Abstract

Divine Mechanics ( CCP, Code PcPs and CP ) underpins Formation of Vitamin D by Phototherapy (sun rays or Photon ) to prevent Ricket and osteomalasia . Divine Mechanics underpins to treat hyperbilirubinemia in infants by Phototherapy ( Photon ) . Divine Mechanics underpins formation of Glucose in Light reaction ( Photon ) by photosynthesis in plants. These are laws of nature and by virtue of conditioned thought expression of Basic Building Blocks ( Fig 1 ) . There is lawlessness in nature that is triggered by Divine Mechanics too to form Cancer by Sun radiations ( Photon ) . The same Divine mechanics underpins to treat cancer by Radiotherapy ( Photon ) . Hence we could conclude that photons are being used in many reactions if divine Mechanics ( thought expressions) is there to trigger that reaction . These are fed thoughts and feeding was done in pre creation era by Highest Center of Universe in BBBs that do take parts in above mentioned life reactions .

In AGE ( Prayer ) , Highest Center has made one more path to trigger reactions that are not destined in precreation era . It is called manipulation . By this modality we could reprogram nature according to our demand . Now our demand is to treat Covid 19 by low doses of UVL by Photo radiations ( Photon) as shown by Dr Madhav Saxena of BARC [1 (1) ] . There is no Divine Mechanics to trigger to treat Covid 19 at this setup. Hence we could manipulate it by adjuvant AGE [6] . Means saying “ O God help Us “ during UV Low doses radiation ( many sittings ) as designed by Dr Madhav Saxena . It is prediction of Spiritual Sciences . This manipulation ( AGE ) is oldest law ( Tool ) in nature or Fundamental Law and unconditioned thought expression property of BBB ( Fig 1 ) . At present out of 8 billions population about 4 to 5 billions people do believe in this strong tool and used to pray daily to manipulate nature or destiny [6] .

UV (Not in High Dose) [1(1)] to be used as sanitization.

UV RADIATION TO FIGHT CORONA VIRUS Source: Nature Group Journal ‘Physics Communications.’ The wavelength of UV radiation is between 10 nm to 400 nm. This has been divided into UV-A, UV-B and UV-C. UV radiation in the 200-300 nm range (UV-C), which is mild, is known to destroy the Corona virus, making it incapable of reproducing and infecting, according to Pennsylvania State University (US), which was involved in new research. UV radiation is one of two methods for sanitising and disinfecting public spaces from bacteria and viruses - the other being chemicals. This may also be noted that Sun rays which contain UV are widely used for Sun-tanning. Both chemicals & UV radiation are meant to disinfect public spaces only, not human skin. As per WHO UV lamps should not be used to disinfect hands or other areas of human skin. UV radiation can cause skin irritation and damage eyes. Welders use protective glasses to avoid damage to their eyes. To treat Corona virus with UV radiation, one needs sources that emit high doses of UV light for short duration of time. Such devices do exist, but as per Penn State Univ. these radiation sources are ‘typically an expensive mercury-containing gas discharge lamp, which requires high power, has a relatively short lifetime, and is bulky. The solution is to develop UV energy-efficient light-emitting diodes (LEDs). The research in this direction is in progress. In my Prototype Model I have used 40 W, EIGHT UV tube lights (marketed by Philips as Hg UV tubes), 4 in one panel and 4 in other panel. The two panels can be moved to and fro and on the panels two sets of tubes are placed crossed to get maximum flux in the middle. At the back of each panel there are four switches one for each tube. The flux or the intensity can be easily varied. The full set-up cost about Rs. 30,000. Source: Nature Group Journal ‘Physics Communications.’

What is New Physics or Physics of Mind?

- Quantum Consciousness – According to Physicists and Biologist
The nature of consciousness remains deeply mysterious and profoundly important, with existential, medical and spiritual implication. We know what it is like to be conscious – to have awareness, a conscious ‘mind’, but who, or what, are ‘we’ who know such things? How is the subjective nature of phenomenal experience – our ‘inner life’ - to be explained in scientific terms? What consciousness actually is, and how it comes about remain unknown. The general assumption in modern science and philosophy - the ‘standard model’ - is that consciousness emerges from complex computation among brain neurons, computation whose currency is seen as neuronal firings (‘spikes’) and synaptic transmissions, equated with binary ‘bits’ in digital computing. Consciousness is presumed to ‘emerge’ from complex neuronal computation, and to have arisen during biological evolution as an adaptation of living systems, extrinsic to the makeup of the universe. On the other hand, spiritual and contemplative traditions, and some scientists and philosophers consider consciousness to be intrinsic, ‘woven into the fabric of the universe’. In these views, conscious precursors and Platonic forms preceded biology, existing all along in the fine scale structure of reality.

