Sarahunaath said to Vasuki,

"According to the law of nature, any cobras should be bitten if there is any problem. But now I am very bored with the words of my mistress Parvati Devi. Well, now you too should get happiness and Goddess Parvati should also stay here" and again with Vasuki, "daily how many lives are you killing in earth?" He asked. Vasuki also said, "At least 15 lakh living beings I am killing from my wrath, Lord." On hearing that, Parama Prabhu Sarahunaath and Goddess Parvati were very shocked. Then Param Prabhu Sarahunaath said, "You should not go to the earth again. The devotee may also fall under your wrath. Therefore, forget the desire of the earth at this very moment and come and live in my neck. Then you will get rid of the wrath. And "In your name devotees will perform idol worship and offer milk in the earth. If Vasuki is worshiped with turmeric, Takshaka, Karkotaka and Naga will be worshiped with vibhooti that means one of the ashes. Let Vasuki be my neck garland and Takshaka that means one of the cobra dwell in my jata. Apart from them, there is no need for humans to offer milk and worship other poisonous snakes in the world. Your worship also causes fear and hardship to humans. As Vasuki and Takshaka, Naga resides in me, just as I get regular worship in temples, may you also build temples and get worship. It is different for a human being to worship an idol of a snake and to find a real snake and strike it. That is, if you see other cobras outside the serpent idols, you should recognize them as poisonous serpents, and the cobras in the idol should be recognized as the cobras who live with me." He wore Vasuki and Takshaka as a garland around his neck.

Why Shiva is worshiped in Yoni lingam form?

Why Shiva is worshiped in Yoni lingam form? What does Sacred Signiesm say about this? Shiva lingam is a symbol of sexuality. That is, it refers to every element of the worldly life of every human being. Thus, although it is a Yoni lingam symbol, Shiva lingam is Yoni Lingakara, so it is not addressed as a Yoni Lingam symbol. Shiva is originally formless; and so is Parabrahman. But Shiva gives darshan to man in the form of Param Prabhu Sarahunaath. But there was a special reason why Shiva appeared in Yoni Lingam form or worshiped by the entire universe. But holy Signiesm or Sanahi does not refer to it as mentioned in some Puranas that means one of the legendary in sacred Hinduism. What holy Sanahi mentions about Shiva lingam is the truth and reality. Before the creation of the universe, Shiva was formless, without any living beings on earth or other planets. The earth was not yet spherical. Now the creation of living beings took place in the universe. Observing this very much, Lord Shiva assumed the form of harihara Sarahunaath to express his formless form as Shiva is the cause of all living beings. But the created beings did not believe in harihara Sarahunaath as Shiva or Lord of Shiva creations. Then Shiva had the creation of the earth. Then everything on earth took the form of yoni linga. This land is called Shiva; and the Shiva lingam indicated that life of the living beings was going on under the sway of Shiva. When the formless Lord Shiva assumed the form of Yoni lingam, the created beings believed that Lord Shiva was present in the universe. Moreover, he started worshipping. Because of their great faith in Shiva, the living beings of those days started meditating and doing penance on Shiva. Then Lord Shiva appeared in the form of harihara Sarahunaath to clear the confusion of the devotees. For this reason, Shiva lingam and harihara Sarahunaath are worshiped together in some parts.

Why does Param Prabhu Sarahunaath keep the earth in his index finger?

