ABSTRACT

Any organization's existence and development are greatly influenced by its workforce. In the present environmental elements it becomes significant for associations to fulfill their workers. Therefore, the well-being of employees is crucial to an organization's success. The term "employer welfare" refers to any and all actions taken by an employer with the intention of providing specific facilities and services to employees, such as housing, medical services, retirement benefits, loan options, and so on, in addition to wages or salaries to foster productive, healthy, devoted, and content employees for the business.

INTRODUCTION

The term "to take care of the well-being of workers by employers, trade unions, and governmental agencies" refers to the level of employee satisfaction found in welfare facilities. In addition to eliminating dissatisfaction, it fosters employee loyalty to the company.

A representative who feels valued will additionally be agreeable, fulfilled and more productive. It has not only resulted in increased productivity but also enhanced performance quality, thereby assisting in the company's profitable acquisition of market share. An employer can retain the best talent and reduce employee turnover thanks to a satisfied employee who will not look for alternative employment opportunities. Anything done in addition to wages for the benefit of employees' well-being and comfort is considered welfare. In order to keep employees for a longer period of time, welfare programs aid in maintaining employee morale and motivation. The government assistance estimates need not be in financial terms no one but, it can likewise be in any structures. The monitoring of working conditions, the development of industrial harmony through infrastructure for health, industrial relations, and insurance against illness, injury, and unemployment for workers and their families are all components of employee welfare. Representative government assistance is a thorough term including different administrations, offices and conveniences gave to
workers to their improvement. Employees are entitled to welfare benefits in addition to regular wages and other economic benefits under collective bargaining and legal provisions.

REVIEW OF LITERATURE

- **Ravi, S. (2016).** Management A Study on Employee Welfare Measures with Reference to Small Scale Industries at Hosur, In the early stages of Industrialization, The scope of Personnel Management was very limited. Recent developments in the field of Management increased the scope of Personnel Management. It can be concluded that the welfare measures in an organization are one of the factors for the workers to stay within the organization and to work towards success of the organization and this has been evident in this organization.

- **Patro, C. S. (2017).** Employee welfare measures in public and private sectors. Employees' play a key role in the existence and growth of any organization, therefore their welfare is essential. </table>
**INTERPRETATION**

From the above graph 20% of respondents said they are highly satisfied, 10% said they are satisfied, 5% said Average, 65% said they are not satisfied with Education facility provided by Company.

4. Company is providing Maternity leave to female employees.

<table>
<thead>
<tr>
<th>Opinion</th>
<th>Number of respondents</th>
<th>Percentage of respondents</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly satisfied</td>
<td>30</td>
<td>30%</td>
</tr>
<tr>
<td>Satisfied</td>
<td>10</td>
<td>10%</td>
</tr>
<tr>
<td>Average</td>
<td>10</td>
<td>10%</td>
</tr>
<tr>
<td>Dissatisfied</td>
<td>50</td>
<td>50%</td>
</tr>
<tr>
<td>Total</td>
<td>100</td>
<td>100</td>
</tr>
</tbody>
</table>

**INTERPRETATION**

From the above graph 30% said they are highly satisfied, 10% said satisfied, 10% said average, 50% of employees said they are dissatisfied with company providing Maternity leave to female employees.
FINDINGS

- 70% respond are satisfied with the quality of food in canteen.
- 20% respondents are satisfied with the education facilities provided by the organisation.
- 30% women respondents are satisfied with maternity leave provided by the organisation.
- 80% respondents Satisfied in Getting compensation in case of accidents.
- 70% respondents are Satisfied with the Ventilation and lights provided by the company.

SUGGESTIONS

- The management should improve the medical facilities, so that it will improve the health of workers and put their efforts in increasing the productivity.
- The organization should provide the education facilities for employees children, and it will reduce the employees turnover in the organization.
- The organization should provide the maternity leave for women employees.

CONCLUSION

At last I conclude that the project report undertaken by me is satisfactory and the work has got very good response from the respondents. The safety and the welfare activities taken by the company are very much beneficial for the employees, but the same time the organization should not provide the proper Education facility to employees childrens and at the same time the organization should not provide the maternity leave to the women employees. In the process majority of the respondents are very positive towards the facilities. According to my research some employees are get better facilities, and in this organisation should not provide good medical, maternity leave for women employees and education facilities.
