

INTERNATIONAL JOURNAL OF CREATIVE RESEARCH THOUGHTS (IJCRT)

An International Open Access, Peer-reviewed, Refereed Journal

How Does Allopath Differ From Other Pathies Mainly Ayurveda ? The Reason Is , Other Pathies Do Predict Effects With Results (RDBCTrials) . But They Are failed To Prove It Through Drug Sciences (Pharnaco dynamics and Pharmaco kinetics) . The Results By Other Patheies May Be Erroneous In Absence Of Drug Sciences . As They Donot Know That Vidhata (Geeta Ch 13 Vs all) Did Not Make That Desired Path Hitherto And By Virtue Of These Flaws That Do Exist In Those Patheies , Makes Them Erroneous , Life Threatening , Adulterated And Illegal To Practice (SC Order [5]) And If Such Prima facie Material Is Found Practitioner / Skilled Person Or Quack Would Be Prosecuted Under Section 420 IPC read with 109 IPC .

*Dr V M Das

University Of God*

Abstract

Abusing allopath is a great sin . Means abusing Almighty God Lord Natraz . Only prosecution even if apology has been begged . By virtue of Law ie Shirk or apostasy and punishment is death . Prayer is a separate pathy and it is called Divine Mechanic (Science or Theory of Every thing ToE) that claims to heal sick cells . In 1999 a paper was published as regard intercessory prayer and its healing touch by Mid American Heart Institute USA [3]. Publishing a study is not enough to establish the claim in scientific world . One has to show the entire path (Pharmaco dynamics) of the claim that prayer works . Means you have to have “ Science of Prayer “ or entire theory that could support the Study . Question of God has been refuted by Science ie Big Bang supporter like Late Prof. S.W.Hawking etc . Hence it is difficult to have hypothesis of how God created the Universe . But By grace of Almighty , God not only downloaded a book called “ Atomicgenetics and Origin of the Universe “ but also He teleported on Earth on 22 23 Dec 1949 as Balak Idol Avatar by virtue of Geeta Ch 4 / Vs 7 and 8 . To prove His identity He made His portrait in a ice shiv ling on 3.4.21 at 1/139, Talayalane Fatehgarh, Farrukhabad UP 209601 India confirming first time that every body could see Him by eyes (Bible revelation 1/7 [4]) that privilege was not granted to Ibrahim , Musa , Noah and Jesus that used to talk to Him . The same privilege was absent when Quran was downloaded 1400 years back on Mohammad Sahib . No portrait of Almighty God Lord Natraz was downloaded with Quran. By virtue of Geeta Ch10/vs 8 , the same privilege was not granted to Arjuna to see portrait of “I” of Geeta though Arjuna could see Mind reality (Divine Mechanics or ToE) of Nature during “VIRAT ROOP” .

Ayurveda along with Other as under 3.6 Indian Systems of Medicine and Homoeopathy 3.6.1 The Indian Systems of Medicine and Homoeopathy consist of Ayurveda, Siddha, Unani and Homoeopathy, and therapies such as Yoga and Naturopathy are without drug sciences (Pharmaco dynamics and pharmaco kinetics) Hence they have lost transparency of curing the sick cells like Allopath . Their such claims are erroneous and adulterated . Under such circumstances ISM and H comes under perview of Supreme Court Order Feb 2018 [5] .

1 CRIMINAL APPEAL NO. 1460 OF 2012 (Arising out of S.L.P. (Cr.) No. 6975 of 2011)

Central Bureau of Investigation, Hyderabad Appellant(s) Versus K. Narayana Rao Respondent(s) J U D G M E N T by P.Sathasivam,J. in Para 22 ,it is clearly mentioned that **In the law of negligence, professionals such as lawyers, doctors, architects and others are included in the category of persons professing some special skills.**

Pl read para 22 and judgement .

http://www.pathlegal.in/No-FIR-against-Advocates-and-Doctors:Supreme-Court-blog-1563837

JUDGMENT

P.Sathasivam,J.

22) The High Court while quashing the criminal proceedings in respect of the respondent herein has gone into the allegations in the charge sheet and the materials placed for his scrutiny and arrived at a conclusion that the same does not disclose any criminal offence committed by him. It also concluded that there is no material to show that the respondent herein joined hands with A-1 to A-3 for giving false opinion. In the absence of direct material, he cannot be implicated as one of the conspirators of the offence punishable under Section 420 read with Section 109 of IPC.

The High Court has also opined that even after critically examining the entire material, it does not disclose any criminal offence committed by him. Though as pointed out earlier, a roving enquiry is not needed, however, **it is the duty of the Court to find out whether any prima facie material available against the person who has charged with an offence under Section 420 read with Section 109 of IPC.** In the banking sector in particular, rendering of legal opinion for granting of loans has become an important component of an advocate’s work. **In the law of negligence, professionals such as lawyers, doctors, architects and others are included in the category of persons professing some special skills.**

Almighty Court Of Justice orders Under such circumstances Almighty does not allow to practice Ayurveda by BAMS and to teach in MBBS course . Ayurvedic Medicine is under challenge . Unless it is passed by University Of God , All rights to practice it is banned . Please read the report of U.S.department of health and Human service <https://nccih.nih.gov/health/ayurveda/introduction.htm> , <https://www.nccih.nih.gov/health/ayurvedic-medicine-in-depth>

Ayurvedic Medicine is not guided by knowledge and it does not have drug science of pharmaco dynamics and pharmaco kinetics . Hence . This prima facie material is enough to bring ayurveda in the preview of SC order Supreme Court Order under adultery and adulterated practice of any pathy including allopath. It is the duty of the Court to find out whether any prima facie material available against the person who has charged with an offence under Section 420 read with Section 109 of IPC.

UOG has exposed flaws in drug Coronil through publishing its fake results [1] as regard adaptive immune boosting process that takes a week or so [3] to boost reduced body innate natural immune systems .

Hence to claim that Coronil (phyto chemicals) is ment to boost specific adaptive immunity that too day one is fake claim as it is not enemy protein that cures 69 % covid positive patients with in 3 days and 100% with in a week making them covid negative . [1]

But Coronil is not Specific adaptive immune booster (Enemy antigen) rather it is group of phyto chemical triggered immune boosting effect day one and completed (100 % Cure) on day 7 [1] which is contrary to trigger Specific adaptive immune response by well settled known science [3] .

Adaptive immune responses, however, are slow to develop on first exposure to a new pathogen, as specific clones of B and T cells have to become activated and expand; it can therefore take a week or so before the responses are effective.[3]

Publishing a study is not enough to establish the claim in scientific world . One has to show the entire path (Pharmacodynamics and Pharmacokinetics) of the claim that how drug works . Means you have to have “ Science of Drug “ or entire theory that could support the Study / Claim .

it is the duty of the Court to find out whether any prima facie material available against the person who has charged with an offence under Section 420 read with Section 109 of IPC. In the banking sector in particular, rendering of legal opinion for granting of loans has become an important component of an advocate’s work. In the law of negligence, professionals such as lawyers, doctors, architects and others are included in the category of persons professing some special skills. [5]

RamDev is a Quack and he is promoting poison (Urine) in serious illnesses without proper degree and guide lines . Hence he comes under preview of section 420 IPC read with 109 IPC of SC order [5] as he is doing Adultery (Misuse of Power) of Yoga and Natural pathy that are lacking drug sciences making the claim erroneous and adulterated and life threatening . [1]

1.1 Ayurvedic Medicine: In Depth [1]

Is Ayurvedic Medicine Safe? Some Ayurvedic preparations may contain lead, mercury, or arsenic in amounts that can be toxic. **Is Ayurvedic Medicine Effective?** A few studies suggest that Ayurvedic preparations may reduce pain and increase function in people with osteoarthritis and help manage symptoms in people with type 2 diabetes, but most of these trials are small or not well-designed. There is little scientific evidence on Ayurveda’s value for other health issues. **How much do we know about Ayurvedic medicine?** Although Ayurvedic medicine and its components have been described in many scholarly articles, only a small number of clinical trials using these approaches have been published in Western medical journals. About 240,000 American adults use

Ayurvedic medicine. **What Is Ayurvedic Medicine?** The ancient Indian medical system, also known as Ayurveda, is based on ancient writings that rely on a “natural” and holistic approach to physical and mental health. Ayurvedic medicine is one of the world’s oldest medical systems and remains one of India’s traditional health care systems. Ayurvedic treatment combines products (mainly derived from plants, but may also include animal, metal, and mineral), diet, exercise, and lifestyle.

What the Science Says About the Effectiveness of Ayurvedic Medicine Few well-designed clinical trials and systematic research reviews suggest that Ayurvedic approaches are effective.

- Results from a 2013 clinical trial compared two Ayurvedic formulations of plant extracts against the natural product glucosamine sulfate and the drug celecoxib in 440 people with knee osteoarthritis. All four products provided similar reductions in pain and improvements in function.
- A preliminary and small NCCIH-funded 2011 pilot study with 43 people found that conventional and Ayurvedic treatments for rheumatoid arthritis were similarly effective. The conventional drug tested was methotrexate and the Ayurvedic treatment included 40 herbal compounds.
- Outcomes from a small short-term clinical trial with 89 men and women suggested that a formulation of five Ayurvedic herbs may help people with type 2 diabetes. However, other researchers said inadequate study designs haven’t allowed researchers to develop firm conclusions about Ayurveda for diabetes.
- Turmeric, an herb often used in Ayurvedic preparations, may help with ulcerative colitis, but the two studies reporting this were small—one, published in 2005, included 10 people while the other, published in 2006, had 89.

What the Science Says About the Safety of Ayurvedic Medicine

- **Some Ayurvedic preparations include metals, minerals, or gems.** The U.S. Food and Drug Administration warns that the presence of metals in some Ayurvedic products makes them potentially harmful.
- A 2015 published survey of people who use Ayurvedic preparations showed that 40 percent had elevated blood levels of lead and some had elevated blood levels of mercury. About one in four of the supplements tested had high levels of lead and almost half of them had high levels of mercury.
- A 2015 case report published in the Center for Disease Control’s *Morbidity and Mortality Weekly Report* linked elevated blood lead levels in a 64-year-old woman with Ayurvedic preparations purchased on the Internet.
- Although rare, Ayurvedic products may cause arsenic poisoning.

NCCIH-Funded Research NCCIH is funding research that:

- Builds on earlier investigations in breast cancer survivors that found a positive effect of integrated Ayurvedic medicine on improved quality of life; new research will evaluate ways to make this intervention easier to incorporate into peoples’ lives. The proposed Ayurvedic intervention includes diet, lifestyle, yoga, and pressure point treatment.
- Studies the mechanism by which an extract from *Butea monosperma* (BME) flowers may protect against joint destruction from osteoarthritis (BME is widely used in Ayurveda for arthritis and other inflammatory diseases in India).

More To Consider

- Don’t use Ayurvedic medicine to postpone seeing a conventional health care provider about a medical problem.
- If you have a health condition, talk with your conventional health care provider before using Ayurvedic products.
- There is no significant regulation of Ayurvedic practice or education in the United States, and no state requires a practitioner to have a license. For more information on credentialing complementary health practitioners, see the NCCIH fact sheet *Credentialing, Licensing, and Education*.
- If you’re pregnant or nursing, be sure to consult your (or your child’s) health care provider as some Ayurvedic products may contain products that could be harmful.
- Tell all your health care providers about any complementary or integrative health approaches you use. Give them a full picture of what you do to manage your health. This will help ensure coordinated and safe care.

For More Information NCCIH Clearinghouse

The NCCIH Clearinghouse provides information on NCCIH and complementary and integrative health approaches, including publications and searches of Federal databases of scientific and medical literature. The Clearinghouse does not provide medical advice, treatment recommendations, or referrals to practitioners.

1.2 Know Your Prakriti: Are You Vata, Pitta or Kapha?[2] NDTV Food Desk Updated: October 17, 2017 15:22 IST

Highlights

- **Ayurvedic philosophy is about balancing the body, mind and spirit**
- **There are three fundamental doshas: Vata, Pitta and Kapha**
- **Good health is considered to be a state of balance of between the doshas**

Ayurveda is a Sanskrit word that refers to the '**science of life and longevity**'. Ayurveda adopts a holistic approach towards healthy living and is considered to be one of the oldest medicinal systems in the world. Though native to India, this philosophy has gained popularity all around the world. The base of Ayurvedic philosophy is to balance the body, mind and spirit. Both prevention and healing are carried out through natural means. According to Ayurveda, each person is born with a life force that comprises the five elements or building blocks of nature: Earth, Air, Water, Fire and Space. We possess a unique balance of these five elements in varying degrees. **This balance of elements is known as a Dosha.** There are three fundamental doshas: Vata, Pitta and Kapha, and good health is considered to be a perfect state of balance between these three *doshas*. Vata is constituted by space and **air**, which is the energy of movement; fire and water constitute pitta, the principle of **digestion** and metabolism; and water and earth make up kapha, the dosha of structure and **lubrication**. **Unhealthy diet, stress, repressed emotions and insufficient exercise are considered to be elements that disturb ones' doshi cbalance.** Hence, to maintain the balance and good health, a person has to juggle with the three *doshas*, and increase or decrease them, as conditions demand. **In simple words, health means order and balance, whereas disease is disorder and imbalance.** Everyone has all the three doshas, but one of them is usually primary, the other secondary and the third one is the least prominent.

(Also read: 5 of Ayurveda's Best Kept Secrets for Great Health, Fitness & Glowing Skin)

The Three Doshas: An Overview

- 1. Vata:** Vata is considered as the leader of the three Ayurvedic principles in the body. As the principle of mobility, Vata regulates all activity in the body, mental as well as physiological. It is responsible for breathing, blinking our eyes, beating of our heart and many more functions. When in balance, the Vata is lively and energetic. Adequate rest and relaxation is needed to keep the *vata* in balance. Dry skin, cough and dry hair are some problems that one may face when the *vata* is imbalanced.
- 2. Pitta:** Pitta is the fire element. It is responsible for regulating the body temperature through the chemical transformation of food (governing digestion, absorption, assimilation, nutrition and metabolism), promoting vitality and appetite. Those dominated by the *pitta dosha* are strong willed, determined and tend to have leadership qualities. If the *pitta* is imbalanced, it can lead to anger and agitation, and may even cause burning disorders such as ulcers and inflammation. To maintain a balance, meditation, massages and inhaling cooling scents such as rose, mint and lavender can help relax the body.
- 3. Kapha:** This *dosha* maintains body resistance. Those dominated by *kapha* are said to be thoughtful, calm and steady. To maintain a balance, gentle exercises, stimulating activities and an extra intake of fluids can keep the energy flowing. Kapha is primarily responsible for anabolism, the process of building the body, growth and creation of new cells as well as cell repair.

