Abstract:

Today's young age bracket is more enthusiastic and innovative than the prior generation; this research seeks to scrutinize the attentiveness of young generation involvement to make country has Aatmanirbhar Bharat. The objective of the present paper perhaps nature of exploring young Indians concern and exertion to make India has a self reliant nation. In this technological world India is still a developing country it's really an eye-opening artifact. One of the considerable complications, we came across the survey is that there is an insufficient familiarity of swadeshi products among the citizens while there are many of innovative products. However there is an enlarged drive for self – reliance globally in present scenario.

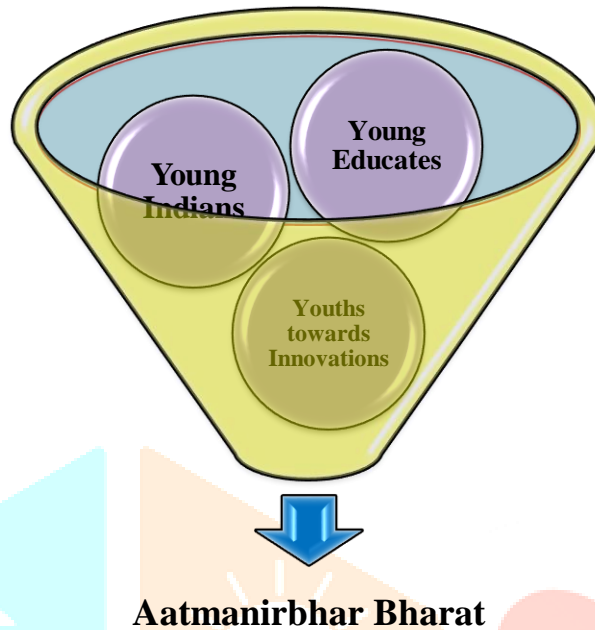

Keywords: Self-reliant, young generation, Attitude, Aatmanirbhar Bharat, Swadeshi Products

Introduction:

If the country wants to be respected by the fellow countries, it should demonstrate that it can survive healthier without them. To execute this it's feasible merely with young Indians who are treated as upcoming stars of our country. If the country is not upward believe that the science foundation is not up to the mark among the youths. If science, technology and research resources are copious and vigorous in the country and well-timed available to young generation at their little age then the country can become self – reliant undoubtedly because by this the present practice of massive importation will be reverse. In country like India at current scenario the land is bright but not full of opportunities for educated youths, this to be changed in upcoming years because one or the other day they are going become an both employer or employee with their new ideology, which could indirectly leads to boost in Indian economy.

Without any hesitation, youth are the future of any country. But India can take lead over many other nations because about 65 per cent of the country's population is below 35 years and 50 per cent is below 25 years.

With huge, educated young inhabitants, India is distinctively poised to realize the demographic potential and reap the advantage of this vast powerhouse of human resource talent. The fact that Indians are heading numerous MNCs shows that there is no insufficiency of knowledge and capacity in the country. New Education Policy -driven in 21st century will increase the speed of self-reliance.

Review of literature:

Aatmanirbhar Bharat My Govt. in (2020) Prime Minister of India stated that when India speaks of becoming self-reliant, it does not uphold a self-centered system. In India's self-reliance, there is a concern for the whole world's happiness, co-operation and peace.

Swadeshi movement is also known as MAKE IN INDIA movement launched in the year 1905 by Mahatma Gandhi which instructed to boycott British products and put into use the products made in India

Aatmanirbhar Bharat Abhiyaan or Self-reliant India campaign is the vision of new India envisaged by the Hon'ble Prime Minister Shri Narendra Modi. On 12 May 2020, our PM raised a clarion call to the nation giving a kick start to the Aatmanirbhar Bharat Abhiyaan (Self-reliant India campaign) and announced the Special economic and comprehensive package of INR 20 lakh crores - equivalent to 10% of India's GDP – to fight COVID-19 pandemic in India.

India's Prime Minister, Narendra Modi is regarded as an accomplished leader with tremendous oratory skills. In his fourth address to the nation (dated 12 May, 2020) since the COVID-19 outbreak, he suggested that the state of world today teaches us that an 'Aatmanirbhar Bharat' (self-reliant India) is the only path.