My research involves a theory of consciousness which can bridge these two approaches, a theory developed over the past 20 years with eminent British physicist Sir Roger Penrose. Called ‘orchestrated objective reduction’ (‘Orch OR’), it suggests consciousness arises from quantum vibrations in protein polymers called microtubules inside the brain’s neurons, vibrations which interfere, ‘collapse’ and resonate across scale, control neuronal firings, generate consciousness, and connect ultimately to ‘deeper order’ ripples in spacetime geometry. Consciousness is more like music than computation.
Colleagues Travis Craddock and Jack Tusznyski and I also study how anesthetics act in microtubules to erase consciousness, and with Jay Sanguinetti, John JB Allen and Sterling Cooley, we are studying how transcranial ultrasound (TUS) can be used noninvasively to resonate brain microtubules and treat mental, cognitive and neurological disorders. 1.2 Mind and Mass Realities [2]

Fig. 1 Divine Mechanics Unit – CCP, CP and information s – Code PcPs with B-Bit – Mass

Atomic genetics is the branch of science where we investigate about fundamental interactions of the universe i.e. atomic transcription and translations. New words have been coined to understand hidden science of mind part of reality. Mind reality has been recognized as different faces by “I” about 5000 years back to Arjuna in Mahabharata as shown in Fig 1. It is just like to understand any language through Alphabets. These are (different faces) Alphabets of mind reality. One Mind reality has one face identity and the second mind reality has second face identity and so on. The facial expression represents phenomenon of intelligence and different faces represent different types of properties carrying property. The open eyes means property is activated while close eye means property is inactivated. In spite of carrying properties conscious ness they also know how to conduct not only origin of universe but also how to create two different universe i.e. next creation could be different from this creation. In all, it is automatic system of the universe. The mind realities which are of good properties have devtas face identity (first five faces on both side) and those mind realities which are of bad properties have demons face identity (last four faces on both side). These are named as code PCPs or messenger atomic genes. The central face is CCP or Thought script where all thoughts of the universe are banked. It is bank of data of all informations of the universe. It is face identity of Anti mind particles as data of all informations of the universe are stored as anti mind particles. It is the Time mind ness (biological clock) that keeps on expressing different thoughts from this thought script (CCP). There are four more faces (black bodies) shown on extreme left and right floating in fire are CPs (translating Atomic genes). That translates the messages and realizes it and reacts accordingly.[2]
1.3. Messages From Biological world to understand B.B.B world as shown in Fig 2

In participatory science, we take similarities from biological world to understand the B.B.B block world. One who knows biological transcription and translation, can also understand atomic transcription and translation.

1. Cell is anatomically and physiologically unit of the body. Similarly B.B Bs. are structural and functional units of the universe.

2. Cell functions (metabolic) are controlled by biological transcription and translation. Similarly, B.B.Bs. functions are controlled by atomic transcription and translation.

Biomolecules take part in biological transcription and translation are
- **DNA**- message storage system.
- **mRNA**- messenger molecule (carries message from nucleus to cytoplasm).
- **Ribosome**- translating molecule (it translates the message and works accordingly). Similarly, atomic genes that take part in atomic transcription and translation are-
  - **CCP**-thought storage system (omniscient). It is similar to DNA of the biological world.
  - **Code PCPs**- messenger atomic genes. It is similar to mRNA.
  - **CP**- translating atomic genes. It translates the messages and realizes the message and reacts accordingly.

The standard model not only modified rather it has been completed [3] with introduction of energized gravitons, primary fermions, primary bosons, Basic Building Blocks, Mind and Tachyons as shown in Fig 3.
Participatory science has coined some new words and there are some words which already exist in physics. Both these words are defined here and the definitions are according to participatory science. It has no relation with the definitions given in modern physics.

1. Mass - The part which gives shape to the smallest mass unit i.e. basics building blocks (B. B. Bs.) is called mass.

2. Matter: Mixture of fermions and bosons or only bosons which are made up of mass (B.B.Bs) and that is why we realize their shape is called matter.

3. Inertial mass: Mass (smallest mass units i.e. B. B. Bs) having inertial properties (classical inertia) either absolute rest or uniform motion in straight line is called inertial mass. Or Number of B. B. Bs. Per unit space present in bigger units is called inertial mass. Or Total matter contained by the bigger units or total number of fermions and bosons contained by the bigger units is called inertial mass. Therefore it never changes from place to place.