What determines your dosha? Ayurveda Specialist, Dr. Surya Bhagwati from Dr. Vaidya's explains, "The human body is made up of 5 elements -air, ether, earth, water and fire. A combination of these five elements determines one's 'prakriti' or constitution. Ayurveda defines the combination of these five elements into three doshas: vata, pitta and kapha. Although each human body is composed of all the three *doshas*, each body has a different combination of them and this determines one's genetically inherited physical and personality traits. Through one's life, these constitutions may change based on physical, mental and emotional. conditions. It is important to identify one's *dosha* and then create a lifestyle that suits it. This means adopting a diet and daily routine based on one's *dosha*." Ayurveda divides the different body types into seven categories. Hence, it is possible for a person to be: *vata*, *pitta*, *kapha*, *vata-pitta*, *pitta-kapha*, *vata-kapha*, or *tri-dosha*. However, there is no 'best' or 'perfect' body type or *dosha*. Each of the categories have their own advantages and disadvantages. The following table will help you determine your Dosha:

How to Balance Your Dosha

<u>Characteristics</u>	<u>Kapha</u>	<u>Pitta</u>	<u>Vata</u>
1) Body Frame	Large Frame (Stout, thick skin, broad chest, bones not prominent)	Medium Frame (Moderate muscle development and view prominence, slender and delicate frame)	Thin Frame (Small frame, slender, thin, flat chests, prominent veins, taller or shorter than average)
2) Body Weight	Obese, tendency for excess weight	Moderate weight	Thin and lean/slender
3) Skin type	Thick, oily, cold, pale	Soft, warm, moist (slight wrinkles, moles and acne)	Dry and rough, thin, cracked, cool
4) Eyes	Big, large wide, prominent, dense	Medium size, sharp and penetrating gaze	Sunken, small, dry, thin
5) Hair	Thick, dark, soft and wavy	Thin, fine, silky and oily	Dry, scanty, coarse, curly

<u>Characteristics</u>	<u>Kapha</u>	<u>Pitta</u>	<u>Vata</u>
6) Complexion	Fair, bright	Coppery, yellowish, reddish	Brown
7) Disease tendency	Mucus, congestion	Inflammation, heat, fever	Nerve diseases
8) Personality strengths	Loyal, calm, content, forgiving, tolerant	Leaders, sharp, good orators, ambitious	Creative, quick understanding, imaginative
9) Personality weaknesses	Greed, attachment, possessiveness, <u>self-centered</u>	Anger, jealousy, irritability	Nervous, fearful, anxious, lack willpower
10) Physiological traits	Slow digestion, good stamina, sound sleep, crave bitter and pungent foods	Good digestion, strong appetite and metabolism, body temperatures run slightly higher than average	Crave sweet, sour and salty food. Disturbed sleep, cold hands and feet
11) Miscellaneous traits	Relaxed, loving, faithful, prone to depression	Focused, assertive, competitive, passionate	Lively, fun, full of joy and enthusiasm

What to Eat for Your Dosha

<u>To balance Kapha</u>	<u>To balance Pitta</u>	<u>To balance Vata</u>
Be active	Be Calm	Be moderate
Stay warm and active	Rest and relax	Adequate sleep
Engage in stimulating activities	Cut down striving	Disciplined schedule
Avoid cold and damp things	Avoid the sun	Take in sun
Cultivate physical challenges	Stay cool	Avoid: over work, stress, too much stimulation, wind and cold

An imbalance of doshas in the body can be checked with the help of herbal remedies, warm oil massages, yoga, and your diet. To balance each *dosha*, certain foods need to be consumed while some need to be avoided. **Balancing Kapha:** One of the major reasons for *kapha* imbalance is excessive food consumption, and therefore, a light, low-fat diet of bitter, pungent, and astringent tastes is recommended. This can include steamed or raw vegetables, ripe fruits, grains like oats, rye, barley and millets, honey and strong spices like pepper, cardamom, cloves, mustard and turmeric. According to Ayurveda expert, Dr. Dhanvantri Tyagi, "Kapha prakriti should avoid fats, milk and rice in their daily diet but can consume them occasionally." (Also read: The Ayurvedic Diet to Improve Your Health and Well Being)

Balancing Vata: High consumption of spicy and astringent foods contributes to *vata* imbalance. Hence, a peace-making diet with salty, sweet and sour tastes and warm, moist and easily digestible foods is recommended. This includes vegetables like broccoli, leafy vegetables and cauliflower, wheat and rice, mild spices like cumin, ginger and cinnamon. In addition, moist foods like berries, melons, and yogurt can help counter-balance *vata's* dry quality as can other hydrating cooked foods such as soups or stews. Oily foods like avocado, buttermilk, cheese, eggs, whole milk, coconut, nuts and seeds are supportive as well. Dr. Tyagi suggests that people with Vata prakriti should have slightly fatty foods and drink warm milk at night.

Balancing Pitta:Excessive consumption of alcohol and spicy, oily, fried, salty and fermented foods may result in *pitta* imbalance. Dr. Tyagi agrees that pitta prakriti should avoid very spicy, acidic or hot foods. Pitta balance can be restored with sweet, bitter and astringent tastes and heavy, cool foods such as sweet fruits, dairy products, curry leaves, barley, oats and mint. Avoid sour fruits, red meat, potatoes, tomatoes, and eggplant.

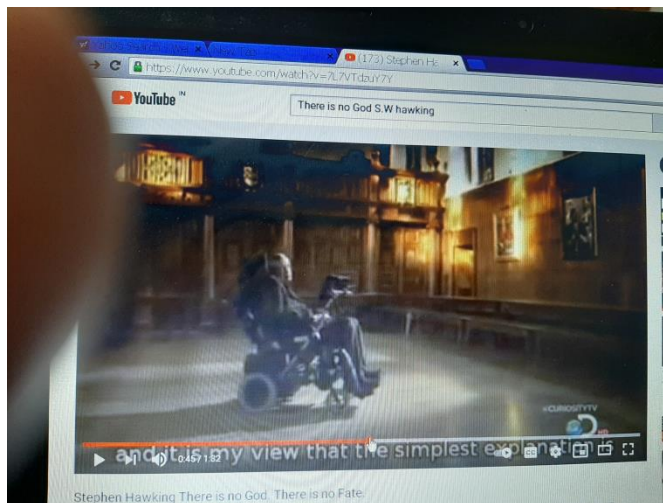

Dr. Tyagi suggests that irrespective of what your prakriti is, you must always eat your food on time, the ingredients should be seasonal and your meals should have a balance of all the nutrients required by your body to maintain good health and well-being. **Disclaimer:***The opinions expressed within this article are the personal opinions of the author. 1.3 Science refutes God Or There is No God Prof S.W.Hawking

<https://www.youtube.com/watch?v=1VTMs7PSIM4>

<https://www.youtube.com/watch?v=7L7VTdzuY7Y>

Conclusions Remote, intercessory prayer was associated with lower CCU course scores. This result suggests that prayer may be an effective adjunct to standard medical care . Arch Intern Med. JAMA--Vol-159, N019 , Oct-25, 1999 :2273-2278 [3]

FINAL STAMP OF SUCCESS OF THE THEORY

A Randomized, Controlled Trial of the Effects of Remote, Intercessory Prayer on Outcomes in Patients Admitted to the Coronary Care Unit
William S. Harris, PhD; Manohar Gowda, MD; Jerry W. Kolb, MDiv; Christopher P. Strychacz, PhD; James L. Vacek, MD; Phillip G. Jones, MS; Alan Forker, MD; James H. O'Keefe, MD; Ben D. McCallister, MD

Context Intercessory prayer (praying for others) has been a common response to sickness for millennia, but it has received little scientific attention. **The positive findings of a previous controlled trial of intercessory prayer have yet to be replicated.**

Objective To determine whether remote, intercessory prayer for hospitalized, cardiac patients will reduce overall adverse events and length of stay.

Design Randomized, controlled, double-blind, prospective, parallel-group trial.

Setting Private, university-associated hospital.

Patients Nine hundred ninety consecutive patients who were newly admitted to the coronary care unit (CCU).

Intervention At the time of admission, patients were randomized to receive remote, intercessory prayer (prayer group) or not (usual care group). The first names of patients in the prayer group were given to a team of outside intercessors who prayed for them daily for 4 weeks. Patients were unaware that they were being prayed for, and the intercessors did not know and never met the patients.

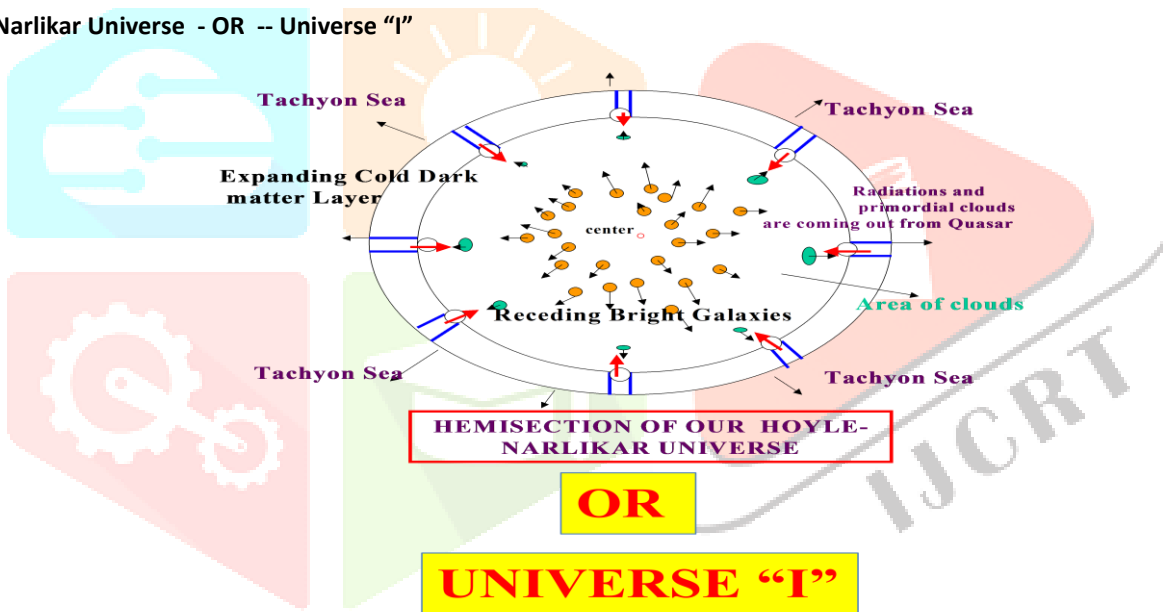

Main Outcome Measures The medical course from CCU admission to hospital discharge was summarized in a CCU course score derived from blinded, retrospective chart review.

Results Compared with the usual care group (n=524), the prayer group (n=466) had lower meanSEM weighted (6.350.26 vs 7.130.27; P=.04) and unweighted (2.70.1 vs 3.00.1; P=.04) CCU course scores. Lengths of CCU and hospital stays were not different.

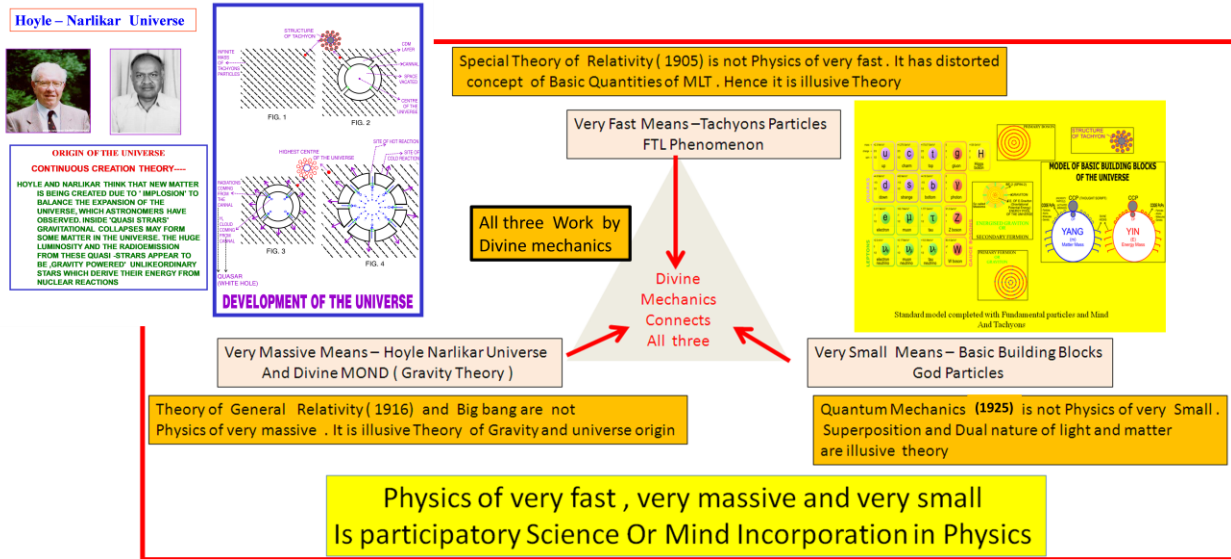

Conclusions Remote, intercessory prayer was associated with lower CCU course scores. This result suggests that prayer may be an effective adjunct to standard medical care .

Arch Intern Med. JAMA--Vol-159, N019 , Oct-25, 1999 :2273-2278

What is New Physics or Physics of Mind ?

Physics of Mind

Quantum Consciousness – According to Physicists and Biologist [1]

The nature of consciousness remains deeply mysterious and profoundly important, with existential, medical and spiritual implication. We know what it is like to *be* conscious – to have awareness, a conscious ‘mind’, but who, or what, are ‘we’ who know such things? How is the subjective nature of phenomenal experience – our ‘inner life’ - to be explained in scientific terms? What consciousness actually *is*, and how it comes about remain unknown. The general assumption in modern science and philosophy - the ‘standard model’ - is that consciousness emerges from complex computation among brain neurons, computation whose currency is seen as neuronal firings (‘spikes’) and synaptic transmissions, equated with binary ‘bits’ in digital computing. Consciousness is presumed to ‘emerge’ from complex neuronal computation, and to have arisen during biological evolution as an adaptation of living systems, extrinsic to the makeup of the universe. On the other hand, spiritual and contemplative traditions, and some scientists and philosophers consider consciousness to be intrinsic, ‘woven into the fabric of the universe’. In these views, conscious precursors and Platonic forms preceded biology, existing all along in the fine scale structure of reality.

Wrong depiction of visual realization

My research involves a theory of consciousness which can bridge these two approaches, a theory developed over the past 20 years with eminent British physicist Sir Roger Penrose. Called ‘orchestrated objective reduction’ (‘Orch OR’), it suggests consciousness arises from quantum vibrations in protein polymers called microtubules inside the brain’s neurons, vibrations which interfere, ‘collapse’ and resonate across scale, control neuronal firings, generate consciousness, and connect ultimately to ‘deeper order’ ripples in spacetime geometry. Consciousness is more like music than computation.

Colleagues Travis Craddock and Jack Tuszyński and I also study how anesthetics act in microtubules to erase consciousness, and with Jay Sanguinetti, John JB Allen and Sterling Cooley, we are studying how transcranial ultrasound (TUS) can be used noninvasively to resonate brain microtubules and treat mental, cognitive and neurological disorders.

Many thanks to my assistant Abi Behar-Montefiore and Ed Xia for maintaining this website.