Why does Param Prabhu Sarahunaath keep the earth in his index finger? And why is the trident used? This question bothered many devotees in Kali Yuga. And it made wonder why even harihara Sarahunaath was wearing it in real life. Param Prabhu Sarahunaath did not wear trisula, damru, kapala and jingles only in Kali Yuga. They have been wearing them since prehistoric times and even before the creation of the earth. Once upon a time special events took place in the life of harihara Sarahunaath on Mars. From the Krita Yuga to the Kali Yuga, wars between the gods and the demons were common. But even before Krita Yuga, wars were going on for gods and giants even before the creation of earth. Before the formation of the Earth, the present Mars, Mercury and Jupiter were formed in the solar system. Already in the planets Mars, Mercury and Jupiter, Lord Shiva and Vishnu were killing the giants as harihara Sarahunaath. Even then, the work of land creation was going on smoothly through Param Prabhu Sarahunaath. Coming to the gods in the planets Mars, Mercury and Jupiter, the freedom began to decrease. Because of that, the hordes of giants also looked at the newly forming earth. From this, the Supreme Lord Sarahunaath, who was responsible for the creation of the new planet earth, kept the earth in his index finger. However, the hordes of giants in the planets Mars, Mercury and Jupiter chased the Supreme Lord Sarahunaath non-stop and even came to stay on earth. Param Prabhu Sarahunaath kept the earth in his right index finger to protect the gods from the demons. Similarly, Param Prabhu Sarahunaath used to wear jingles and horn in his loin to commemorate Nandi (that means bull). Similarly, he used the trident to slay giants in commemoration of his having three eyes.

How did the Sudarshan Chakra come about in Vishnu Sarahunaath?

How did the Sudarshan Chakra come about in Vishnu Sarahunaath? In the Krita Yuga, there was a constant war between the gods and the giants. There are many examples of deities losing battles, mostly in battles between deities and demons. But there are very few instances where the gods have been successful in the battle between the giants and the gods. Thus Lord Shiva, who was responsible for everything in the world, called the deities in his true form of harihara Sarahunaath to Kailasa and called Vishnu from his womb, and from there, sent Vishnu to Vaikuntha that means heaven. Later, Shiva himself gave Vishnu the Sudarshan Chakra to kill the giants. Then

Lord Vishnu killed the giants with Sudarshan Chakra and put an end to the war. Then Sarahunaath/Shiva said to Vishnu, "Henceforth may the Sudarshan Chakra remain with you. You shall live in Vaikuntha. Henceforth in this universe only three Gods Shiva, harihara Sarahunaath and Vishnu will protect the universe. May all the other gods emerge as Ganas and Shaktis of Shiva and Vishnu. From time to time Shiva and Vishnu become saints to protect the devotees from the giants. let them be born on earth as yogis" he said. Since then the Sudarshan Chakra was with Vishnu.

Why is there as half moon in harihara Sarahunaath's jata? Whu should coconut be offered to god? Why is Nandi staying with Harihara Sarahunaath?

In Krita Yuga, the demons, who were very fed up with the creation of the earth by Harihar Sarahunaath, thought a lot and bound Harihar Sarahunaath blindly with mantras and various techniques. Because harihara Sarahunaath could not see his two eyes, the life of the creatures on earth began to suffer. The other gods were also greatly disturbed by this. The demons had decided to take control of the entire land if harihara Sarahunaath was not there. Noticing this very much, harihara Sarahunaath created a third eye on his forehead through meditation. With that third eye, he began to observe the happenings of the world. Due to this, the demons were defeated again and did not reach harihara Sarahunaath's throne. Even then, harihara Sarahunaath had attacked the group of demons and removed the skin from their bodies and turned them into leather bags. Since then the third eye was permanently in lord Sarahunaath's forehead.

Once when harihara Sarahunaath went on a vacation, he saw Nandi's idol stuck under the mountains and tried hard to get it out. But Nandi's idol did not come out of the earth. Then harihara Sarahunaath tried to remove the Nandi idol from the earth with the Vedas and his divine power, but the stuck Nandi idol did not come out. Then harihara Sarahunaath took a coconut and hit the ground, Nandi idol stuck under the mountains came up. Then Nandi said, "There is so much power in the coconut. Henceforth, if anyone goes to temples and offers coconuts to God or hits them, their sins will be removed. And their wishes will be fulfilled" Nandi said. From then on, Nandi started coming with harihara Sarahunaath forever. Also, the custom of carrying coconuts to God came from that time.