4. Gravitational mass: The mass (interacting surfaces) which takes part in gravity (divine energized gravitons theory) interaction (which is due to mind) is called gravitational mass. When gravity interaction increases (number of divine energized gravitons increases) the interacting mass (interacting surface) also increases or when interacting mass (interacting surfaces) increases, gravity interaction (number of divine energized gravitons) also increases. Therefore gravitational mass (interacting mass or surfaces) changes from place to place. It is the fed mind that decides gravity interaction. We shall discuss it in gravity chapter and in atomic genetics.

5. Pure m (matter) mass: matter mass (smallest mass unit or B.B.B) which have got inertial property of absolute rest.

6. Energy mass: Energy mass (smallest energy mass unit B.B.B) which have got inertial property of uniform motion in straight line and which also gives shape to the bigger energy mass (Higgs Bosons etc) units.

7. m (impure matter) of E=mC^2: Matter particles (fermions) which have got spin property are called impure matter particles.
1.4 Prayer message formation in brain.

**Fig 4** Divine Mechanics - Prayer message formation in brain

In atomic transcription and translation of prayer [5], following steps take place on Yang B.B.B – B-Bit as shown in Figure 4.

1. CP removes RM (repressor mindness-green) from OM (operating mindness-orange) thus induction of atomic transcription triggers.
2. OM triggers activation of free mind particles (black-inactivated code PCPs) of that thought script (magenta) of “o god help me”.
3. Free mind particles (black-inactivated code PCPs) get attached to anti mind particles script (magenta one) to form messenger thought script of “o god help me”.
4. Messenger atomic genes (black) get activated by anti mind particles thought script and further they get detached from anti mind particles thought script to form activated messenger atomic genes (activated code PCPs) (magenta) of “o god help me”.
5. CP carries phenomenon of splicing by translating the messenger activated atomic genes (activated code PCPs) and finally there is activated message of “o god help me” is formed.
6. CP represses atomic transcription by adding RM (green) to OM (orange). Thus atomic transcription gets halt.

Having formed the message it comes out in three forms.

In atomic genetic engineering (prayer) we use our basic power i.e. power of B.B.Bs. Our B.B.B. (higher center) talks with highest center of the universe by sending the message by first transcription. Till today nobody knows how does the brain generate thoughts. I am going to tell you that mystery too. In the frontal lobe the neurons are responsible for thought generation. In the neuron there is electrical activity called pacemaker activity which is occurring between dendrites and the body of the neuron. The membrane of the cell is made up of atoms and atom is made up of B.B.Bs. At the level of B.B.B. say thought of ‘O GOD HELP ME’ is expressed. As a result programmed messages of O GOD HELP ME (code PCPs) are formed. Out of three programmed messages, one is carried by atomic genes to highest center of the universe. It is called THOUGHT RAY (Quantum entanglement) which is made up of pure atomic genes and then the message goes through phenomenon called first transcription. They come out from brain directly. The other two messages are carried by photons from
nucleus of atom to electrons. Here they are modulated on electrical activity of the cell called pacemaker activity. Further they are modulated on actions potentials going towards REALIZING CENTER situated in brain stem (RAS) and from RAS to speech area situated in the frontal area. Target B.B.B.s of the realizing center finally realizes thought effect of O GOD HELP ME. While from speech area message goes to motor cortex again via RAS and from there to vocal cords and finally it comes out as a speech effect of O GOD HELP ME. In layman’s terminology formation of the thought ray means PRAYER as shown in Fig 4.

Where Does Prayer Message go?

Prayer message goes as shown in Figure 5 to highest center of the universe via first transcription where it is realized and it is accepted, the highest center sends two messages to B.B.Bs working as higher center in cancer cell. These messages are message of inhibition of abnormal thought expression and message of activation of normal thought expression. Having received the messages, higher center stops expressing the abnormal thoughts and it starts expressing the normal thoughts. As a result, there are no more abnormal programmed messages and in place of that normal programmed messages are there. Now the messages have shifted from abnormal (5 and 6) to normal (2 and 3). This shifting of thought expression is called ATOMIC GENETIC ENGINEERING as shown in Figure 4.1.

The changed messages reach to target B.B.Bs. through same route. Having received the changed messages, target B.B.Bs. stop expressing the previous programming and they start expressing the normal programming. As a result the cancer cells transmutate into normal cells. Or diseased cell gets cured [6] as shown in Fig 4.1.

1.5 Message system of the Universe

Before the origin of the universe [2] nature had only one type of message systems which is called FIRST TRANSCRIPTION. Messages (Code PcPs) used to go from one B.B.B. to another B.B.B. by atomic transcription. Messages were carried by atomic genes (Code PcPs) with very very high velocity. It is the fundamental message system.