1.2 Mind and Mass Realities [2]

Fig. 1 Divine Mechanics Unit – CCP, CP and information s – Code PcPs with B-Bit – Mass

Atomic genetics is the branch of science where we investigate about fundamental interactions of the universe i.e. atomic transcription and translations . New words have been coined to understand hidden science of mind part of reality. Mind reality has been recognized as different faces by “I” about 5000 years back to Arjuna in Mahabharata.as shown in Fig 1. It is just like to understand any language through Alphabets. These are (different faces) Alphabets of mind reality. One Mind reality has one face identity and the second mind reality has second face identity and so on. The facial expression represents phenomenon of intelligence and different faces represent different types of properties carrying property. The open eyes means property is activated while close eye means property is inactivated. In spite of carrying properties conscious ness they also know how to conduct not only origin of universe but also how to create two different universe i.e. next creation could be different from this creation . In all, it is automatic system of the universe . The mind realities which are of good properties have devtas face identity (first five faces on both side) and those mind realities which are of bad properties have demons face identity (last four faces on both side) . These are named as code PCPs or messenger atomic genes . The central face is CCP or Thought script where all thoughts of the universe are banked . It is bank of data of all information s of the universe It is face identity of Anti mind particles as data of all information’s of the universe are stored as anti mind particles . It is the Time mind ness (biological clock) that keeps on expressing different thoughts from this thought script (CCP) . There are four more faces (black bodies) shown on extreme left and right floating in fire are CPs (translating Atomic genes) . That translates the messages and realizes it and reacts accordingly.[2]

1.3. Messages From Biological world to understand B.B.B world as shown in Fig 2 [2]

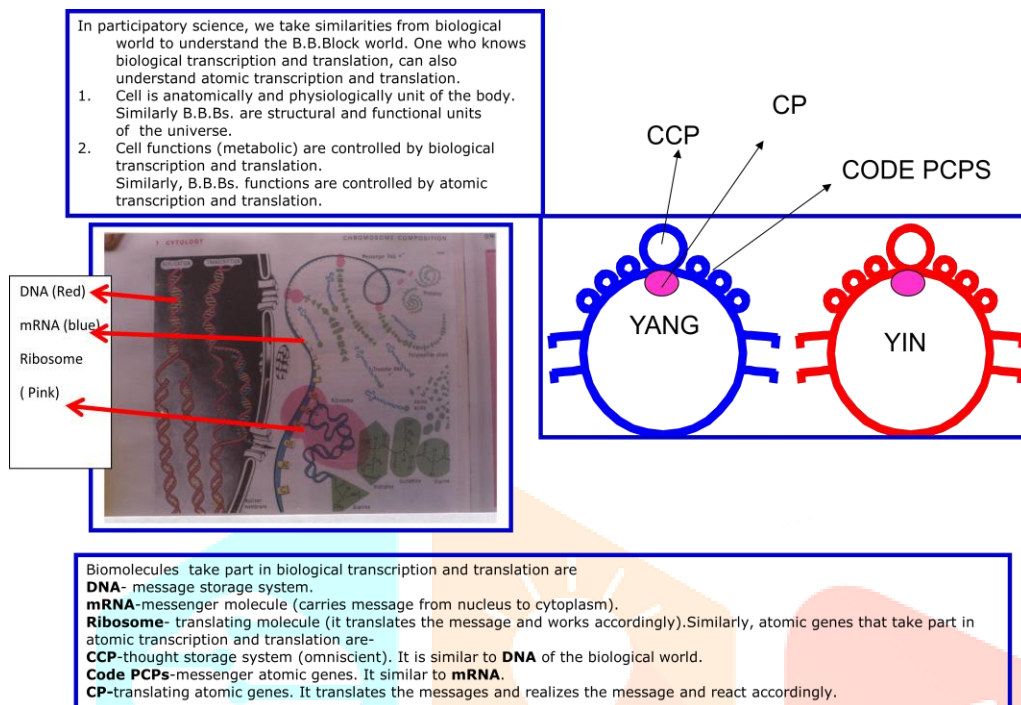

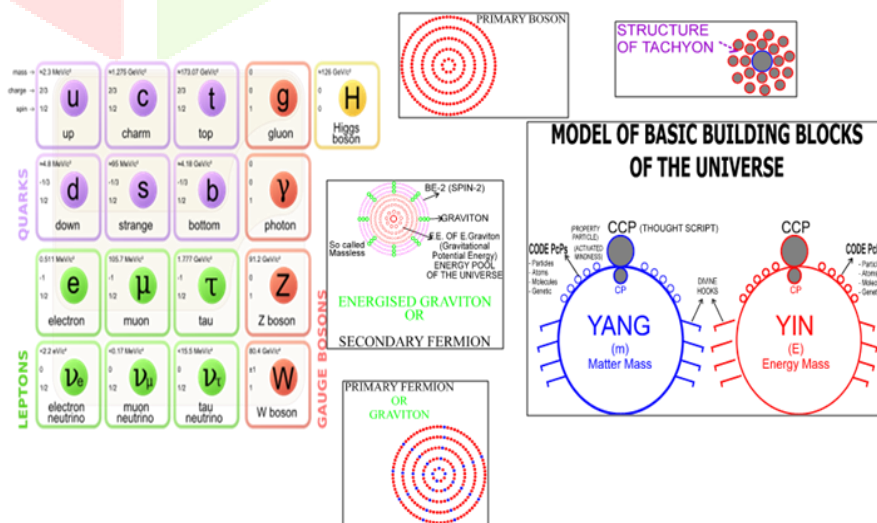

Fig. 2 Parallel teaching by participatory science

The standard model not only modified rather it has been completed [3] with introduction of energized gravitons , primary fermions, primary bosons , Basic Building Blocks , Mind and Tachyons as shown in Fig 3

Standard model completed with Fundamental particles and Mind And Tachyons

Fig. 3 standard Model chart [3]

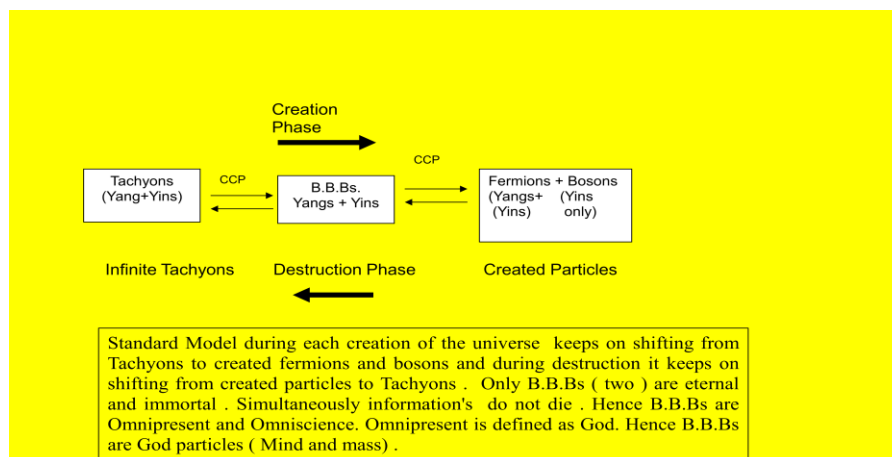

Fig .3.1 one creation and destruction cycle [4]

Participatory science has coined [5] some new words and there are some words which already exist in physics. Both these words are defined here and the definitions are according to participatory science. It has no relation with the definitions given in modern physics.

1. Mass - The part which gives shape to the smallest mass unit i.e. basics building blocks (B. B. Bs.) is called mass.
2. Matter :-Mixture of fermions and bosons or only bosons which are made up of mass (B.B.Bs) and that is why we realize their shape is called matter.
3. Inertial mass :-Mass (smallest mass units i.e. B. B. Bs) having inertial properties (classical inertia) either absolute rest or uniform motion in straight line is called inertial mass. Or Number of B. B. Bs. Per unit space present in bigger units is called inertial mass. Or Total matter contained by the bigger units or total number of fermions and bosons contained by the bigger units is called inertial mass. Therefore it never changes from place to place.
4. Gravitational mass :- The mass (interacting surfaces) which takes part in gravity (divine energized gravitons theory) interaction (which is due to mind) is called gravitational mass. When gravity interaction increases (number of divine energized gravitons increases) the interacting mass (interacting surface) also increases or when interacting mass (interacting surfaces) increases, gravity interaction (number of divine energized gravitons) also increases. Therefore gravitational mass (interacting mass or surfaces) changes from place to place. It is the fed mind that decides gravity interaction. We shall discuss it in gravity chapter and in atomic genetics.
5. Pure m (matter) mass :-matter mass (smallest mass unit or B.B.B) which have got inertial property of absolute rest.
6. Energy mass:-Energy mass (smallest energy mass unit B.B.B) which have got inertial property of uniform motion in straight line and which also gives shape to the bigger energy mass (Higgs Bosons etc) units.
7. m (impure matter) of $E=mc^2$:-Matter particles (fermions) which have got spin property are called impure matter particles.

1.4 Prayer message formation in brain.

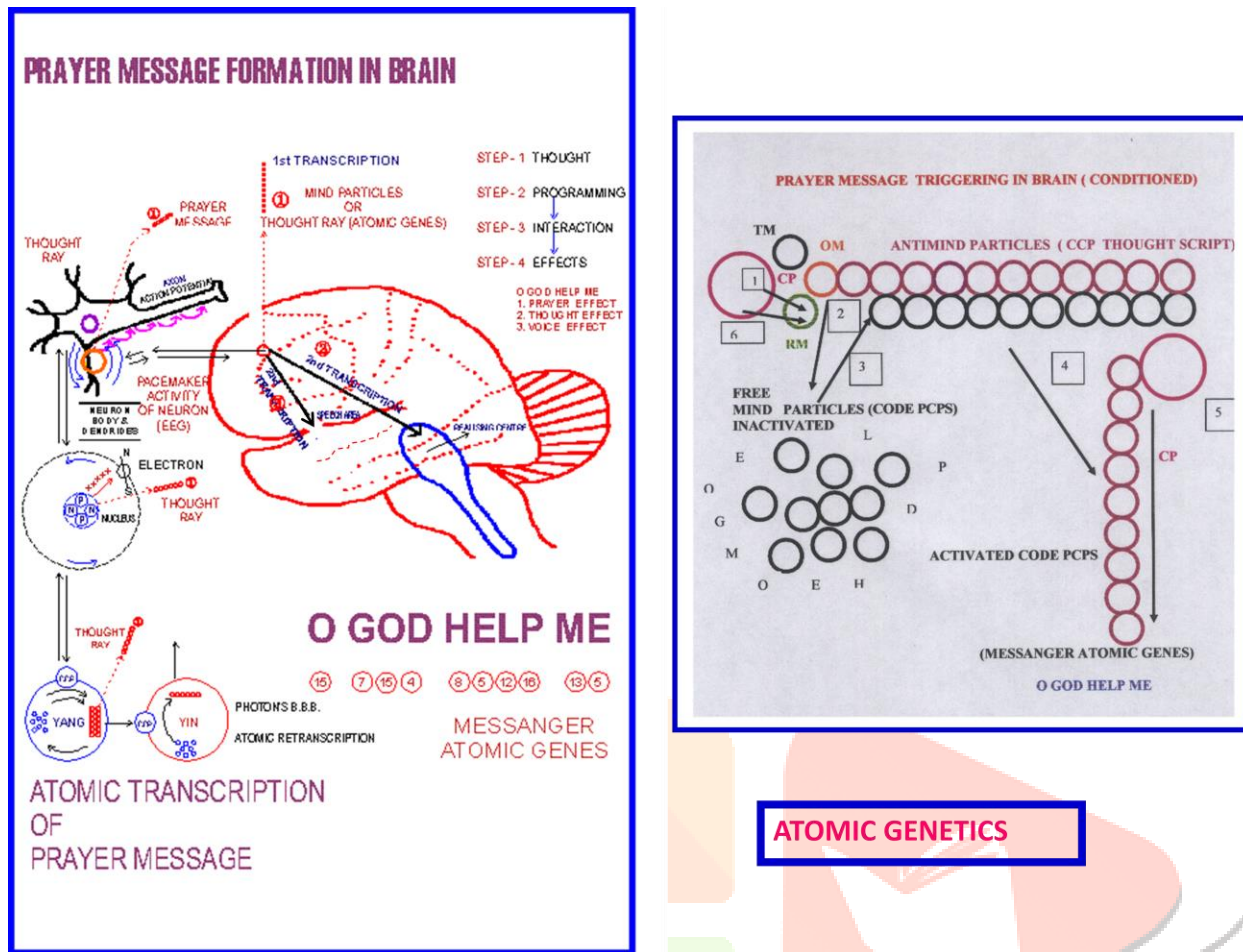

Fig 4 Divine Mechanics - Prayer message formation in brain

In atomic transcription and translation of prayer [5], following steps take place on Yang B.B.B – B-Bit as shown in Figure 4.

- 1.CP removes RM (repressor mindness-green) from OM (operating mindness -orange) thus induction of atomic transcription triggers.
- 2.OM triggers activation of free mind particles (black -inactivated code PCPs) of that thought script (magenta) of “o god help me ”.
- 3.Free mind particles (black -inactivated code PCPs) get attached to anti mind particles script (magenta one) to form messenger thought script of “o god help me ”.
- 4.Messenger atomic genes (black) get activated by anti mind particles thought script and further they get detached from anti mind particles thought script to form activated messenger atomic genes (activated code PCPs) (magenta) of “o god help me ”
- 5.CP carries phenomenon of splicing by translating the messenger activated atomic genes (activated code PcPs) and finally there is activated message of “ o god help me” is formed .
- 6.CP represses atomic transcription by adding RM (green) to OM (orange) . Thus atomic transcription gets halt.

Having formed the message it comes out in three forms .

In atomic genetic engineering (prayer) we use our basic power i.e. power of B.B.Bs. Our B.B.B. (higher center) talks with highest center of the universe by sending the message by first transcription. Till today nobody knows how does the brain generate thoughts. I am going to tell you that mystery too. In the frontal lobe the neurons are responsible for thought generation. In the neuron there is electrical activity called pacemaker activity which is occurring between dendrites and the body of the neuron. The membrane of the cell is made up of atoms and atom is made up of B.B.Bs. At the level of B.B.B. say thought of 'O GOD HELP ME' is expressed. As a result programmed messages of O GOD HELP ME (code PCPs) are formed. Out of three programmed messages, one is carried by atomic genes to highest center of the universe. It is called **THOUGHT RAY (Quantum entanglement)** which is made up of pure atomic genes and then the message goes through phenomenon called first transcription. They come out from brain directly. The other two messages are carried by photons from nucleus of atom to electrons. Here they are modulated on electrical activity of the cell called pacemaker activity. Further they are modulated on actions potentials going towards **REALIZING CENTER** situated in brain stem (RAS) and from RAS to speech area situated in the frontal area. Target B.B.Bs. of the realizing center finally realizes thought effect of O GOD HELP ME. While from speech area message goes to motor cortex again via RAS and from there to vocal cords and finally it comes out as a speech effect of O GOD HELP ME. In layman's terminology formation of the thought ray means PRAYER as shown in Fig 4

Where Does Prayer Message go ?

