Abstract: This development targets to contribute remedies (medicine) which are fresh or idle. The new remedies can be given for further utilization by a poor person. This application helps the user to contribute unused remedies to NGO. In this body there are three person namely, Admin, NGO and User. Admin will login and manage users by deleting and blocking the users providing improper or expired medications. Admin also has consultant to like the appointment asked by NGO. Admin has monthly noise of remedies which has been contributed. NGO can register and login using authorizations. They can promote a request of appointment which will added more appropriate and list by admin. NGO manages the normal which helps to preserve the record of the existing remedies. In case of safety NGO can also modify their PIN. Users can register and login using authorizations. They can donate remedies by providing remedies detail and raising demand, further it will be agreed by admin and NGO, they will schedule the donating date. Users can also check their previous data of remedies transactions.

Keywords: PHP, XAMPP, APACHE, HTML, CSS

1. Introduction:
A donation of tablets, when well organized and controlled, can save lives and ease the suffering. Actual donation practices can provide savings in budgets for development funding, so that these facilities can be used for other purposes. The "Online Medicine Donation System" serves as a bridge between an immense network of medication donations and NGO’s, Old Age house. A NGO is a non-income-driven organization self-governing of States and all general administrative organizations. They are usually supported by blessings, yet some completely avoid official funding and are run by volunteers in soul. Users of Internet have increased rapidly in the last one or two years and counting is still on it becomes very easy for users to use the website. As we realize there are several current donation sites for pharmaceutical items, they are not up to the standards and require more manual data treatment. We can developing new and upcoming image processing technologies to overcome this problem in future. With this technology we can solve all the above-mentioned difficulties and have a very user friendly website.

2. Literature Survey:
This website comprises of use of left-over stuff or item which can be used by poor one. this site comprises of the many required depressed from number of NGO which will acknowledge our client’s gift. Client will have the full track of their file. Guidelines for Remedies Donations Revised 2010 World Health Organization Library Cataloguing in Publication Data Guidelines for remedies donations in revised 2010. 1. Pharmaceutical preparations for supply and distribution. 3. Relief work. 4. Increased r funding and are run by volunteers in soul. Users of Internet have usually supported by blessings, yet some completely avoid official governmental organizations and all general administrative organizations. They are wide development non-driven organization self-governing of States and all general administrative organizations.