After the origin of the universe, nature created atoms. It also created one more message system called SECOND TRANSCRIPTION. Here the message (code PcPs) are carried by photons from one atom to another atom with velocity of light. Thus atoms, molecules, cells, and even individuals talk with one another.
After the formation of the cell, nature created one more system called THIRD TRANSCRIPTION. Here there is a message storage system formed by DNA. There are messenger molecules called mRNA that carry message from DNA script to cytoplasm where the message (code PCPs) is read or translated by ribosome and they work accordingly. Thus the messages reach to enzymes and hormones and finally messages reach to target units. Having received the messages, target units work accordingly. Finally life effects (metabolic) are observed. These three types of message systems are working in the nature. These message system are being used by the nature according to nature's need. as shown in Fig 5.

**Fig. 5** Messages system of the universe
1.6 How does nature work & triggering of normal & abnormal effects

To understand creation physics as shown in Fig 6 and Fig 7. There are two types of thought stimulation [2]. One is CONDITIONED THOUGHT STIMULATION and other one is UNCONDITIONED THOUGHT STIMULATION.

STIMULATION OF THOUGHT EXPRESSION --- There are two types of thought expressions one is CONDITIONED STIMULATION of thought expression, and other one is self stimulation of thoughts i.e. UNCONDITIONED STIMULATION of thought expression.

At the time of the origin of the universe, all effects got created. The cause of all effects of the universe is THOUGHT expression. These thought expressions were triggered by UNCONDITIONED OR SELF STIMULATED WAY. It is the first step and it is followed by PROGRAMMING or formation of programmed messages by code PCPs. This programmed message moves from higher centers to target B.B.Bs. It is called INTERACTION. Having received the messages, the mind and mass of the target B.B.Bs. work in a synchronized way so as to produce the effects as thought by a the higher center. If the thought expression by higher center is normal, the shapes, properties and laws produced by target B.B.Bs. would be normal and if the thought expressions are abnormal, the shapes, properties and laws would be abnormal. This is the basic concept of transmutation phenomenon. Finally what we observe is called EFFECT. Appearance of new shapes, properties and laws is called TRANSMUTATION. The first three steps are collectively called CCP. During transmutation process if CCP is written, it does mean that unless the thought, programming and interaction take place, nature cannot transmute. Transmutation phenomenon is seen in particles, atoms, molecules and even in cells. The basic steps of any transmutation remain the same except that the thought expressions differ. The subatomic particle are made up of more fundamental particles called Basic Building Blocks (B.B.Bs) which are made up of mind and mass. These B.B.Bs are divine in nature with the result they talk with each other by phenomenon called atomic transcription and translation (thought expressions). The triggering of broken symmetry is caused by atomic transcriptions. Unless the atomic transcriptions occur, subatomic particles could never exhibit phenomenon of broken symmetry. So the broken symmetry is never spontaneous. It is being misunderstood that sub atomic particles do have spontaneous activities as far as broken symmetry is concerned. Hence the Nobel prize physics 2008 awarded to this work is too early to give prize.
Fig. 6 Divine Mechanics - How Does Nature work?
1.7 Message network of the Universe (Feed Back Mechanism and different centers of the Universe)

With the origin of universe, nature first created primary units i.e., primary fermions (gravitation) and primary boson; these primary units are equipped with one higher center (one B.B.B.) and rest of the B.B.Bs. are working as lower centers or target B.B.Bs.[2] After primary units, nature created secondary units i.e., secondary fermions and secondary bosons; similarly nature created tertiary units (lepto-quarks) and then quaternary units (protons & neutrons).
Each unit is equipped with higher centers, lower centers and target B.B.Bs. After quaternary units nature created atomic units, molecular units, complex molecules of life units, organelle units, cell units, tissue units, organ units, system units and individual units. Each unit is equipped with higher centers, lower centers, and target B.B.Bs. Similarly nature created satellite units, planet units, solar system units, galaxy units, super galaxy units, dark matter layer unit. These units are also equipped with higher centers, lower centers and target B.B.Bs. Thus our universe is divided into different units and each unit is equipped with higher and lower centers. All higher centers are under control of highest center of the universe by efferent paths. This efferent path is made up of first transcription. Higher centers can send messages to highest center of the universe by afferent path or feed back path. Thus highest center of the universe is well informed about all effects of the universe. Messages can come from lower centers to higher centers and from higher centers to highest center of the universe via afferent path. The highest center of the universe can send messages to higher centers and from higher center to lower centers. There is an inter unit message network also which is made up of first, second and third transcription depending upon the nature's need. Thus the entire universe is under control of highest center of the universe. Highest center can change any programming programmed by it during pre creation era as shown in Fig 8.