Prayer message goes as shown in Figure 5 to highest center of the universe via first transcription where it is realized and it is accepted, the highest center sends two messages to B.B.Bs working as higher center in cancer cell. These messages are message of inhibition of abnormal thought expression and message of activation of normal thought expression. Having received the messages, higher center stops expressing the abnormal thoughts and it starts expressing the normal thoughts. As a result, there are no more abnormal programmed messages and in place of that normal programmed messages are there. Now the messages have shifted from abnormal (5and 6) to normal (2 and 3). This shifting of thought expression is called **ATOMIC GENETIC ENGINEERING** as shown in **Figure 4.1**

The changed messages reach to target B.B.Bs. through same route. Having received the changed messages, target B.B.Bs. stop expressing the previous programming and they start expressing the normal programming. As a result the cancer cells transmutate into normal cells. **Or diseased cell gets cured [6]** as shown in **Fig 4.1**

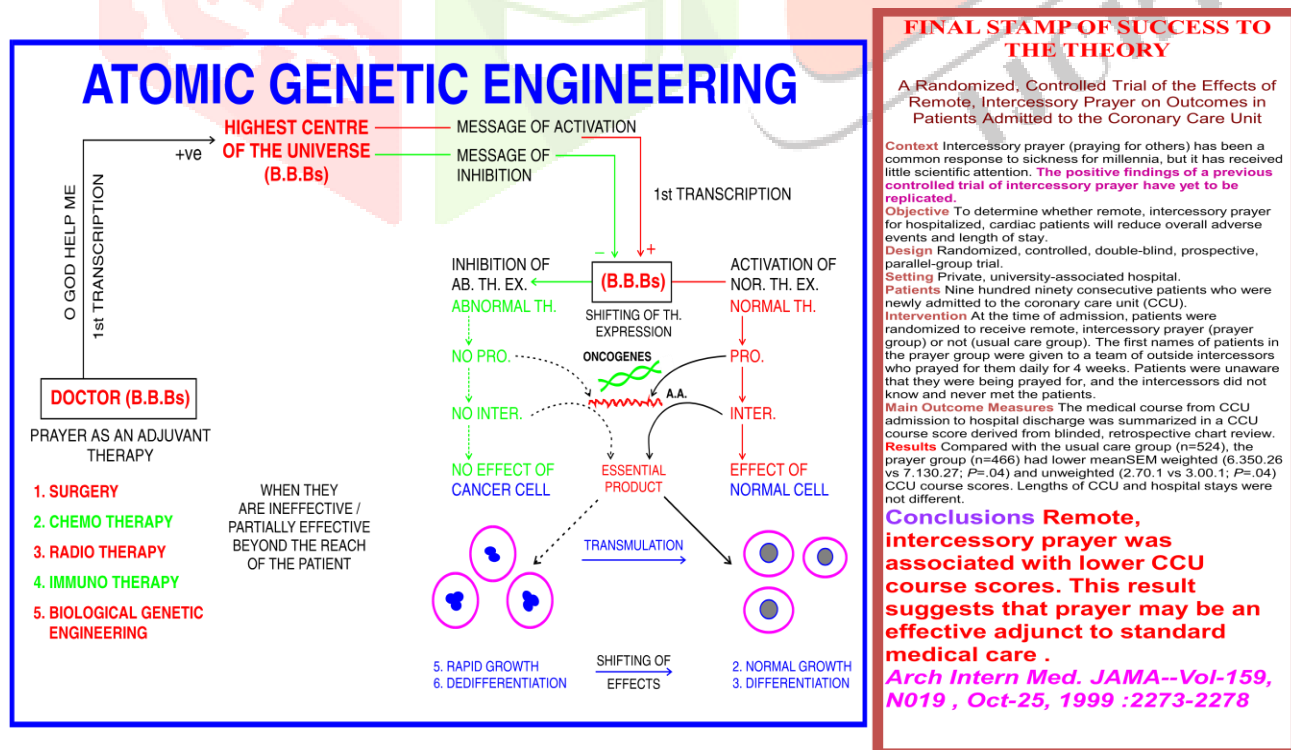

Fig . 4.1 A.G.E and Final stamp of success to New Theory[6]

1.5 Message system of the Universe

Before the origin of the universe [2] nature had only one type of message systems which is called FIRST TRANSCRIPTION. Messages (Code PcPs) used to go from one B.B.B. to another B.B.B. by atomic transcription. Messages were carried by atomic genes (Code PcPs) with very very high velocity. It is the fundamental message system.

After the origin of the universe, nature created atoms. It also created one more message system called SECOND TRANSCRIPTION. Here the message (code PcPs) are carried by photons from one atom to another atom with velocity of light. Thus atoms ,molecules, cells, and even individuals talk with one another

After the formation of the cell , nature created one more system called THIRD TRANSCRIPTION .Here there is a message storage system formed by DNA. There are messenger molecules called mRNA that carry message from DNA script to cytoplasm where the message (code PCPs) is read or translated by ribosome and they work accordingly. Thus the messages reach to enzymes and hormones and finally messages reach to target units. Having received the messages, target units work accordingly. Finally life effects (metabolic) are observed. These three types of message systems are working in the nature. These message system are being used by the nature according to nature's need. as shown in Fig 5

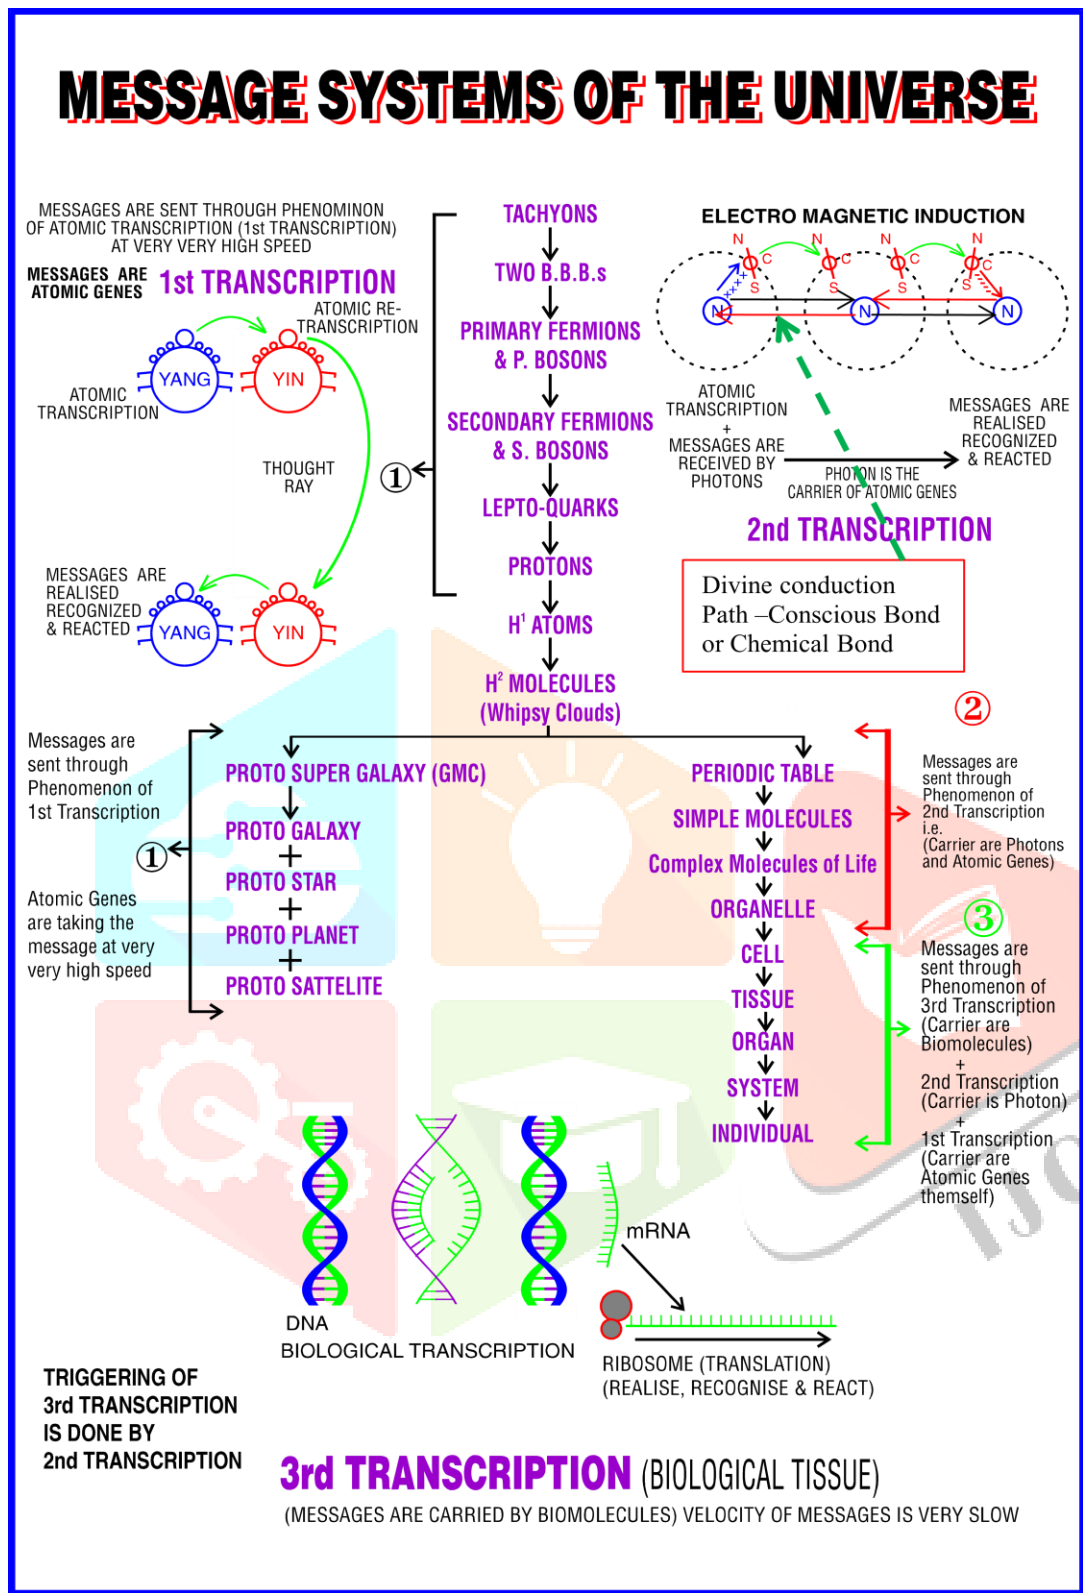

Fig. 5 Messages system of the universe

1.6 How does nature work & triggering of normal & abnormal effects

To understand creation physics as shown in Fig 6 and Fig 7. . There are two types of thought stimulation [2] . One is CONDITIONED THOUGHT STIMULATION and other one is UNCONDITIONED THOUGHT STIMULATION.

STIMULATION OF THOUGHT EXPRESSION --- There are two types of thought expressions one is CONDITIONED STIMULATION of thought expression, and other one is self stimulation of thoughts i.e. UNCONDITIONED STIMULATION of thought expression .

At the time of the origin of the universe, all effects got created. The cause of all effects of the universe is THOUGHT expression. These thought expressions were triggered by UNCONDITIONED OR SELF STIMULATED WAY . It is the first step and it is followed by PROGRAMMING or formation of programmed messages by code PCPs. This programmed message moves from higher centers to target B.B.Bs. it is called INTERACTION. Having received the messages, the mind and mass of the target B.B.Bs. work in a synchronized way so as to produced the effects as thought by a the higher center. If the thought expression by higher center is normal, the shapes, properties and laws produced by target B.B.Bs. would be normal and if the thought expressions are abnormal, the shapes, properties and laws would be abnormal. This is the basic concept of transmutation phenomenon. Finally what we observe is called EFFECT. Appearance of new shapes. properties and laws is called TRANSMUTATION. The first three steps are collectively called CCP. During transmutation process if CCP is written, it does mean that unless the thought, programming and interaction take place, nature cannot transmutate. Transmutation phenomenon is seen in particles, atoms, molecules and even in cells. The basic steps of any transmutation remain the same except that the thought expressions differ.

The subatomic particle are made up of more fundamental particles called Basic Building Blocks (B.B.Bs) which are made up of mind and mass. These B.B.Bs are divine in nature with the result they talk with each other by phenomenon called atomic transcription and translation (thought expressions). The triggering of broken symmetry is caused by atomic transcriptions. Unless the atomic transcriptions occur, subatomic particles could never exhibit phenomenon of broken symmetry . So the broken symmetry is never spontaneous. It is being mis understood that sub atomic particles do have spontaneous activities as far as broken symmetry is concerned. Hence the Nobel prize physics 2008 awarded to this work is too early to give prize.

Fig. 6 Divine Mechanics – How Does Nature work ?