This is the reason why there is always a half moon in harihara Sarahunaath's Jata. That is, once the moon also came to earth in the form of a man. Moon was arrested by some police department of earth. But the police department did not know that he was real moon himself. At that time the inhabitants of other solar systems also tried to kill the sun associated with the earth. No one else could protect the our sun then. Only the moon was possible. At that time, harihara Sarahunaath had protected moon from the police department in earth. The moon protected the sun. In remembrance of this, the moon always stayed with harihara Sarahunaath Jata. That means half of it was in harihara Sarahunaath's jata and another half was in Moon planet.

Why does Harihara Sarahunaath always have cow?

Once cow ran to harihara Sarahunaath saying that it is your responsibility to save my life. The demons have planned to eat to cow. harihara Sarahunaath noticed the cow's problem and promised, "You will live with me from now on. I am responsible for your protection." The demons never came towards harihara Sarahunaath. But one day when the world was reeling from the flood, all the gods of the universe came to harihara Sarahunaath and asked for protection. Then harihara Sarahunaath kept the gods of the entire universe in the accompanying cow. Was protected.

Past life in India and Pakistan

So for what Harihara Saarahunaath said is Veda and truth. Each and every one of his words is philosophical. And rational. In which religion, how the rituals should be done and whether the content in the scriptures written so far is logical or not or is confusing the society is examined. Harihara Saarahunaath told a case to the world human being that for an ignorant man, his religion is the greatest and his country is the greatest. A story happened. Namely, took place in Pakistan and India.

Someone man from Pakistan was raving about India. He was raging against the country of India and against Hinduism. He Hindu temples were being destroyed. But one day he died unexpectedly. A few years after his death, he was born into Hinduism in India. His origin was in Pakistan. His children were also married and had children. They had already joined the army in Pakistan and were fighting against India. Not only was he born in Hinduism in India, he also built some Hindu temples. He also enlisted his sons in the Indian Army. Now there was a war between his sons. But he did not have this consciousness. Thus God does not cause riots in religions. One who is born in Muslim religion today may be born in Hindu religion tomorrow. He needs to be very aware of this.

Idolatry is mostly objected to in other religions. Rejected. But the prophets or religious thinkers of that religion do not know perfectly how the human race was created and where its origin lies. This is where the creature's partners human began to confuse himself. Consciousness of food accessories is gone. When that is, after the creation of the earth in the beginning, life became confusing for human beings. Man has lost social consciousness. It was Harihara Saarahunaath who created the human from the monkey. Harihara Saarahunaath, who was watching the human struggle, came and stood in front of the human being in the form of a spirit. Then v had no form. He appeared in the form of a human being to remove human confusion. Because Harihara Saarahunaath had no form. Emotionally

the human being become connecting with himself took human form. He had one form on Mars, one form on Mercury, one form on Jupiter.

Then what should be consumed as food. Which should be used in daily life? Harihara Saarahunaath set out to guide the creature's partner's human being on which animals and birds to rely on. Until then the human being was not a social creature's partners being. He took the form of a man from a monkey and led a very rough nomadic life. Learned to kill and eat animals. From there the stone ages started. Here and there the worship of God and a guide for their future life became necessary for human society. It was then that Harihara Saarahunaath descended to earth as a wonderful spirit from a subtle line between the sun and the moon of the universe.

But the human society started creating imaginary gods and religions by creating confusion among themselves. Even then the life of the human society became chaotic. With their excessive intelligence they made the weakest people their slaves. What he said was true; He captured the weakest by force that the worship of God that I do is great. He punished those who rejected his words and killed. The other people who were watching it followed him, unable to take the force's oath out of fear for their lives. Then the series of Krita Yuga, Tetra Yuga and Dwapara Yuga began. When Harihara Saarahunaath gave his divine vision to the creature's partner's human being, that society gave birth to a new Hindu religion with equality. Other communities who saw it created a religion of their own. But before the birth of all these religions, almighty Harihara Saarahunaath had already created "Ekato Manodharma" (that means monotheism) so that confusion does not start in human beings. But the human creature's partners with his extreme intellect left the guidance of God and created a new way. Those are the ways, Christian, Muslim, Judaism, Sikhism, Buddhism and other religions and scriptures.