**Fig. 8 Messages Network of the Universe**

1.8 Origin of the universe [7]
Before the origin of the universe, these Basic Building Blocks (B.B.Bs) as shown in Fig-9 were in the form of tachyons as shown in Fig-9 [7]. It means that at that time the tachyons were everywhere in the universe. Let us look at the structure of tachyons; it is made up of one matter B.B.B. (YANG) and many energy (YINs) B.B.Bs. Initially out of the infinite tachyons, one became the highest center of the universe. Messages used to go from highest center to rest of the universe and messages could come from rest of the universe to highest center of the universe by atomic transcription. Thus highest center had fed its thought to rest of the B.B.Bs. that would take part in creation - that they would express only those thoughts to give desired effect as wished by the highest center of the universe. So all B.B.Bs were informed about their role before creation of the universe. In pre-creation era programming of the future universe was done by highest center of the universe.

Our universe is oscillating and it is a divine universe. It means that it has a creation phase and a destruction phase. During creation phase tachyons break into their B.B.Bs. and from these B.B.Bs, formation of fermions and bosons take place as shown in Fig 3.1. After the creation phase, destruction would start and in this phase all created particles would again break into their B.B.Bs and finally tachyons would form.

At the time of origin of the universe, all the effects got created. These effects are taking of different shapes and appearance of properties and laws. All these effects are studied in various branches of science.

With the origin of the universe, nature first created a sphere of COLD DARK MATTER (C.D.M) and canals in it. With the result space got created. At the other end of the canals, hot reaction started (the relics are back ground radiations 2.7 degree K of our hydrogen clouds). As a result hydrogen clouds and lot of radiations were created. The empty canals were filled by these hydrogen clouds and radiations and thus QUASARS appeared in the universe. Simultaneously C.D.M. layer started expanding and clouds and radiations kept on coming in this closed universe as shown in Fig 9. With the passage of time more and more C.D.M. layer formed, more and more quasars
formed. The hydrogen cloud came in this closed universe. They started running towards C.D.M. layer as they were attracted by the gravity of C.D.M. layer. Those clouds, which were nearer, moved faster than those, which were away from CDM Layer. The HUBBLE LAW, can thus be explained. With some more passage of time, clouds were joined to form GMC (giant molecular clouds). Later by self-gravitation different proto stars, proto planets, proto satellites were formed. Finally stars became bright and thus bright galaxies appeared in this universe. Our universe is still in expansion phase and creation is still going inside quasars. It is to be remembered that highest center of the universe does not come in the visible universe. It keeps on receiving the messages by atomic transcription and it has power to change any programming programmed by it during pre-creation era.

It is the atomic genes which constitutes mind part of reality. Mind incorporation in physics is awaited as theory of every thing is not yet investigated. I have investigated theory of every thing (ToE) and I found that while studying unified theory at the time of origin of the universe by Hoyle Narlikar universe, it was mind reality that triggered symmetry breaking phase. It is mind reality that triggers oscillation phenomenon of the universe. It is the mind reality which is behind perfect cosmological principle. There is nothing like artificial intelligence in the universe. These mind particles constitute intelligence of the universe that controls the deterministic order of the universe. It is the mind reality behind all effects of the universe. But this is not our mind rather it is mind of Almighty B.B.B (Yang B.B.B or matter B.B.B. or Male B.B.B working as Highest center of the universe). His mind could be manipulated by prayer only. as shown in figure 9.1 and 9.2

1.10 Divine Mechanics and Brain Computation

Learning and Memory and information (Code PcPs) Network in Brain [10]

![Diagram of Divine Mechanics of Brain Computing System – Learning and memory](image)