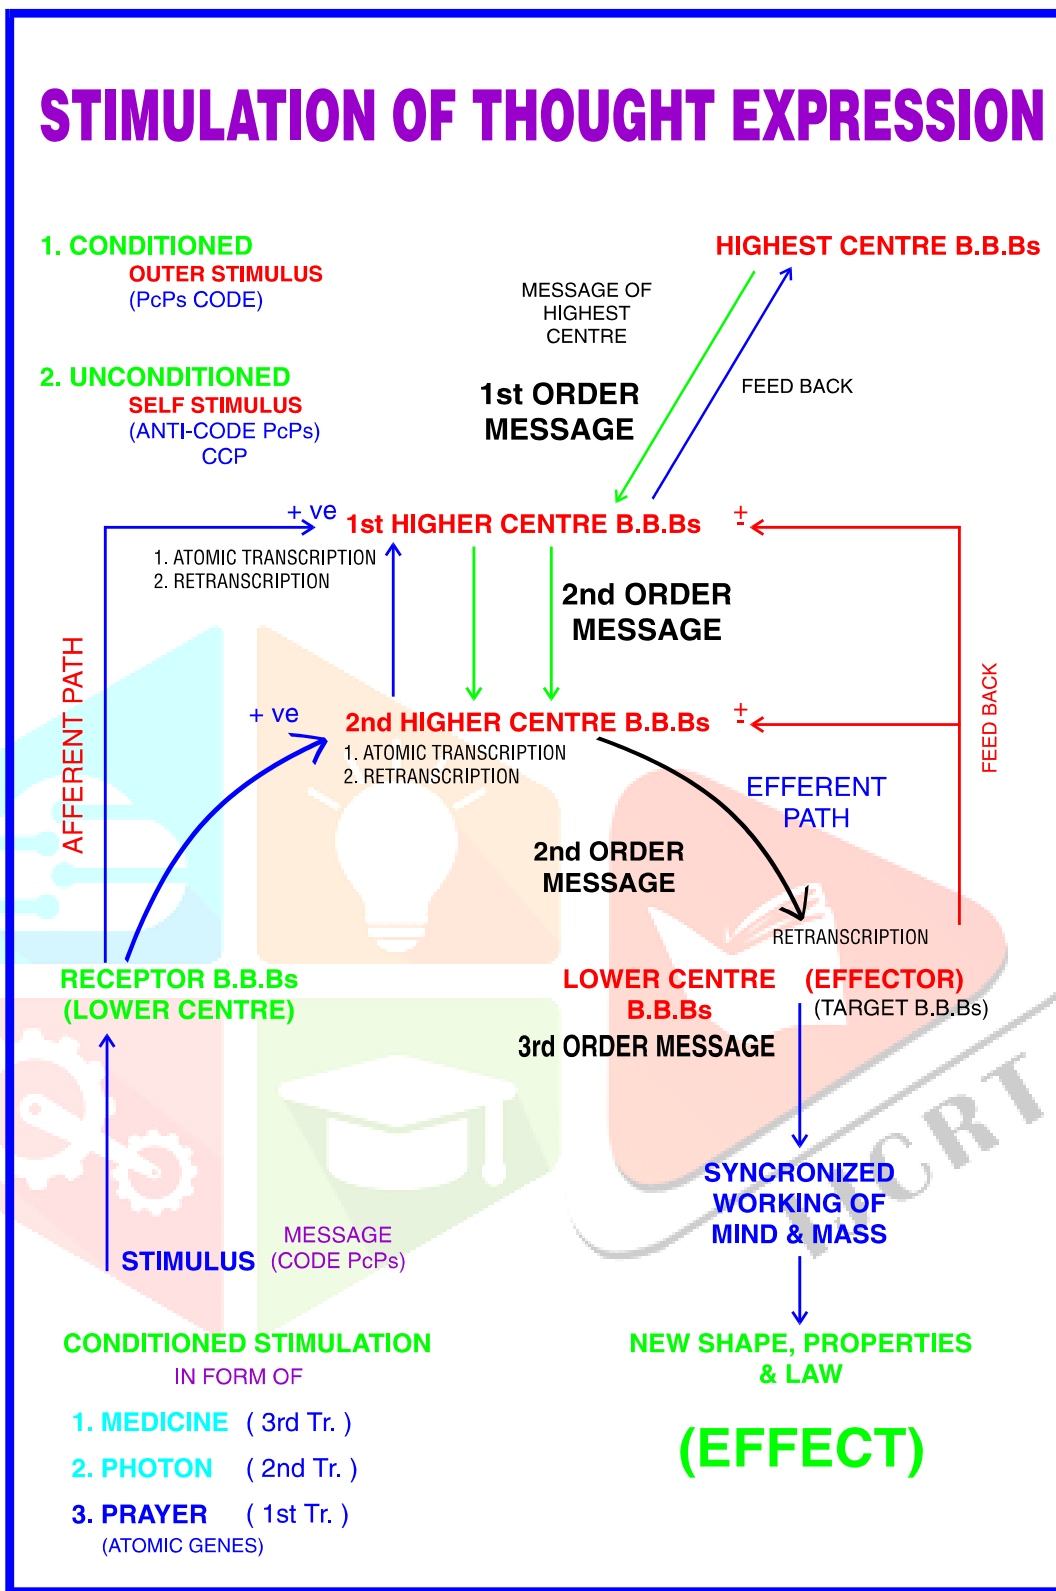

Fig. 7 Conditioned and Unconditioned thought expressions

1.7 Message network of the Universe (Feed Back Mechanism and different centers of the Universe)

With the origin of universe, nature first created primary units i.e. primary fermions (gravitation) and primary boson, these primary units are equipped with one higher center (one B.B.B.) and rest of the B.B.Bs. are working as lower centers or target B.B.Bs.[2] After primary units ,nature created secondary units i.e. secondary fermions and secondary bosons. similarly nature created tertiary

units (lepto-quarks) and then quaternary units (protons & neutrons). Each unit is equipped with higher centers, lower centers and target B.B.Bs. After quaternary units nature created atomic units, molecular units, complex molecules of life units, organelle units, cell units, tissue units, organ units, system units and individual units. Each unit is equipped with higher centers, lower centers, and target B.B.Bs. Similarly nature created satellite units, planet units, solar system units, galaxy units, super galaxy units, dark matter layer unit. These units are also equipped with higher centers, lower centers and target B.B.Bs. Thus our universe is divided into different units and each unit is equipped with higher and lower centers.

All higher centers are under control of highest center of the universe by efferent paths. This efferent path is made up of first transcription. Higher centers can send messages to highest center of the universe by afferent path or feed back path. Thus highest center of the universe is well informed about all effects of the universe. Messages can come from lower centers to higher centers and from higher centers to highest center of the universe via afferent path. The highest center of the universe can send messages to higher centers and from higher center to lower centers. There is an inter unit message network also which is made up of first, second and third transcription depending upon the nature's need. Thus the entire universe is under control of highest center of the universe. Highest center can change any programming programmed by it during pre creation era as shown in Fig 8

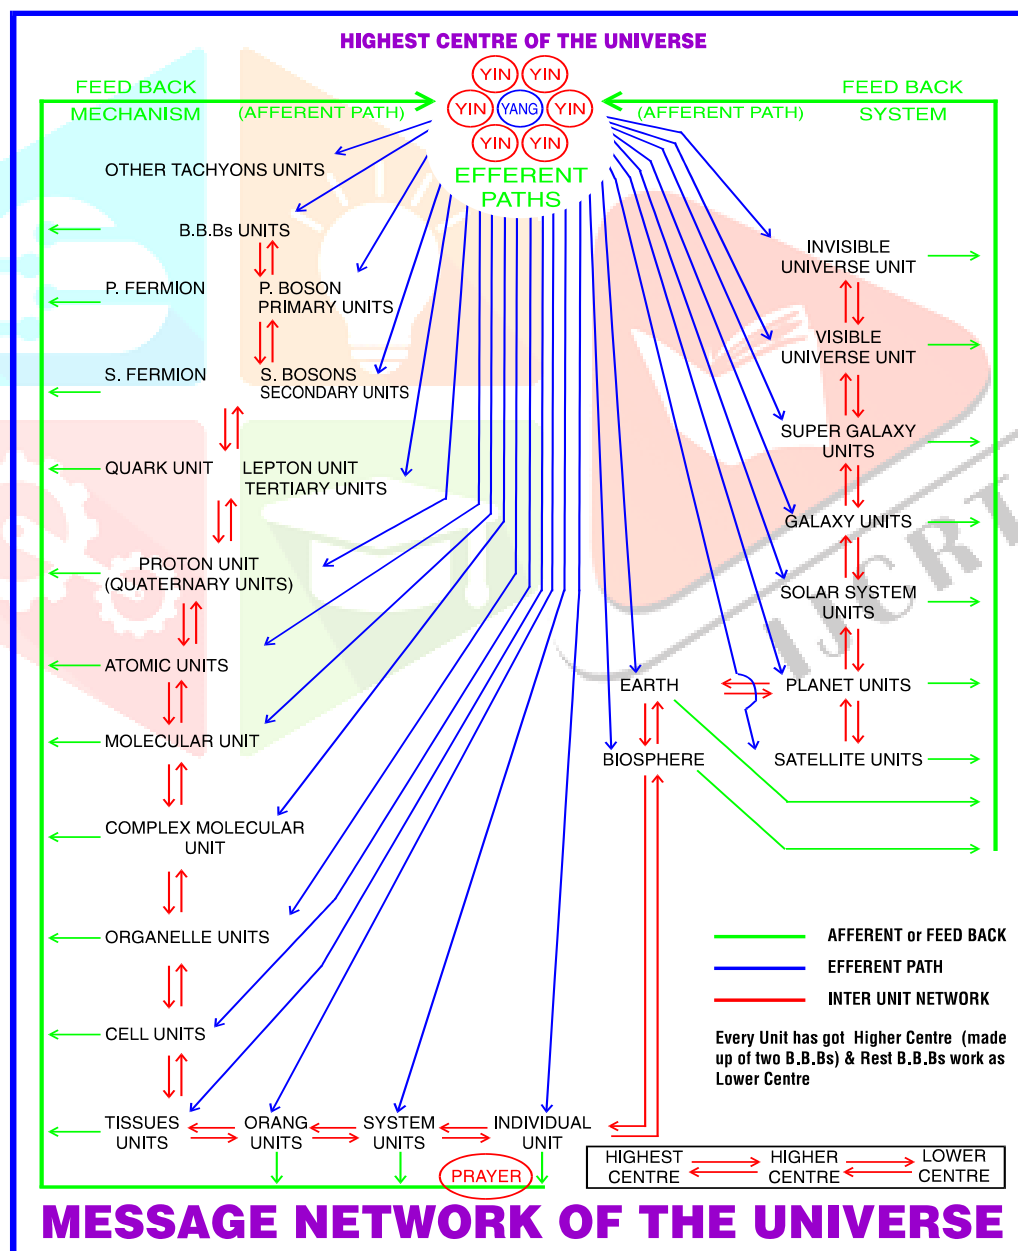

Fig. 8 Messages Net work of the Universe

1.8 Origin of the universe [7]

Hoyle – Narlikar Universe

**ORIGIN OF THE UNIVERSE
CONTINUOUS CREATION THEORY----**

HOYLE AND NARLIKAR THINK THAT NEW MATTER IS BEING CREATED DUE TO 'IMPLOSION' TO BALANCE THE EXPANSION OF THE UNIVERSE, WHICH ASTRONOMERS HAVE OBSERVED. INSIDE 'QUASI STARS' GRAVITATIONAL COLLAPSES MAY FORM SOME MATTER IN THE UNIVERSE. THE HUGE LUMINOSITY AND THE RADIOEMISSION FROM THESE QUASI -STARS APPEAR TO BE 'GRAVITY POWERED' UNLIKE ORDINARY STARS WHICH DERIVE THEIR ENERGY FROM NUCLEAR REACTIONS

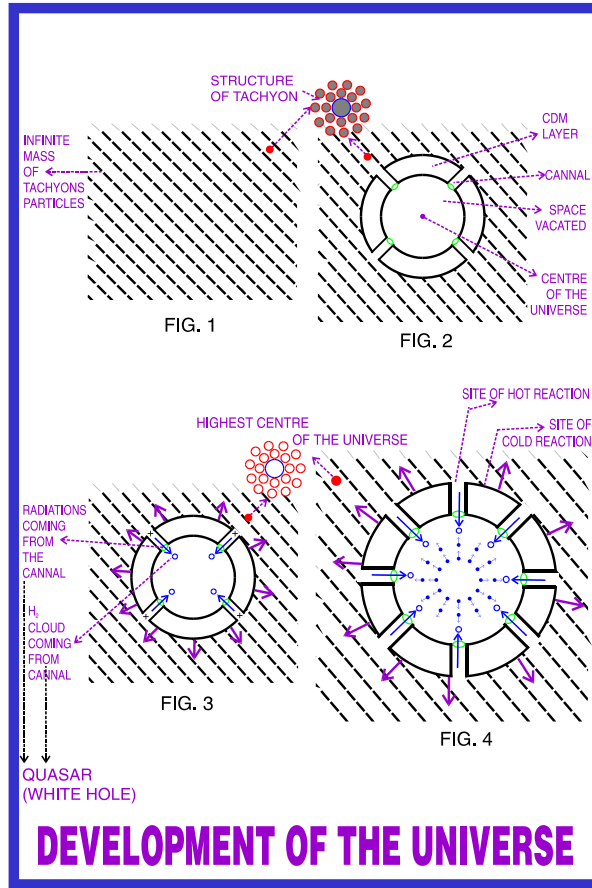

Fig. 9 Development of the Universe

Before the origin of the universe, these Basic Building Blocks (B.B.Bs) as shown in Fig-3 were in the form of tachyons as shown in Fig-9 [7]. It means that at that time the tachyons were everywhere in the universe. Let us look at the structure of tachyons; it is made up of one matter B.B.B. (YANG) and many energy (YINs) B.B.Bs. Initially out of the infinite tachyons, one became the **highest center** of the universe. Messages used to go from highest center to rest of the universe and messages could come from rest of the universe to highest center of the universe by atomic transcription. Thus highest center had fed its thought to rest of the B.B.Bs. that would take part in creation - that they would express only those thoughts to give desired effect as wished by the highest center of the universe. So all B.B.Bs were informed about their role before creation of the universe. In pre-creation era programming of the future universe was done by highest center of the universe. Our universe is oscillating and it is a divine universe. It means that it has a creation phase and a destruction phase. During creation phase tachyons break into their B.B.Bs. and from these B.B.Bs, formation of fermions and bosons take place as shown in Fig 3.1. After the creation phase, destruction would start and in this phase all created particles would again break into their B.B.Bs and finally tachyons would form. At the time of origin of the universe, all the effects got created. These effects are taking of different shapes and appearance of properties and laws. All these effects are studied in various branches of science.

With the origin of the universe, nature first created a sphere of **COLD DARK MATTER (C.D.M)** and canals in it. With the result space got created. At the other end of the canals, hot reaction started (**the relics are back ground radiations 2.7 degree K of our hydrogen clouds**). As a result hydrogen clouds and lot of radiations were created. The empty canals were filled by these hydrogen clouds and radiations and thus **QUASARS** appeared in the universe. Simultaneously C.D.M. layer started expanding and clouds and radiations kept on coming in this closed universe as shown in Fig 9. With the passage of time more and more C.D.M. layer formed, more and more quasars formed. The hydrogen cloud came in this closed universe. They started running towards C.D.M. layer as they were attracted by the gravity of C.D.M. layer. Those clouds, which were nearer, moved faster than those, which were away from CDM Layer. The **HUBBLE LAW**, can thus be explained. With some more passage of time, clouds were joined to form **GMC**

(giant molecular clouds). Later by self-gravitation different proto stars, proto planets, proto satellites were formed. Finally stars became bright and thus bright galaxies appeared in this universe. Our universe is still in expansion phase and creation is still going inside quasars. It is to be remembered that highest center of the universe does not come in the visible universe. It keeps on receiving the messages by atomic transcription and it has power to change any programming programmed by it during pre-creation era.