Objective of the Study

- The main objective of the study is to examine how Young Indians can become a Warrior towards making Country a Self Reliant Nation
- To recognize the interest of young generation towards building a smart India
- To identify how youths are familiar with Aatmanirbhar Bharat Concepts
- To ensure the Young Indians Perception with Vocal for local
- To analyze the interest of young Indians towards swadeshi products

Research Methodology:

The data for this study are taken from the youths who are eligible to analyze country's uplift. The data collection techniques used in this study consist structured questionnaires on Google form. This study employed a variety of questioning techniques to encourage and ensure youth thoughtfulness towards self reliant nation.

Self Reliant Nation and Young Indians:

If Nation desires to grow to be a self reliant; initially the citizens who are positioned in the country be supposed to turn into independent, for the reason that they are the inhabitants who contribute towards the country. In every single nation Education, Employment and Empowerment stands in a mainstream for the growth and progress of a country. When young age group get expert based tutoring through New Education Policy it is going to be optimistically banged on self reliant nation for the reason that in present circumstances youths are exceedingly inventive and advance in all the areas. Youths are agreeable to take chances, face obstacles, and work hard to achieve their intention but they necessitate an opportunity because it leads to countries advancement.

For most of the part momentous responsibility in nation building is played by a country's youth, consequently Young Indians be supposed to build a foundation at this moment for a prosperous future of themselves and a country too, if we wish to see a country has self reliant. If any country to be self reliant the country's youth should contribute towards the countries long-standing growth.

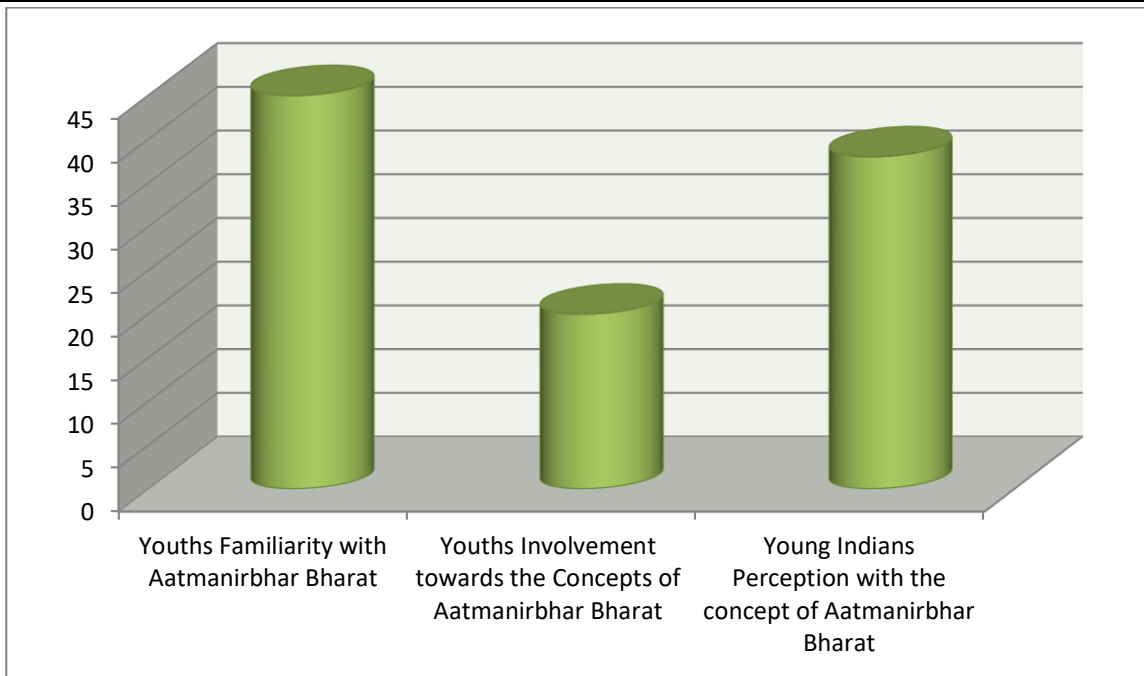

Young generation must get opportunities to put their energy and talents to work for their own growth as well as the country's economic growth, which will sooner or later contribute to the country's overall achievement and development. Youngsters should be included in all the national activities and nation's work.