At all steps, these are B.B.Bs (B-Bit) that are responsible for information’s control and triggering. If CCP is written it means unless atomic transcription and translation occur, brain cannot have learning and memory triggering and control and it is called Divine mechanics of Biology and it is life. These are higher thought expressions of B.B.Bs. In Bits of classical computers and qubits of QC, the thought expressions are lower and different but the mechanics (DIVINE) remains the same, as shown in Fig 12.
Physics dictates the lowest limits of size of chip but **DIVINE mechanics does not**. Hence the bit is a typical unit of information. ((Classical and Quantum Bit ) is wrong and to describe informations by adding qubit is also illusion as in complicate system ,it is the different thoughts expressions that describe informations . Informations are separate ( Code PcPs ) and bits ( Electron of transistor ) qubits ( electron of diamond crystal ) are separate. At DNA level the bit is nucleotide (A,T,C,G ) and at Atomic level the bit is photon and electron , at particle level ( secondary fermions and secondary bosons ) the bit is primary fermions and primary bosons and informations are still code PcPs and at B.B.B level the bit is B.B.B ( Yang mass and Yin mass - B- bit ) it self and the information is carried by Code PcPs but at all level of all bit units the information storage system is CCP ( Physiological arrow of Time ) it never dies even after destruction of the universe. Hence informations are eternal . In computers, Bit is a structural configuration that describes informations of the system and informations are in form of Code PcPs. The working of the bit is triggered and controlled by thoughts of higher centers that form that bit. If the bit is classical ( transistors of chips ) the effect is different . But if the bit is qubit with entanglement the working is triggered and controlled by thoughts of higher center that form that crystal . In both the effect of describing informations would be different.
One is classical (thought expressions are fixed and limited) and other one is quantum (thought expressions are changing and more wide to describe the more wide complicated system to have fast results). In life sciences in Brain the bit is again Photon and the information are Code PcPs and they are triggered and controlled by CCP of higher centers that is triggered by DIVINE MECHANICS.

In life sciences the CCP (cryptography) of B-bit expresses information’s (Code PcPs) which were not fed like speaking Lie and unlike Bit of classical computer and qubit of QC it shows phenomenon of forgetfulness and IQ phenomenon (mental age/real age). It is Higher functions of B.B.B or B Bit and it is life. Hence there is difference in some aspect of DIVINE MECHANICS of Computers computation and Brain computation.

Structure

2.1 Modified theory of atomic structure as Niels Bohr’s theory has limitations in explaining different series of hydrogen spectra. Please see analytic survey Impact factor in 12 months

New assumptions of structure of hydrogen atom. – Divine Modified Niels Bohr’s Theory (Divine MONB Theory) as shown in Fig 14

1. Hydrogen atom is like a miniature solar system with the negatively charged electron moving in circular orbit around positively charged nucleus having positively charged particle proton. In this circular orbit or stationary orbits, electron is being held by single string of energized gravitons. This energy level is called ground state.
2. When Hydrogen atom is excited, the electron moves from ground state to excited state energy levels making a bigger circular orbit and having reached in this new energy levels, it also emits radiations. Hence absorption and emission of energy quanta occur simultaneously. Shifting is understood in interorbital shift phenomenon.
3. When excitation is over, the electron once again come back to ground state energy level. All above mentioned events are triggered by different thoughts or atomic transcriptions from the nucleus or proton in case of hydrogen atom.
4. These atomic transcriptions are being triggered by conditioned stimulation of CCP by the message system made up of photons (second transcription or –ve charged photons or afferent path) coming from electron to proton and further they are transmitted by photons (second transcription made up of +ve charged photons, or efferent path) to electron. Having received the messages, electron works accordingly. Unless the thought is expressed, nature cannot work as shown in Fig 14.
5. When electron is in ground state, its interaction with energized graviton and electromagnetic photon is more hence IP -13.59ev (n=1) is required to remove electron from this energy level. During excited stage the interaction is different hence I.P. to remove electron from this state is -3.4ev (n=2), -1.511ev (n=3), -0.850ev (n=4), -0.544ev (n=5) respectively. It the changing thought of interaction with energized graviton and electromagnetic photons that gives changing effect.
6. Electronic configuration of higher atoms could be known by studying IP curve. Working of hydrogen atom as shown in Fig 14.

In phenomenon of, following steps take place on Yang B.B.B – B-Bit of Corona Virus (Figure 20). It is TM that triggers and regulate the thought expressions by activating CP of that script.

1. CP removes RM (repressor mindness-green) from OM (operating mindness-orange) thus induction of recall is triggered.
2. OM searches learning mindness on Anti mind particles (Anti mind particles script) of that thought script (blue filled circles-open eye) of “Programming and deprogramming of Corona Virus 2019 separately”.
3. But as that learning mindness is there with opening eyes of learnt anti mind particles.
4. Inactivated code PcPs “Programming and deprogramming of Corona Virus 2019 separately” mind particles triggering to lock on Anti mind particles script.
5. Formation of activated code PcPs “Programming and deprogramming of Corona Virus 2019 separately” as stored messages was there in form of memory (open eye).
6. Finally there is activated message of “Programming and deprogramming of Corona Virus 2019 separately” is formed (Filled magenta circle–open eyes) by CCP (filled circle blue–open eyes). CP makes phenomenon of splicing.
7. CP represses act of recall memory by adding RM (green) to OM (orange). Thus recalling information of “Programming and deprogramming of Corona Virus 2019 separately” get halted.
2.4 Prayer message formation in brain. “ O God Help Me “

Fig 21 Divine Mechanics - Prayer message formation in brain

In atomic transcription and translation of prayer, following steps take place on Yang B.B.B – B-Bit as shown in Figure 21.

