Education Play A Vital Role In Women's Empowerment

Dr Purnima KV

assistant professor of English
government first grade college C.S pura Gubbi

women's education has become an important consideration for both Government and civil society in any countries all round development education of women play Crisil role education among women helps in adopting themselves in any difficult situations like facing their established roll and in transforming their lives as a result we should not over look the importance of education in relation to women's empowerment their education has acupide the biggest position in grabbing their social status the educated women are touching the milestones in reduce in the iniquity and poster the nation of active participation women trust in the court education is the manifestation of their character and personality
keywords education passion Landmark empowerment Trend

introduction

according to human development report 199the real wealth definition it is people and its purpose is to create an enabling environment for people to enjoy long healthy and creative leaves this simple but powerful truth is to often forgotten in the pursuit of material and financial wealth now is the question whether these pursuits or reachable to men they are where called fare 6 but always get unfair treatment we need to answer for the book

in this regard here is the famous definition of Rap for 1984 empowerment is viewed as a process the mechanism by which people organisation and community gain mystery over there lives empowerment is the process of increasing the power and responsibility of citizen to make choices and transform those choice into desired action and outcomes

women empowerment refers to increase the strength of women in all spheres of life like spriotuality socio politics even education and gender are the economy of their status

the woman empowerment includes their full sledged active participation in decision making process in the aspects of life further empowerment should be in the step of matters like sides reproductive health free of caution discrimination and violence

significance of women's education I do remember your court educating a man educates and individual but educating a woman educates on entire family when women are empowered Mother India is also Empire by Jawaharlal Nehru women's education place a crucial role in the development of the whole Nation it least to improvement of the human resources divided and made use of equality as a result education is ultimate solution for all the problems related to this a famous thinker M fuel define education is that which illustrate the distinction between what is good and what is bad in his words education is the heart of all the revolutions throat over history education education and tiles in changing once behaviour thinking viewing and building the attitude educated women more likely to advise their daughters to go to school college and encourage their to do higher education they role in lowering the new born moratality is highly noted point it doesn't mean that India is a gender prejudice country to avoid prejudice government need to strength and the women empowerment by providing equal opportunities with men in educating them with special provisions for women the level of literacy rate disparity marks a very men 82.14 where as the literacy of women is 65.46% majority of the women poke confined to kitchen
education for empowering women

women's roll is critical in all cultures in a child fundamental existence a woman care is prominent in human life education helps her to build up good attitude which will result in India social economic and political development education as an impact and women empowerment has become an affirmative action and the government level women empowerment is a global to improve this factor especially in political right in 1985 n a r o i b i international Women's conference attract the nation of women's empowerment however education challenges and to transform their lives therefore no one can over look the value of women's education in moulding their personalities their education

advancement have been the light of prominencwhich leaves India toachi the Global superpower very shortly the superficial this the United Nation development fund for women demands u n i f e m

gaining knowledge and Awareness of gender relations and the method in which these interaction maybe modified

gaining the capacity to develop options and excise bargaining power

developing the ability to organise and influence the direction of social change in order to established a more fair social and economic order both domestically and globally

finally empowerment marksheet persons control over psychological feeling for social status political authority legal rights it includes organisation individuals and communities as the multi dimensional architecture

highlight women's participation

they demanding for women's empowerment is not enough withoutthere involvement in agencies and offices empowerment is hunting cable that participation in Panchayat Raj Institutionencompasses in policy formulation and program planning implementation and assessment of policies and programs amud at developing target groups which accomplacious the act of demonstrating the decision making and administrative power of course when took active participation during free independent theorem as the result women gained political powers itsfaithful that article 15 of Indian constitution promises equal rights to all citizen Lok Sabha Rajya Sabha and Vidhan Sabha 10% so far no doubt male dominance is Apparent Apparent even in Bureaucracy Court army and police department it's speak that truth of disparity.

India is there partial fo failure toaccomplish ideas like fairness equality and social justice after independencethe pathetic conditions of women did not turndo few womens occupied highest positions and enjoyed their powers only when United NationsUN declared 1975 as the international Women's year women's presence in politics started to gain attention across the globethe UNS women's decade which begin from 1976 to 1985 had adopt the team equality development and peace however 70 3rd and 74th constitutional amendment acts acted as the boost of the position of women in decision making process did not gain significance in India the where mint only decision making powers at their local level

equality in education I am place to share this piece of information that the rate of literacy and the enrollment of boys and girls have been narrow slowly increase the female engagement in literacy initiative in addition to this literary enrollment disparities between boys and girls in non retreating homes are may smaller than in nonliterate households however there is no discrimination among girls and boys in assessing basic education across the globe I don't dinner the point that gender in equality it's Mini Nations and womens are continue to ensure discrimination in various aspects like education joy and economic assets as well as environment in governance we can see that no industrial is expectation exception without Heartless and disadvantages to nearly 65 million girls are out of school across the globe out of every three one woman is subjected to gender based violen out of 15 one girl is married before her 15 years many more women dice as the result of deficiency pregnancy and delivery difficulties all the 40% of them have agricultural workforce just 3 to 20% or women land owners account for as low as 10% of all forms in Africa gender equality and women's empowerment are not justice side effect of progress but they are at the heart of it to address programs women empowerment in order to Reform our commitment to help women

conclusion

women's priority in advance in a country and guiding it toward prosperity is a must we must focus on their education empowerment is nothing but a transition of weakness to the position of strength educated women are the potent instrument in changing society dance so education helps to elevate inequalities and serves a tool of rising once status within the family to control the damage of gender discrimination education to men has been promoted through setting up more and more schools colleges and Universities they are dedicated only to women folk.