Himagiri nation - Flag details

Himagiri's flag is a horizontal 'Signiesm' of White, between Signiesm and all religions with around all nation flags. The Signiesm religion symbol represents the all nations strength and the all religions, the whole white represents purity and prosperity and the Himagiri landscape.

Angels or divine messengers Department:

So there are approximately 1 billion angels or divine messengers in the world who have invaded the path of every religion. And they are doing conservation. All those angels are following the rules under harihara Saarahunaath. Approximately 300 to 400 Gods reside in mosques, temples, basaadis, churches and any religion temples due to this. He is carrying out the order of harihara Saarahunaath.

Quotion of Harihara Saarahunaath from Kriti era to Kali yuga until 2022 Jaunvery 1st in Hinduism.

1. Om namaha shivaya namaha
2. Om namo Naaraayanaaya namaha

After 2020 June 1st

1. Om Harihara Saarahunaathaaya namaha
2. Om Vishnu Saarahunaathaaya namaha
3. Om namaha shivaya namaha
4. Om Parvathi Saarahunaathaaya namaha
5. Om Ganga Saarahunaathaaya namaha
6. Om Lakshmi Saarahunaathaaya namaha
7. Om Padmavathi Saarahunaathaaya namaha

prediction of lord Harihara Saarahunaath:

If any devotee lied or verbally cheated Harihar Saarahunaath, there would be immediate problem for such devotee or any third party. Many miracles or cases about this happened in the life of Harihar Saarahunaath. Some of them are described here. It means that if one talks about someone without knowing the matter clearly or lies, which types the problems from God will come in life. Once, an education official called Saarahunaath at night after drinking wine and spoke in unspoken words. As a result, the next day morning he got a severe cold and fever and suffered for three days. Later Saarahunaath himself called him and told him not to talk to me like that. He told me not to be rude like that anymore.

A woman saw Saarahunaath's appearance and got wrong information about him. Also she was jealous of Saarahunaath. As a result, her health deteriorated and her leg was swollen the next day. It was not cured in any hospital. Then when she came to Saarahunaath and apologized for her mistake, her health improved. The swollen hands and feet were healed immediately.

A devotee Amith spoke well in front of Sarahunaath and used to say something about Sarahunaath's character in front of others. It came to Sarahunaath's attention. Sarahunaath called him and warned him not to do that. However, he sometimes lied to Sarahunaath. Whenever he used to lie to Sarahunaath, then immediately he too would get Fever.

An ardent devotee and a car driver named Nagaraj used to drink and live in front of Sarahunaath saying that he did not drink wine. As a result, he suffered a lot of hardships in life. That means his mother had to stay in the hospital for at least three months after some problem. Even so, he was lying to Sarahunaath. He was cheating with his words. As a result, his wife started getting cold and fever in his house. His brother got dengue fever. Sarahunaath noticed it and warned him.

In Finally in Shinto religion angels say: Everything thing is Almighty Lord Harihara Sarahunaath wills.

In Zoroastrianism angels says: All is almighty Lord Harihara Sarahunaath desire.

In Confucianism and Folk religions angels says: In the Universe only we saw only one almighty lord Harihara Sarahunaath.

If Sarahunaath's hand palm is seeing, no one has been born in the world till now. There is didn't yet whoever further birth. But Harihar Sarahunaath will remain with us forever. They were there before. We only were seeing his body superficially.

Prediction of Lord Harihara Sarahunaath:

Harihar Sarahunaath's prophecies were almost always true. But society is slowly accepting them. Their use was not utilised adequately this society. At that time, few Swamijis and Saints of Karnataka State were making very profound predictions. One Swamijis in 2020 will rain till 2021. The prediction said that there will be floods and landslides in some places. But Harihar Sarahunaath says that at that time in the month of November 2020 the rain will stop completely. Rain will not happen as predicted by Swamiji. The prediction said that floods and landslides will not occur. As he said, in 2020 the rain stopped right in the month of November. It never rained again.

Again the same Swamijis who have already died of covid in 2021 will come as ghosts at the end of this year. They are seen by people everywhere. He also prophesied that those who died of covid would torment the people in a terrible land. But Harihar Sarahunaath one word to the devotees will not be true them prediction. He dared to say that all his prophecies would be false. As he said, 2022 passed but it did not happen.