The main objective of Smart India Mission is to build young India and younger generation where infrastructure and other prerequisites are effortlessly accessible and affordable to everyone. Youths aim to offer comprehensive support to build a smart India.

Youths Familiarity with Aatmanirbhar Bharat Concepts:

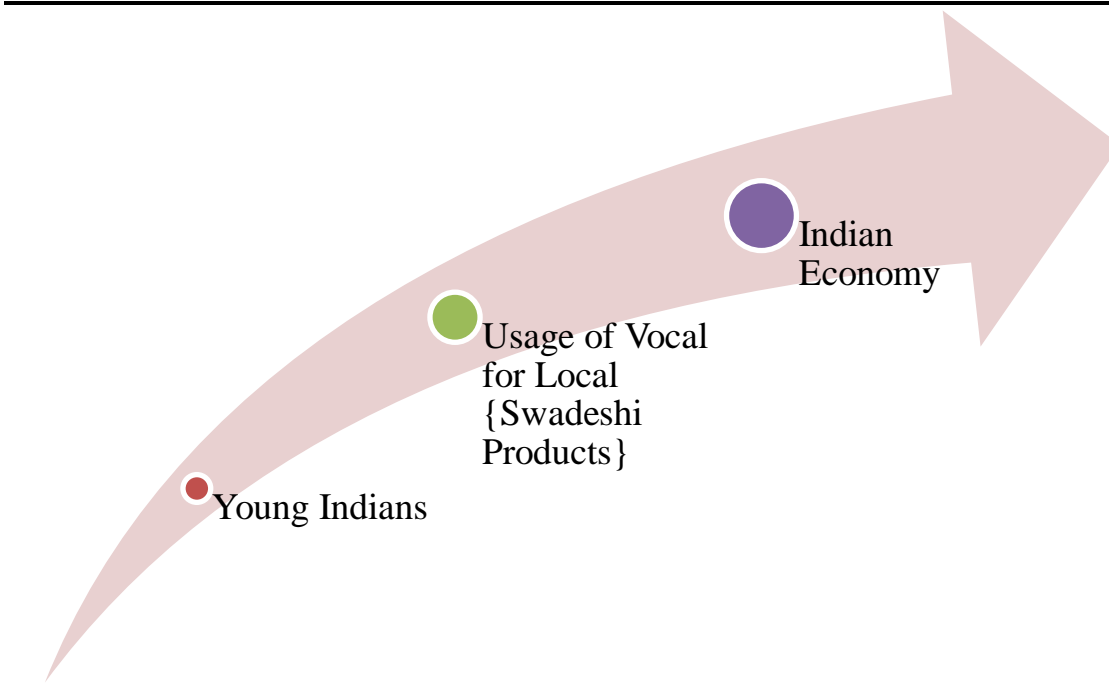

Youths are indeed the future of the country and should be represented at every level, hence the role of youths in Aatmanirbhar Bharat is more important than you might think, because the intelligence, involvement and innovations of the work by the youths will take the country on the pathway of self-reliance. In the direction to get better the existing unstable economic background and boost up the poor economy, the prime minister of the country Mr. Narendra Modi has the vision to make India a self-reliant nation. The main aspire of the concept is to make the country independent with a greater focus on local manufactures and service providers. This will help the country to reduce its dependence on the other country. Aatmanirbhar Bharat is a step to make the country self-reliant so the young generation should have more concurrent dreams, passion and hope for making it to get success.