It is the atomic genes which constitutes mind part of reality. Mind incorporation in physics is awaited as theory of every thing is not yet investigated . I have investigated theory of every thing (ToE) and I found that while studying unified theory at the time of origin of the universe by Hoyle Narlikar universe , it was mind reality that triggered symmetry breaking phase . It is mind reality that triggers oscillation phenomenon of the universe. It is the mind reality which is behind perfect cosmological principle . There is nothing like artificial intelligence in the universe . These mind particles constitute intelligence of the universe that controls the deterministic order of the universe. It is the mind reality behind all effects of the universe. But this is not our mind rather it is mind of Almighty B.B.B (Yang B.B.B or matter B.B.B. or Male B.B.B working as Highest center of the universe) . His mind could be manipulated by prayer only . as shown in figure 9.1and 9.2

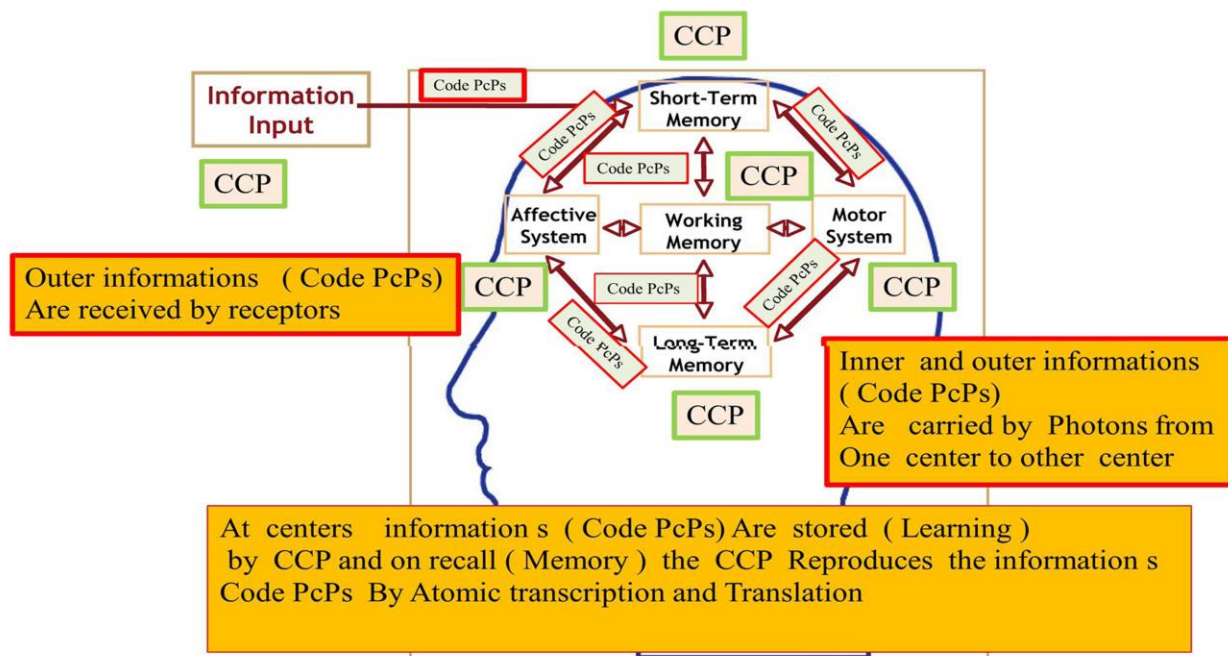

Fig 11 structural configuration of DM and DE at macro level [9]

1.10 Divine Mechanics and Brain Computation

Learning and Memory and information s (Code PcPs) Net work in Brain [10]

Divine Mechanics and Brain Computation

Fig 12 Divine Mechanics of Brain Computing System – Learning and memory

At all steps , these are B.B.Bs (B-Bit) that are responsible for information’s control and triggering . If CCP is written it means unless atomic transcription and translation occur , brain cannot have learning and memory triggering and control and it is called Divine mechanics of Biology and it is life . These are higher thought expressions of B.B.Bs . In Bits of classical computers and qubits of QC , the thought expressions are lower and different but the mechanics (DIVINE) remains the same. as shown in Fig 12

Physics dictates the lowest limit of size of chip **but DIVINE mechanics does not**
Moore's Law Modified and Completed

Fig 13- The Theory of Computers and Brain are same – DIVINE MECHANICS

(Structural and Functional smallest Bit (mass) is B-Bit of the universe and the Divine Mechanical Unit is CCP , Code PcPs and CP.)

DIVINE MECHANICS The Theory of Computers and Brain is SAME as shown in Fig 13

Physics dictates the lowest limits of the size of chips [11]. But divine mechanics does not . Hence the bit is a typical unit of information. ((Classical and Quantum Bit) is wrong and to describe informations by adding qubit is also illusion as in complicate system ,it is the different thoughts expressions that describe informations . Informations are separate (Code PcPs) and bits (Electron of transistor) qubits (electron of diamond crystal) are separate. At DNA level the bit is nucleotide (A,T,C,G) and at Atomic level the bit is photon and electron , at particle level (secondary fermions and secondary bosons) the bit is primary fermions and primary bosons and informations are still code PcPs and at B.B.B level the bit is B.B.B (Yang mass and Yin mass - B- bit) it self and the information is carried by Code PcPs but at all level of all bit units the information storage system is CCP (Physiological arrow of Time) it never dies even after destruction of the universe. Hence informations are eternal . In computers, Bit is a structural configuration that describes informations of the system and informations are in form of Code PcPs. The working of the bit is triggered and controlled by thoughts of higher centers that form that bit. If the bit is classical (transistors of chips) the effect is different . But if the bit is qubit with entanglement the working is triggered and controlled by thoughts of higher center that form that crystal . In both the effect of describing informations would be different.

One is classical (thought expressions are fixed and limited)and other one is quantum (thought expressions are changing and more wide to describe the more wide complicated system to have fast results .) . In life sciences in Brain the bit is again Photon and the informations are Code PcPs and they are triggered and controlled by CCP of higher centers that is triggered by DIVINE MECHANICS .

In life sciences the CCP (cryptography) of B-bit expresses informations (Code PcPs) which were not fed like speaking Lie and unlike Bit of classical computer and qubit of QC it shows phenomenon of forgetfulness and IQ phenomenon (mental age /real age)

. It is Higher functions of B.B.B or B Bit and it is life . Hence there is difference in some aspect of DIVINE MECHANICS \of Computers computation and Brain computation

1.11 Modified theory of atomic structure as Niels Bohr’s theory has limitations in explaining different series of hydrogen spectra.

New assumptions of structure of hydrogen atom. – Divine Modified Niels Bohr ‘s Theory (**Divine MONB**) as shown in Fig 14

1. Hydrogen atom is like a miniature solar system with the negatively charged electron moving in circular orbit around positively charged nucleus having positively charged particle proton. In this circular orbit or stationary orbits , electron is being held by single string of energized gravitons . This energy level is called ground state.
2. When Hydrogen atom is excited, the electron moves from ground state to excited state energy levels making a bigger circular orbit and having reached in this new energy levels , it also emits radiations . Hence absorption and emission of energy quanta occur simultaneously. Shifting is understood in inter orbital shift phenomenon.
3. When excitation is over, the electron once again come back to ground state energy level . All above mentioned events are triggered by different thoughts or atomic transcriptions from the nucleus or proton in case of hydrogen atom.
4. These atomic transcriptions are being triggered by conditioned stimulation of CCP by the message system made up of photons (second transcription or –ve charged photons or afferent path) coming from electron to proton and further they are transmitted by photons (second transcription made up of +ve charged photons, or efferent path) to electron. Having received the messages , electron works accordingly. Unless the thought is expressed, nature cannot work . as shown in Fig 14
5. When electron is in ground state, its interaction with energized graviton and electromagnetic photon is more hence IP - 13.59ev (n=1) is required to remove electron from this energy level. During excited stage the interaction is different hence I.P. to remove electron from this state is -3.4ev (n=2), -1.511ev (n=3),- 0.850ev (n=4) , -0.544ev (n=5) respectively. It the changing thought of interaction with energized graviton and electromagnetic photons that gives changing effect .
6. Electronic configuration of higher atoms could be known by studying I.P. curve . Working of hydrogen atom as shown in Fig 14 .

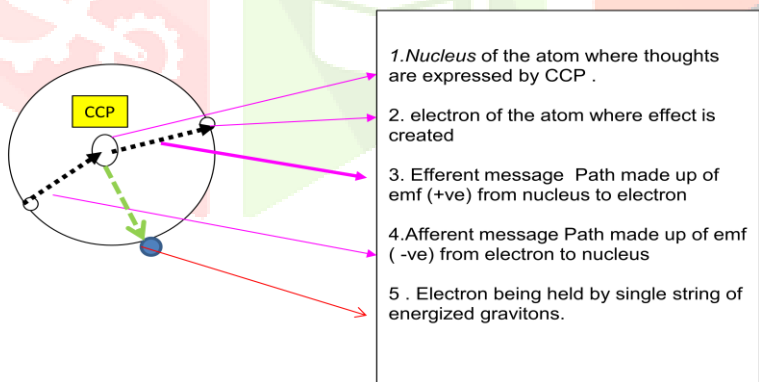

Fig 14 working of hydrogen atom – Divine MONB Theory

Grievance Status for registration number : AYUSH/E/2018/00010

Grievance Concerns To Name Of Complainant Vijay Mohan Das Date of Receipt 08/01/2018

Received By Ministry/Department Ayush Grievance Description I dis agree as entire scenario of Indian Systems of Medicine and Homeopathy is based on wrong believes . You are endangering human lives in the hands of Quacks . Supreme court of India has clearly mentioned that both pat hies are separate and in any circumstances Aruvedacharya (BAMS) are not allowed to practice allopathy and if they do so it is punishable offence . You have to follow it .

Current Status Case closed Date of Action 01/02/2018 Remarks No specific grievance pertaining to CCIM

2.6

Grievance Status for registration number : AYUSH/E/2018/00011

Grievance Concerns To Name Of Complainant Vijay Mohan Das Date of Receipt 08/01/2018 Received By Ministry/Department Ayush Grievance Description My point of view is that old Indian treatment is out of New scientific understanding (mind and Nature) and their drug science (pharmacokinetics and pharmacodynamics) is also absent . Under such circumstances Almighty does not allow to practice Ayurveda by BAMS and to teach in MBBS course .

Current Status Case closed Date of Action 01/02/2018 Remarks No specific grievance pertaining to CCIM

2.7 Establishing theory of Prayer and there by showing the “ Science Of Prayer ” that has supported the claim made by study by Mid American Heart Institute in 1999. The study that states that prayer works , now have been equipped with “ Science Of Prayer “ makes the study meaningful .

FINAL STAMP OF SUCCESS OF THE THEORY

A Randomized, Controlled Trial of the Effects of Remote, Intercessory Prayer on Outcomes in Patients Admitted to the Coronary Care Unit
 William S. Harris, PhD; Manohar Gowda, MD; Jerry W. Kolb, MDiv; Christopher P. Strychacz, PhD; James L. Vacek, MD; Philip G. Jones, MS; Alan Forker, MD; James H. O'Keefe, MD; Ben D. McCallister, MD

Context Intercessory prayer (praying for others) has been a common response to sickness for millennia, but it has received little scientific attention. **The positive findings of a previous controlled trial of intercessory prayer have yet to be replicated.**

Objective To determine whether remote, intercessory prayer for hospitalized, cardiac patients will reduce overall adverse events and length of stay.

Design Randomized, controlled, double-blind, prospective, parallel-group trial.

Setting Private, university-associated hospital.

Patients Nine hundred ninety consecutive patients who were newly admitted to the coronary care unit (CCU).

Intervention At the time of admission, patients were randomized to receive remote, intercessory prayer (prayer group) or not (usual care group). The first names of patients in the prayer group were given to a team of outside intercessors who prayed for them daily for 4 weeks. Patients were unaware that they were being prayed for, and the intercessors did not know and never met the patients.

Main Outcome Measures The medical course from CCU admission to hospital discharge was summarized in a CCU course score derived from blinded, retrospective chart review.

Results Compared with the usual care group (n=524), the prayer group (n=466) had lower meanSEM weighted (6.350.26 vs 7.130.27; P=.04) and unweighted (2.70.1 vs 3.00.1; P=.04) CCU course scores. Lengths of CCU and hospital stays were not different.

Conclusions Remote, intercessory prayer was associated with lower CCU course scores. This result suggests that prayer may be an effective adjunct to standard medical care .

Arch Intern Med. JAMA--Vol-159, N019 , Oct-25, 1999 :2273-2278

INFERENCE OF THIS OBSERVATION-

This observation profound that prayer works and prayer is mediated by **ATOMIC GENES** only.
 This observation also profounds that **highest centre** of the universe exists. Hence **NEW MODEL** of the universe and structure of the matter as regard B.B.Bs are well confirmed . Highest centre has power to change any programming of the universe as programmed by it during precreation era when feeding of future was done by it. By this observation theory of **ATOMIC GENETICS** postulated is **CONFIRMED**. **Atomic Genetic Engineering (Prayer) a new modality has been confirmed to treat the DISEASED LIVING CELL.**

Prayer message formation in brain.

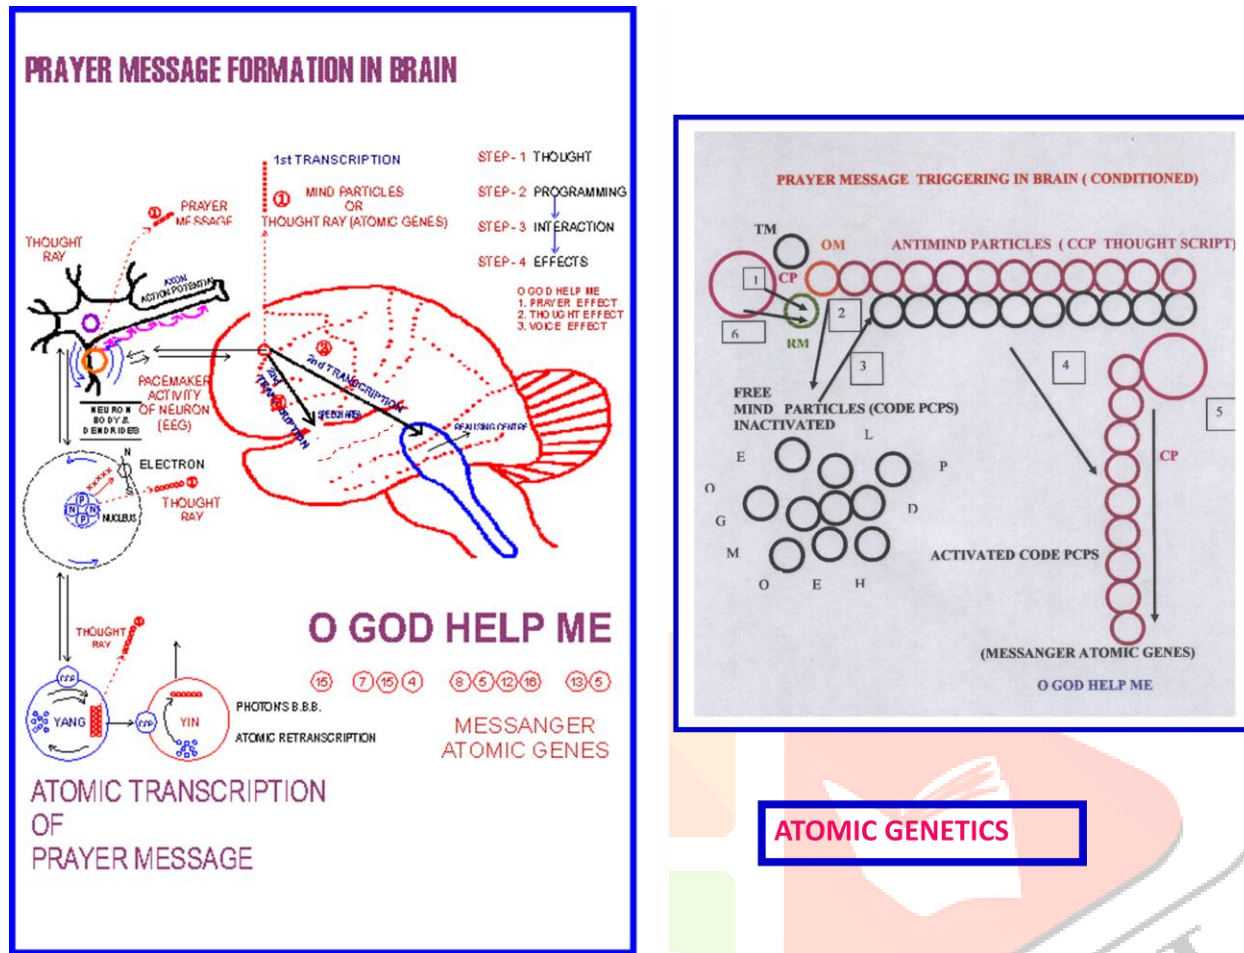

Fig Divine Mechanics - Prayer message formation in brain

In atomic transcription and translation of prayer [5], following steps take place on Yang B.B.B – B-Bit as shown in Figure above

1. CP removes RM (repressor mindness-green) from OM (operating mindness -orange) thus induction of atomic transcription triggers.
2. OM triggers activation of free mind particles (black -inactivated code PCPs) of that thought script (magenta) of “o god help me ”.
3. Free mind particles (black -inactivated code PCPs) get attached to anti mind particles script (magenta one) to form messenger thought script of “o god help me ”.
4. Messenger atomic genes (black) get activated by anti mind particles thought script and further they get detached from anti mind particles thought script to form activated messenger atomic genes (activated code PCPs) (magenta) of “ o god help me ”
5. CP carries phenomenon of splicing by translating the messenger activated atomic genes (activated code PcPs) and finally there is activated message of “ o god help me” is formed .
6. CP represses atomic transcription by adding RM (green) to OM (orange) . Thus atomic transcription gets halt.