Some other saints and yogis predicted that Covid will end in 2021. He said that covid will come under control in the first week of June 2021. But Harihar Sarahunaath predicted that this year 2021 June 14th, Covid will be gone. As he said, Covid left on June 14, 2021.

Similarly, in 2022, Harihara Sarahunaath had predicted that there would be heavy rains from June to October due to lunar eclipse this time. As he said, there was heavy rain that year from June to October. There was also a drought. But some astrologers and Swamijis had loudly predicted that this year the rains would last till November. It is always right when there is a solar eclipse that epidemics like covid or dengue or malaria occur. But if a lunar eclipse occurs, since the moon is also an indicator of water, water floods will occur here and there and harm people. Harihar Sarahunaath's prophecies thus did not turn out to be false.

Most importantly, Harihar Sarahunaath was ranked first in the political future. His political predictions so far have not been untrue.

Once the devotees took Harihar Sarahunaath to his village to examine him. He was taken to an empty place in his town and checked to see if any incident had taken place here before. Harihar Sarahunaath instantly said yes, here an ox has died. he told. they are all accepted that it was true. In the same town, in the house of a devotee, the sweet foods made on the day of the festival turned into blood. Also, in his house, the main person of the house started vomiting and diarrhoea. It was doubtful that he would stay. Then they are came to Sarahunaath's monastery and immediately the vomiting of blood stopped. The dessert made was again the same as before.

A girl from Gokarna used to call Sarhunath and tell her problems. Harihara Sarhunatha see a snake coiled around her. But she could not see it. Sarhunath told her that a snake will come to you in just ten minutes, be careful. exactly ten minutes later the same snake came and sat around an iron bar of his house. she shocked.

A man from Karwar was diagnosed with kidney and liver problems and was told by the doctors that he would not survive. When the person's family did not see the direction, they came to Harihar Sarahunaath and begged for his life. Harihara Sarahunaath to their prayers and saved him from kidney and liver problems.

A young man came to Harihar Sarhunath and told him about his household problems. That means he was building a new house. But the house started collapsing within a few days. This happened about six times. When he came to Sarhunath without seeing the direction, the work of his house was completed within a week.

Devotees brought one person to near Harihar Sarahunaath's. But his life was going. Harihar Sarhunath noticed him and predicted that he would die tonight at 7:00 PM. As Sarhunath said, that person died at exactly 7 o'clock that day.

Similarly, another woman was suffering in the hospital. Harihar Sarahunaath noticed her. her relatives came and prayed to Sarhunath to save her from death. But Harihar Sarahunaath had predicted that she would die tonight at 12 o'clock. As Harihar Sarahunaath said, the woman died at exactly 12 o'clock.

one person called his wife and came to Harihara Sarhunatha. His two legs were severely swollen. No hospital knew that his two legs why swollen original reason. He had that problem for two consecutive years. But as soon as he came to Harihar Sarahunaath's, he found out exactly why his legs were swollen. Two serpents came on his lap and told him what was his problem. As he killed two twin cobras simultaneously, his two legs were severely swollen due to their curse. Later two cobras were cleared by Harihar Sarahunaath.

Harihara Sarahunaath if had his devotees any problem in the next few days, he would go to his devotees and tell them in their dreams and then bring them to the Math. Sarhunath performed many miracles. Noticing this power of Harihar Sarahunaath, there was a dispute in the nearby Anavatti Police Station. Some casteist people had complained to the police that Harihar Sarahunaath was once coming on the way to their town without any reason and stopped the vehicle and was performing magic spells.

Thus Harihar Sarahunaath was not accepted in India and Karnataka state. But Harihar Sarhunath was ready to help any religion in the world if called upon in times of distress. Harihar Sarahunaath would be ready to accept any countryman who would call him to his country and enable him to serve the society.

Generally, if any god, angels or deities wanted to have darshan of Harihar Sarahunaath, they would first get darshan by praising him. But all of them were in Sanskrit language.