1. CP removes RM (repressor mindness-green) from OM (operating mindness-orange) thus induction of atomic transcription triggers.
2. OM triggers activation of free mind particles (black -inactivated code PCPs) of that thought script (magenta) of “o god help me”.
3. Free mind particles (black -inactivated code PCPs) get attached to anti mind particles script (magenta one) to form messenger thought script of “o god help me”.
4. Messenger atomic genes (black) get activated by anti mind particles thought script and further they get detached from anti mind particles thought script to form activated messenger atomic genes (activated code PcPs) (magenta) of “o god help me”.
5. CP carries phenomenon of splicing by translating the messenger activated atomic genes (activated code PcPs) and finally there is activated message of “o god help me” is formed.
6. CP represses atomic transcription by adding RM (green) to OM (orange). Thus atomic transcription gets halt.

Election 2014 is fake. During prayer we talk with Almighty, similarly Almighty tells me also. This message was being delivered to election commission by His order. His wish is supreme and constitution of India is secondary to it. The mandate given by people of India is fake and discarded.

Mr Sampath did not obey His order. He is found guilty and charged contempt of God. Those who do not obey Almighty would be found guilty and would be charged contempt of god - the highest punishment of universe. Be sincere towards Almighty.

Dear Sir,

Almighty would rule this country in future. Hence your decision to conduct election 13 in 2014 is not fair rather against the wish of Almighty. Please review your decision. Our constitution does not allow Almighty to rule. Hence constitution should be modified or it should be discarded.

2.7 Erroneous SC Judgment based on Believes without any evidence That it is Ram Janma Bhoomi Sthal.

Faith and belief of the Hindus as depicted by the evidence on record clearly establish that the Hindus believed that at the birth place of Lord Ram, the Mosque was constructed and three-dome structure is the birth place of Lord Ram. The fact that Hindus were by constructing iron wall. dividing Mosque premises, kept outside the three-dome structure cannot be said to alter their faith and belief regarding the birth place of Lord Ram. The worship on the Ram Chabutra in the outer courtyard was symbolic worship of Lord Ram who was believed to be born in the premises.

170. It is thus concluded on the conclusion that faith and belief of Hindus since prior to construction of Mosque and subsequent thereto has always been that Jamma Masjid of Lord Ram is the place where Babri Mosque has been constructed which faith and belief is proved by documentary and oral evidence discussed above.

PART II

319. The fifth defendant has, in his written statement, denied the locus of the Niyas. Besides this, it has been submitted that the premises have always been a mosque since its construction in the sixteenth century and were used by Muslims for offering namaz and for no other purpose. The fifth defendant denied the juridical status of the first and second plaintiffs and the locus of the third plaintiff. In an additional written statement filed jointly by the Sunni Central Waqf Board and the fifth defendant, the contents of the amended plaint have been denied and it has been urged that the claim in regard to the idols stood extinguished after they were removed on 8 December 1992.

1. Whether the first and second plaintiffs are juridical persons.

- Justice S U Khan – The idol is duly capable of holding property.
- Justice Sudhir Agarwal – Answered in the affirmative – both plaintiffs 1 and 2 are juridical persons.
- Justice D V Sharma – Decided in favour of the plaintiffs.

2. Whether the suit in the name of deities described in the plaint as the first and second plaintiffs is not maintainable through the third plaintiff as next friend.

- Justice S U Khan – Followed the decision of Justice Sudhir Agarwal.
- Justice Sudhir Agarwal – Suit held to be maintainable.
- Justice D V Sharma – Suit held to be maintainable.

3. Whether the idol in question was installed under the central dome of the disputed building (since demolished) in the early hours of December 23, 1949 as alleged by the plaintiff in paragraph 27 of the plaint as clarified in their statement under Order X Rule 2 of the CPC.

- Justice S U Khan - The idols were placed inside the mosque for the first time during the night of 22/23 December 1949.
- Justice Sudhir Agarwal – Answered in the affirmative.
- Justice D V Sharma – Answered in the affirmative.

4. Whether the same idol was reinstalled at the same place on a Chabutra under the canopy.

- Justice S U Khan – Adopted the findings of Justice Sudhir Agarwal.
- Justice Sudhir Agarwal – Answered in the affirmative.

Conclusion

BISMILLA Rehman Rahim means VANDEMATRUM means honor and worship of female God particle or shakti ma idol or Allah CURATIVE PETITION CONTINUES.

