### Abstract

We all know that Management is a key point of managing human life in terms of Cooperate life, Business life, Job Life or home life i.e. these all terms is the mixture of human life. A person cannot run smoothly in life without knowing the effective management system. To enhance the smoothness of human life through management, one have to prioritize tasks, set realistic goals, maintain a balanced schedule, communicate effectively, and adapt to changes with resilience.

**Keywords** – Human Life, Management, Smoothness in lifestyle.

To create a streamline and harmonious human experience effectively following are some important points to be noted

For the personal and professional development of a human life some modification tools needed to be adopt like strategic thinking, time management, goal setting, communication skills, develop smart management for smart work, continues learning, the funda of never give-up, and Brainstorming.

Think strategically in a twice way to complete and accomplished the set task is a great success in human life. A human without creative thinking is like a body without soul. A day without planning is like a sick mind, unable to organize, unable to achieve and unable to learn.

Self-reflection, self - satisfaction, and self - evaluation are the major factors for a balanced lifestyle. In Abdul Kalam words **“SUCCESS is our own shadow, don't try to catch it. Walk your own way, it will automatically follow you. Remember shadow follows you only when you walk towards BRIGHTNESS”**. So always self assessed your life style and improvise it by self evaluating it. The power of self thinking is the biggest power in the world one cannot beat it by the planning. A human can always win by organizing the things in transparent way. When we talk about the word management another word will take place in a high-tech brain which is “transparency” And it only works when you used to be clear minded in every term. It shows your effective leadership, smart skills, and capability of handling problems, peaceful mind and neat & clean working standard.

A human can identify his/her mistake by implementing 14 principles of management. This can help a human to take the right decision at the right time. A person can learn from their mistake but for learning from that mistake identification of mistake is must. I can add up the 14 principles of management which is given by the famous author Henri fayol which is also known as the Father of Modern Management Theory. These factors are as follows-

1. Division of work
2. Authority and Responsibility
3. Discipline
4. Unity of Command
5. Unity of Direction
6. Subordination of Individual Interest
7. Remuneration
8. Centralization
9. Scalar Chain
10. Order
11. Equity
12. Stability
13. Initiative
14. Esprit de Corps (Be supportive of each other regularly)

**Conclusion:** - Management plays a pivotal role in human life by organizing resources, guiding efforts, and facilitating the achievement of goals. In personal and professional contexts, effective management leads to increased productivity, better decision – making, and enhanced personal satisfaction. By setting clear objectives, prioritizing tasks, and fostering teamwork, management ensures that individual and collective efforts are aligned and optimized. Ultimately, the principles of management contribute to a more structured , efficient, and fulfilling life, enabling individuals and organizations to navigate complexities and achieve success.