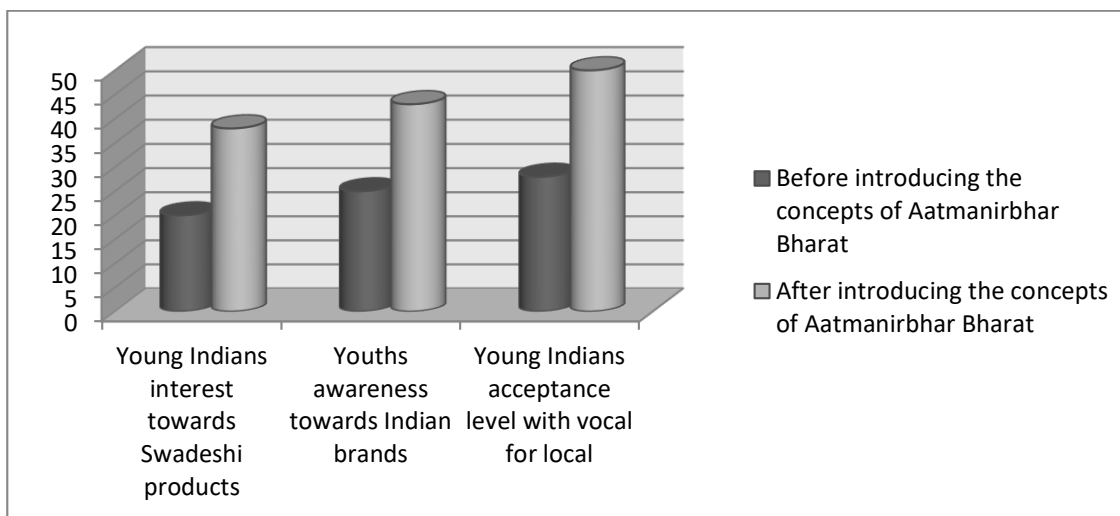

Young Indians are much aware and very familiar with the concept of Aatmanirbhar Bharat but through the survey we came know that their involvement is least, this should not be carried out further because they have the ability to create an identity for themselves and move the nation forward because knowledge and unity speaks a lot rather than the experience. However, they will not be able to do this without the support of community, society and fellow youths.

Youth's perception with Vocal for Local and interest towards Swadeshi products:

The Indian Prime Minister's televise address to the nation on 12 May 2020 included a financial package of Rs 20 lakh crore to breathe life into India's hindered economy on account of COVID-19. Concurrently, the package intended to kick start a process towards making India self-reliant. Besides the financial stimulus, the PM spoke about the importance of India as a huge local market and how India has the potential to take its local products global. Prime Minister fatigued that the victory of Aatmanirbhar Bharat Abhiyan depends on efforts by youth. After Prime Minister Call for vocal to local a good number of the Indian youths preferring to domestic products, this swing over is on the whole for the sake of patriotism.

If young Indians take an initiative by opting made in India products, Indians will turn out to be revolutionize in placing country in a superior consign. When there is an augment in the habit of swadeshi products in the democratic country like India lakhs together people will get better their livelihood.

The insurgency of ‘Swadeshi’ products seems to have begun again. However the young Indians wing is towards Swadeshi brands. Prior to introducing the Aatmanirbhar Bharat young Indians are not much wide awake of the local talents and even there is no much comfort in opting for local brands. At present circumstances the image of Aatmanirbhar Bharat is progressively changed the young Indians mind and even they are showing interests towards usage of local brands which contributes to a country in making a nation a self reliant.

CONCLUSION:

Government and Non – government organization ought to take an proposal and responsibilities in order to build enthusiasm among youths towards the usage of swadeshi products, increase in usage of swadeshi brands it eliminates unnecessary import and demand for foreign brands. Young Indians can become a warrior to make country self reliant by being an independent i.e., using more Swadeshi products and inculcating vocal for local. Youths should always be harnessed for the encroachment of our dazzling India. Young generation should act has a motivator for Aatmanirbhar Bharat concepts in order to ensure an enhanced tomorrow and a brighter future. Youth's eagerness and motivation are decisive for driving progress towards our country's long – term growth. In order to build a country self – reliant social peace, infrastructure, advancement etc., Is all the part of nation building, youths involvement in this is much important. Since youth are the country's most powerful force, significant efforts must be made to make country self reliant. Young people are overflowing with ideas and have a never-ending supply of energy to bring them into action; they should get an opportunity through Aatmanirbhar Bharat because it would be a very positive impact on Indian economy. If Youths are encouraged, with in the passage of time they have the ability to make country a self reliant and they can be warrior in making it too.
