Addicted to internet like children and teenagers expressed by these words in the present age there will be no such person in the world who is untouched and ignorant of the effects of internet. Right now every person is getting affected and wickedly affected by the internet. The effected of internet is getting good on human beings. Then somewhere the effect is also getting its best and worst effects are being seen more in our children and they consider the online world as their everything because they find the solution of every curiosity here without any rules.

Keywords : - Internet, Addiction, children, Adolescence.

This research has been done on children and adolescents in interest addition. There is no doubt that in the present times, a large part of the world of teenagers or so to say. Internet itself has became the biggest part of their let’s say life itself has become. Because child and adolescent due to the difference of the generation the solution of their every curiosity has taken the internet before the parents. They use internet to solve any problem and solve their problems without any question, without any restrictions through the internet. The curiosity of teenagers is met too many types as she can be bad and good. If there is good information there will be beneficial otherwise if it is complete information then there will be disastrous and destructive black for that child and same of teenagers. Online forums society as it happens in the real world, due to which there is also poor pressure, due to which pressure there is also stress.
To children teach teenagers to differentiate between right and wrong. Teenagers understand the means of information, give them the right opinion at the right time. Tell children and adolescents about the media. Meaning not only video games or the internet, but also T.V., magazines, music, ads in movies etc. It is very important to explain all these above mentioned things to the children and adolescents by their parents so that the adolescents and children can avoid the ill effects of internet. And they were saved from falling pray to many types of mental disorders. To save children and adolescents from this bad internet addiction, parents have to fulfill their own responsibility. Towards children and adolescents the need for open communication with there as well as need to engage in outdoor activities motivates children and adolescents to study with a paper pen. Encourage them don't allow them to watch rated movies or play elevated video make them aware of the danger of being exposed to violent parents should also keep in mind that the people of the child's environment, their behaviour, saying and thinking also effect them.