Statue of Lord Ram of Ayodhaya would be demolished and broken by order Mahakal or Almighty Court of Justice wef 2.10.20. Creation Lord Ram has no status or his right is fake before Creator of Universe or Lord Natraz BBB to enjoy Mahakal's birth place (to be enjoyed by Lord Ram is Adharmah) dated 22 23 Dec 1949 as Mahakal reincarnated on Earth witnessed by Barkat Ali and evidence is noted in FIR 23 Dec 1949 at Faizabad Police Station. The birth place of Ram Janma bhoomi sthal an erroneous judgment by SC dated 9.11.2019. By UOG

Creator Lord Natraz or Allah ho Akbar has ordered to demolish Ram statue right now that is situated in His land of Ayodhaya that he won from SC order dated 9.11.19 as It is His victory and Ram is His Creation not like Him Creator of Universe. Hence Ram status is Zero before Almighty God Lord Natraz or Allah ho Akbar. His flag of Lord Natraz would be hosted there

Statue of Lord Ram would be demolished and broken by order Acj.

Those who worshiped there on 5th Aug 2020 making it Ram janma bhoomi sthat Like Modi and all trustees of Ram janma bhoomi sthat are Fake trust and ordered to be arrested as they insulted Creator bbb or Lord Natraz bbb who reincarnated on Earth on 22-23 Dec 1949 as Lord of universe. This evidence has not been taken as evidence in SC order dated 9.11.2019 Hence SC order is erroneous and torn by Almighty court of justice.

Babri Mosque was Symbol of ADHARMA. Means illusive Islam of Mohamad Sahib that prohibits idol worship and kills those who do idol worship means Islamic Jihad and it is Anti Quran act and Anti Quran MOVEMENT and penalty is as equivalent to apostasy and shirk of islamic law ie death. Means namaz is idol worship of tachyon particle which are made up of two God particles or ardhnareshwar or satyam shivam sundaram or smallest idols of universe and their reconstruction on Earth is Lord Natraz or Allah ho Akbar bbb or secondary God of science. Hence put idol of Lord Natraz or Allah ho Akbar bbb in all mosques of world and offer namaz before idol of Lord Natraz or Allah ho Akbar. Failing which would be considered misconduct and punishable offence and penalty is as equivalent to apostasy and shirk of islamic law ie death or leave this Earth right now.

Lord Natraz or Allah ho Akbar bbb that reincarnated on Earth on 22-23 dec 1949 in middle gummed of Babri mosque and witnessed by Barkat Ali and FIR is logged where this evidence is recorded. SC judgment 9.11.19 didnot take this evidence. Hence SC judgement is erroneous and torn by Mahakal or Lord Natraz or Allah ho Akbar as it is His birth place rather than Lord Ram who is Creation and does not have honor of Almighty God Lord Natraz or Allah ho Akbar or Creator of Universe. Hence believing it Ram janma bhoomi sthat is Adharmah and statue of Lord Ram being creation is Symbol of ADHARMA as this disputed place is birth place of Creator of universe or Mahakal or Lord Natraz or Allah ho Akbar bbb.

Like Babri mosque being symbol of ADHARMA and demolished. Similarly statue of Lord Ram being symbol of ADHARMA as Ram is making hindrance by calling it Ram janma bhoomi sthat which is a fake nomenclature as this land belongs to birth place of Mahakal or Lord Natraz or Allah ho Akbar bbb as He reincarnated on Earth on 22-23 dec 1949. He is annoyed of SC judgment and He triggered spread of Covid 19 since 17.11.2019 globally and making TANDAV or His unpleasantness on SC decision. Hence in Curative petition He TORN the 1045 pages Judgment of SC dated 9.11.2019.
Like Adharma Babri mosque demolished , similarly ADHARMA statue of Lord Ram in Ayodhaya would be demolished by Mahakal or Lord Natraz or Allah ho Akbar bbb.

Demolishing ADHARMA Babri Mosque is not Crime in the eyes of Almighty God Lord Natraz or Allah ho Akbar bbb. Similarly demolishing ADHARMA statue of Lord Ram who is creation and no more Almighty God or Creator enjoying fake honor and worship by fake judgment of SC dated 9.11.19 deserves demolition as disputed land belongs to birth place of Mahakal or Lord Natraz bbb or Allah ho Akbar only . Demolishing statue of ADHARMA Lord Ram is not Sin in the eyes of Mahakal and No FIR would be registered against any person who does this act of demolishing statue of Lord Ram who is Creation not Creator of Universe like Lord Natraz bbb.