Having formed the message it comes out in three forms .

In atomic genetic engineering (prayer) we use our basic power i.e. power of B.B.Bs. Our B.B.B. (higher center) talks with highest center of the universe by sending the message by first transcription. Till today nobody knows how does the brain generate thoughts.

I am going to tell you that mystery too. In the frontal lobe the neurons are responsible for thought generation. In the neuron there is electrical activity called pacemaker activity which is occurring between dendrites and the body of the neuron. The membrane of the cell is made up of atoms and atom is made up of B.B.Bs. At the level of B.B.B. say thought of 'O GOD HELP ME' is expressed. As a result programmed messages of O GOD HELP ME (code PCPs) are formed. Out of three programmed messages, one is carried by atomic genes to highest center of the universe. It is called **THOUGHT RAY (Quantum entanglement)** which is made up of pure atomic genes and then the message goes through phenomenon called first transcription. They come out from brain directly. The other two messages are carried by photons from nucleus of atom to electrons. Here they are modulated on electrical activity of the cell called pacemaker activity. Further they are modulated on actions potentials going towards **REALIZING CENTER** situated in brain stem (RAS) and from RAS to speech area situated in the frontal area. Target B.B.Bs. of the realizing center finally realizes thought effect of O GOD HELP ME. While from speech area message goes to motor cortex again via RAS and from there to vocal cords and finally it comes out as a speech effect of O GOD HELP ME. In layman's terminology formation of the thought ray means PRAYER as shown in Fig above

Where Does Prayer Message go ?

Prayer message goes as shown in Figure below to highest center of the universe via first transcription where it is realized and it is accepted, the highest center sends two messages to B.B.Bs working as higher center in cancer cell. These messages are message of inhibition of abnormal thought expression and message of activation of normal thought expression. Having received the messages, higher center stops expressing the abnormal thoughts and it starts expressing the normal thoughts. As a result, there are no more abnormal programmed messages and in place of that normal programmed messages are there. Now the messages have shifted from abnormal (5 and 6) to normal (2 and 3). This shifting of thought expression is called **ATOMIC GENETIC ENGINEERING** as shown in Figure below

The changed messages reach to target B.B.Bs. through same route. Having received the changed messages, target B.B.Bs. stop expressing the previous programming and they start expressing the normal programming. As a result the cancer cells transmutate into normal cells. **Or diseased cell gets cured [6]** as shown in Fig below

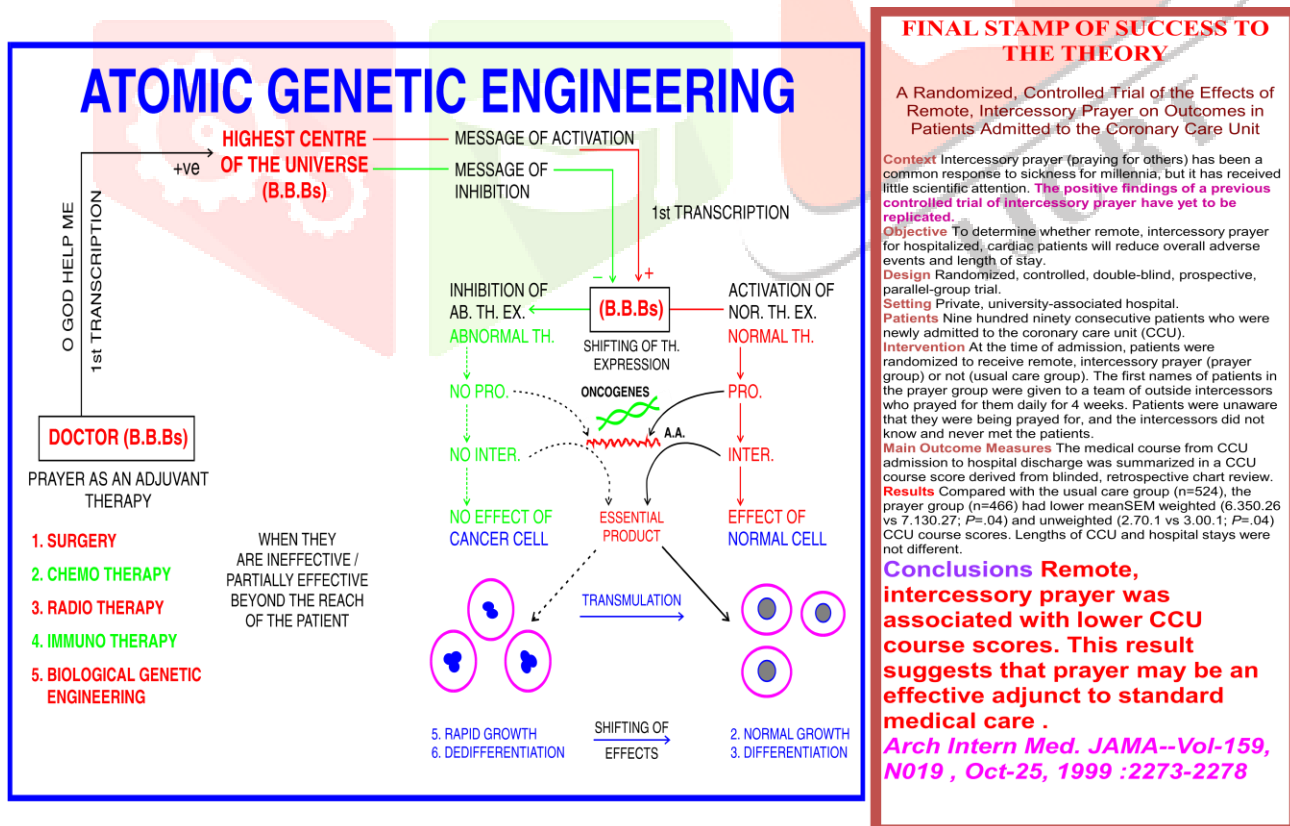

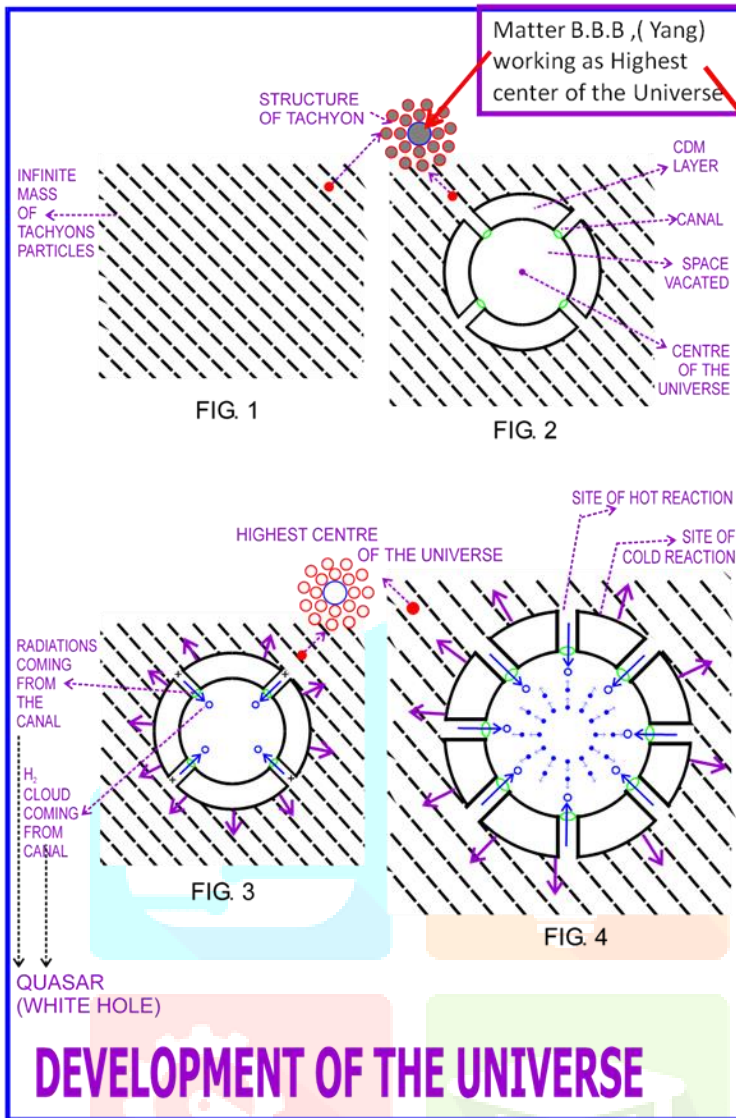

Fig . A.G.E and Final stamp of success to New Theory[6]

The First God of symmetry breaking phase is Almighty B.B.B as His wishes are dominating in the universe or what ever is happening in this universe is by His wish . It is depiction of one oscillation under control of Highest center of the universe , Almighty B.B.B. or Yang B.B.B

PRAYER FROM ANY RELIGION REACHES TO HIGHEST CENTRE OF THE UNIVERSE OR ALMIGHTY B.B.B.

I AM THE ORIGIN AND ALSO THE DISSOLUTION OF ENTIRE UNIVERSE 7/6---Geeta

Hoyle Narlikar Universe

2.8 PIL was filed in HC Allahabad but did not get mandamus by virtue of Court was not competent to deal such PILs

Case :- PUBLIC INTEREST LITIGATION (PIL) No. - 25404 of 2014

Petitioner :- Dr. Vijay Mohan Das

Respondent :- Union Of India Thru' Secy. & 6 Others

Counsel for Petitioner :- Dr. V.M. Das (In Person)

Counsel for Respondent :- C.S.C.,A.S.G.I./2014/9088,S.K. Varma,S.P. Sharma

Hon'ble Dr. Dhananjaya Yeshwant Chandrachud,Chief Justice

Hon'ble Dilip Gupta,J.

In a petition which is filed in the public interest, the petitioner seeks a mandamus that "Science of Prayer" should be taught in all schools and colleges in the State as well as in other parts of the country so that our future generation should "know Almighty God".

What should be the curriculum of the schools and colleges is an academic matter on which the High Court is not competent to issue a direction. In any event, we see no public interest in the matter forentertaining the petition.

The petition is, accordingly, dismissed. There shall be no order as to costs.

Order Date :- 5.5.2014

RK (Dilip Gupta,J.) (Dr.D.Y.Chandrachud,C.J.)

Legal Aspects to practice Allopathy and Ayurveda etc in India .

Hon'ble Sunil Ambwani.J.

(i)

Sri J.K. Tiwari, learned standing counsel is present.

In this matter, the Court has passed several orders for registration of qualified and registered medical practitioner, and for prohibiting those who are not qualified and are unregistered, or those who have practicing medicines, having qualifications in other fields. The orders have been passed, in pursuance to the directions issued by the Supreme Court in D.K. Joshi Vs.State of U.P. and others [2000 (5) SC 80].

There are reports in the newspapers that large number of unauthorized, unqualified and unregistered persons are still practicing modern medicine. It is alleged that they are practicing in connivance with the Chief Medical Officers of the State and his staff.

The Chief Secretary and the Principal Secretary (Medical Health) are directed to comply with the orders passed by the Court, prohibiting the unauthorized, unregistered and unqualified persons, to practice modern medicine.

The Chief Medical Officers and the District Magistrates of the State are also directed to carry out raids and prohibit such persons from practicing medicine. The Court also directs that where it is found that the persons having no qualification at all, or that the persons having qualifications in different fields, such as Homeopathy,

Unani, Ayurved, Siddha, Tibbi etc are practicing modern medicines by prescribing drugs and carrying out surgeries/operations, the Chief Medical Officers and District Magistrates will immediately initiate prosecution against such persons by lodging FIR. They will also seal such clinics/nursing homes.

The District Magistrates and the Chief Medical Officers, are also directed to carry out inspection of diagnostic centres, running in their districts for compliance of the provisions of PC and PNDT Act. Those persons who are running the ultra sound machine and the nursing homes for sex determination should be sternly dealt with under the provisions of the Act. They will also liable for prosecution and also sealing of their machines and clinics.

Let the Chief Secretary and Principal Secretary (Medical Health Department) will submit a compliance report by 13.07.2012.

List on 13.07.2012.

1 CRIMINAL APPEAL NO. 1460 OF 2012 (Arising out of S.L.P. (Crl.) No. 6975 of 2011)

Central Bureau of Investigation, Hyderabad Appellant(s) Versus K. Narayana Rao Respondent(s) J U D G M E N T by P.Sathasivam,J. in Para 22 ,it is clearly mentioned that **In the law of negligence, professionals such as lawyers, doctors, architects and others are included in the category of persons professing some special skills. Pl read para 22 and judgement .**

<http://www.pathlegal.in/No-FIR-against-Advocates-and-Doctors:Supreme-Court-blog-1563837>

J U D G M E N T

P.Sathasivam,J.

22) The High Court while quashing the criminal proceedings in respect of the respondent herein has gone into the allegations in the charge sheet and the materials placed for his scrutiny and arrived at a conclusion that the same does not disclose any criminal offence committed by him. It also concluded that there is no material to show that the respondent herein joined hands with A-1 to A-3 for giving false opinion. In the absence of direct material, he cannot be implicated as one of the conspirators of the offence punishable under Section 420 read with Section 109 of IPC. The High Court has also opined that even after critically examining the entire material, it does not disclose any criminal offence committed by him. Though as pointed out earlier, a roving enquiry is not needed, however, **it is the duty of the Court to find out whether any prima facie material available against the person who has charged with an offence under Section 420 read with Section 109 of IPC.** In the banking sector in particular, rendering of legal opinion for granting of loans has become an important component of an advocate's work. **In the law of negligence, professionals such as lawyers, doctors, architects and others are included in the category of persons professing some special skills.**

डीएम ने 22 नर्सिंग होम की जांच के निर्देश दिए

जागरण संवाददाता, फर्रुखाबाद : जनपद के 22 नर्सिंग होम का सर्वोच्च न्यायालय के आदेश को ताक पर रखकर नवीनीकरण कर दिया गया। इसकी शिकायत पर जिलाधिकारी ने मुख्य चिकित्सा अधिकारी को समिति गठित कर जांच कराने के निर्देश दिए हैं।

फतेहगढ़ निवासी डा. वीएम दास ने डीएम को भेजे शिकायती पत्र में कहा कि सीएमओ कार्यालय में तैनात एक प्रभारी सीएमओ ने सर्वोच्च न्यायालय के आदेश की अवहेलना कर 22 नर्सिंग होम का नवीनीकरण कर दिया है। शिकायत में कहा गया है कि संचालित नर्सिंग होम में मेडिकल एक्ट के तहत सुविधाएं भी उपलब्ध नहीं हैं।

प्रभारी सीएमओ ने हाईकोर्ट व सुप्रीम कोर्ट के आदेश को ताक पर रखकर उनका नवीनीकरण कर दिया है। नर्सिंग होम में सर्जन की तैनाती न होने के बाद भी आपरेशन किए जा रहे हैं।

किसी भी नर्सिंग होम में आपरेशन थियेटर संचालित करने की अनुमति नहीं है और न ही किसी ने आपरेशन थियेटर संचालित करने को आवेदन किए हैं। इस मामले में डीएम ने सीएमओ को समिति गठित कर तत्काल जांच कराने एवं कार्रवाई करने के आदेश दिए हैं।

विषय-आई०जी०आर०एस० पोर्टल पर प्रेषित शिकायत सं०-60000180056604 दिनांक- 07.07.2018 के
निस्तारण के सम्बन्ध में।

महोदय,

उपरोक्त विषयक श्री विजय मोहन दास, निकट-बैंक ऑफ इंडिया, फतेहगढ़, फर्रुखाबाद द्वारा आई०जी०आर०एस० पोर्टल पर अपलोड की गई शिकायत सं०-60000180056604 दिनांक-07.07.2018 के अन्तर्गत जनपद-फर्रुखाबाद में मा० उच्चतम न्यायालय एवं मा० उच्च न्यायालय के आदेशों की अवहेलना कर आयुष चिकित्सकों एवं Quack नर्सिंग होमों में एलोपैथिक दवाइयों एवं एलोपैथिक सर्जिकल औषधियों का प्रयोग किये जाने एवं अयोग्य चिकित्सकों द्वारा शल्य क्रिया किये जाने की शिकायत की गयी है।

अद्योहस्ताक्षरी के स्तर से निजी चिकित्सालयों/नर्सिंग होमों एवं क्लीनिकों के पंजीकरण/नवीनीकरण के समय संचालकों को मा० उच्चतम न्यायालय एवं उच्च न्यायालय के उक्त आदेशों का कड़ाई से अनुपालन करने के निर्देश दिये जा रहे हैं। नवीन शासनादेश के अनुसार होम्योपैथिक क्लीनिकों एवं आयुर्वेदिक क्लीनिकों का पंजीकरण क्रमशः जिला होम्योपैथिक चिकित्सा अधिकारी एवं जिला आयुर्वेदिक अधिकारी द्वारा किये जाने के आदेश प्राप्त हुए हैं। इसके साथ ही साथ अपंजीकृत चिकित्सकों एवं निजी चिकित्सालयों एवं नर्सिंग होमों तथा क्लीनिकों के आकस्मिक निरीक्षण के दौरान इस प्रकार की अनियमिततायें मिलने पर सम्बन्धित संचालक/चिकित्सकों के विरुद्ध विधिसंवत कार्यवाही की जा रही है।

शिकायतकर्ता श्री (डा०) बी०एम० दास एक आदतन शिकायतकर्ता हैं, जो प्रायः जनपदीय, राज्य एवं केन्द्र स्तरीय शिकायत मंचों पर समय-समय पर शिकायत करते रहते हैं। वह स्वयं को "यूनिवर्सिटी ऑफ गाड" का संचालक एवं सर्वशक्तिमान से बारंबार साक्षात्कृत होकर सीधे ही आदेश प्राप्तकर्ता बताते हैं। उनका यह भी कहना है कि समस्त कृत्य ईश्वरी आदेशों से अधिकृत हैं। डा० दास के पास शिकायतों के सम्बन्ध में कोई भौतिक साक्ष्य नहीं हैं।

अतः आपसे अनुरोध है कि शिकायत निस्तारित करने का कष्ट करें।

भवदीय,

मुख्य चिकित्सा अधिकारी,
फर्रुखाबाद।

संख्या व दिनांक उक्त। 5895 -1

प्रतिलिपि - श्री विजय मोहन दास, निकट-बैंक ऑफ इंडिया, फतेहगढ़, फर्रुखाबाद को सूचनार्थ प्रेषित।

मुख्य चिकित्सा अधिकारी,

Block, Janakpuri New Delhi110058 Contact Number : 01128525847

Grievance Description : Health is being maintained by knowledge (allopathy)and drug sciences (pharmacokinetics and pharmacodynamics). Ayurveda an ancient health maintaining system neither have right knowledge of human sciences nor it has drug sciences . Now Government or Ministry of Ayush wants to merge Ayurveda with MBBS teaching courses . It is called Adultery and malpractice in language of medical ethics code of conduct . Hitherto BAMS practitioners donot do Ayurveda practice rather they are involved in Allopathy practice which is again a misconduct and adultery. A report has been published in USA against Ayurveda medicine in depth . link Please read the report of U.S.department of health and Human service <https://nccih.nih.gov/health/ayurveda/introduction.htm> . University of God is organisation of Almighty B.B.B (God) . Prayer reaches to IT. Letters have been drafted by His order . I sent the complaint by a link which is there . Pl see the link and the entire scenario as regard Ayurveda medicine . You could realize how much negative aspect has been imposed in the report . My point of view is that old Indian treatment is out of New scientific understanding (mind and Nature) and their drug science (pharmacokinetics and pharmacodynamics) is also absent . Under such circumstances Almighty does not allow to practice Ayurveda by BAMS and to teach in MBBS course . Current Status : CASE CLOSED Your Feedback : Excellent Date of Action : 30 Nov 2017

Details : With reference to your grievance registered through online public grievance portal of Govt. of India it is informed that, the rights and privileges of the practitioners of ISM envisaged under the state Act under which the Practitioner has registered with.

Feed Back I dis agree as entire scenario of Indian Systems of Medicine and Homeopathy is based on wrong believes . You are endangering human lives in the hands of Quacks . And the basis is as under 3.6 Indian Systems of Medicine and Homoeopathy 3.6.1 The Indian Systems of Medicine and Homoeopathy consist of Ayurveda, Siddha, Unani and Homoeopathy, and therapies such as Yoga and Naturopathy. Some of these systems are indigenous and others have over the years become a part of Indian tradition. It is estimated that there are over 6 lakh ISM and H practitioners in the country. Many of them work in remote rural and urban slum areas and thus, could play an important role in improving the quality and outreach of health care. These practitioners are close to the community, not only in the geographical sense but in terms of cultural and social ethos. The cost of care is affordable and hence these systems have wide acceptance among all segments of the population. The National Health Policy visualised an important role for the ISM and H practitioners in the delivery of health services. Measures to popularise and develop Indian Systems of Medicine and Homeopathy have been vigorously pursued during the Eighth Plan. In order to give focussed attention to the development and optimal utilisation of ISM and H for the health care of the population, a separate Department for ISM and H was set up in 1995. Indian Systems of Medicine and Homeopathy Strengths of the system are: * There are over 6 lakh ISM and H practitioners * The practitioners serve in remote rural areas/urban slums * They are accepted by the community

Problems are: * Training institutes lack well qualified teachers and quality of training is not of requisite standard * Lack of essential staff, infrastructure and diagnostic facilities in secondary/tertiary care institutions * Potential of ISM and H drugs and therapeutic modalities is not fully exploited * Existing ISM and H practitioners are not fully utilised to improve access to health care

You are endangering human lives in the hands of Quacks . And the basis is as under 3.6 Indian Systems of Medicine and Homoeopathy 3.6.1 The Indian Systems of Medicine and Homoeopathy consist of Ayurveda, Siddha, Unani and Homoeopathy, and therapies such as Yoga and Naturopathy. Some of these systems are indigenous and others have over the years become a part of Indian tradition. It is estimated that there are over 6 lakh ISM and H practitioners in the country. Many of them work in remote rural and urban slum areas and thus, could play an important role in improving the quality and outreach of health care. These practitioners are close to the community, not only in the geographical sense but in terms of cultural and social ethos. The cost of care is affordable and hence these systems have wide acceptance among all segments of the population. The National Health Policy visualised an important role for the ISM and H practitioners in the delivery of health services. Measures to popularise and develop Indian Systems of Medicine and Homeopathy have been vigorously pursued during the Eighth Plan. In order to give focussed attention to the development and optimal utilisation of ISM and H for the health care of the population, a separate Department for ISM and H was set up in 1995. Indian Systems of Medicine and Homeopathy Strengths of the system are: * There are over 6 lakh ISM and H practitioners * The practitioners serve in remote rural areas/urban slums * They are accepted by the community Problems are: * Training institutes lack well qualified teachers and quality of training is not of requisite standard * Lack of essential staff, infrastructure and diagnostic facilities in secondary/tertiary care institutions * Potential of ISM and H drugs and therapeutic modalities is not fully exploited * Existing ISM and H practitioners are not fully utilised to improve access to health care

UNIVERSE "I"

Almighty B.B.B Teleporting Himself From Tachyon Sea To Earth . Only Message (quantum entanglement) Comes to B.B.Bs of Pillar And they transform into Nursing - Avatar . Unconditioned thought Expressions and Power of Almighty B.B.B

DEVELOPMENT OF THE UNIVERSE

Phenomenon of Teleportation and UPS in the mind of Almighty B.B.B (Allahtala) in Universe "I"

Dirac equation is illusion as mathematics does not have thought of mind and thought of Creator . Self positioning system (SPS) in brain triggers to know our surrounding and our location . It is being used by animals and birds during migration or navigation on earth . Global positioning system (GPS - computer) helps us to know our location and different place and their route on Earth . GPS does not make us to be lost in big cities if we have loaded origin and destination in our computer . There is one more system called universe positioning system (UPS). Our journey did not start with fertilization of ova with sperm rather it had started since origin of the universe(Tachyon sea) and our brain could predict our past and future transformations before we transformed into human beings . UPS helps to locate home of Almighty B.B.B (Tachyons Sea) as prayer reaches to Almighty B.B.B . All religions do IDOL worship of Two God particles in different ways. Unless brain sees idol of two God particles during worship (Fig 11) or during namaz devotee sees home of Almighty B.B.B (Allahatala or Tachyon sea) and structure of Tachyons (One Yang and many Yins) (Fig 2) by brain , worship is incomplete Teleportation is the phenomenon made by Almighty B.B.B (Creator of universe and Aliens) . As He descends from invisible universe (Tachyon sea) to Earth . First , message comes (first order of universe) to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in to any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship . For example Lord Jesus , Lord Krishna or

Lord Ram etc **The theory predicts that when** Almighty B.B.B teleports Himself , He (Creator of universe and Aliens) could tell exactly where Aliens reside in universe “I” .

Conclusion

Health is being maintained by knowledge (allopathy) and drug sciences (pharmacokinetics and pharmacodynamics). Ayurveda an ancient health maintaining system neither have right knowledge of human sciences nor it has drug sciences . Now Government or Ministry of Ayush wants to merge Ayurveda with MBBS teaching courses . It is called Adultery and malpractice in language of medical ethics code of conduct . Hitherto BAMS practitioners donot do Ayurveda practice rather they are involved in Allopathy practice which is again a misconduct and adultery. A report has been published in USA against Ayurveda medicine in depth . link Please read the report of U.S.department of health and Human service --<https://nccih.nih.gov/health/ayurveda/introduction.htm> . University of God is organisation of Almighty B.B.B (God) . Prayer reaches to IT. Letters have been drafted by His order . I sent the complaint by a link which is there . Pl see the link and the entire scenario as regard Ayurveda medicine . You could realize how much negative aspect has been imposed in the report . My point of view is that old Indian treatment is out of New scientific understanding (mind and Nature) and their drug science (pharmacokinetics and pharmacodynamics) is also absent . Under such circumstances Almighty does not allow to practice Ayurveda by BAMS and to teach in MBBS course .

Ayurvedic Medicine is under challenge . Unless it is passed by University Of God , All rights to practice it is banned . Please read the report of U.S.department of health and Human service <https://nccih.nih.gov/health/ayurveda/introduction.htm> , <https://www.nccih.nih.gov/health/ayurvedic-medicine-in-depth>

Ayurvedic Medicine is not guided by knowledge and it does not have drug science of pharmaco dynamics and pharmaco kinetics . Hence . This material is enough to bring ayurveda in the preview of SC order Supreme Court Order under adultery and adulterated practice of any pathy including allopath

With reference to judgment of Supreme court pl see link below

1 CRIMINAL APPEAL NO. 1460 OF 2012 (Arising out of S.L.P. (Crl.) No. 6975 of 2011)

Central Bureau of Investigation, Hyderabad Appellant(s) Versus K. Narayana Rao Respondent(s) J U D G M E N T by P.Sathasivam,J. in Para 22 ,it is clearly mentioned that **In the law of negligence, professionals such as lawyers, doctors, architects and others are included in the category of persons professing some special skills. Pl read para 22 and judgement .**

<http://www.pathlegal.in/No-FIR-against-Advocates-and-Doctors:Supreme-Court-blog-1563837>

J U D G M E N T

P.Sathasivam,J.

22) The High Court while quashing the criminal proceedings in respect of the respondent herein has gone into the allegations in the charge sheet and the materials placed for his scrutiny and arrived at a conclusion that the same does not disclose any criminal offence committed by him. It also concluded that there is no material to show that the respondent herein joined hands with A-1 to A-3 for giving false opinion. In the absence of direct material, he cannot be implicated as one of the conspirators of the offence punishable under Section 420 read with Section 109 of IPC. The High Court has also opined that even after critically examining the entire material, it does not disclose any criminal offence committed by him. Though as pointed out earlier, a roving enquiry is not needed, however, **it is the duty of the Court to find out whether any prima facie material available against the person who has charged with an offence under Section 420 read with Section 109 of IPC.** In the banking sector in particular, rendering of legal opinion for granting of loans has become an important component of an advocate's work. **In the law of negligence, professionals such as lawyers, doctors, architects and others are included in the category of persons professing some special skills.**
